

TO ORGANIZE A LODGE

West Duluth Will Have a Lodge of Knights of Pythias Early Next Month.

Grand Officers Will Arrive in a Few Days to Initiate It—A Large Membership Certain.

Mayor Martin Gives Chief of Police Patterson Absolute Control of All Police Department Matters.

For some time a quiet effort has been made to organize a lodge of Knights of Pythias in West Duluth, and the matter culminated last Friday evening at a preparatory meeting held in the office of Williamson & McCormick. Arrangements were made to receive the officers of the grand lodge and the institution of a local lodge here the first Thursday in April, provided the grand lodge officers could be present. At that time, S. S. Williamson, president, and M. M. Mellen, acting secretary, were present. The meeting was well attended and all present were very enthusiastic over the proposed organization.

The manner of furnishing entertainment for the grand lodge officers and other visitors was discussed, and the time of a final meeting to complete preparations for the occasion was set for Friday of this week. Already a number of the members of the Duluth lodge have signified their intention of being present and it is probable that not less than 100 will attend. The local lodge will start out with a membership of forty and it is hoped to shortly increase the number to sixty.

HAVE FULL CHARGE.

Chief Patterson, of West Duluth, Will Rule Supreme, Says Mayor Martin. President Martin has placed all responsibility of the police department upon the chief by issuing an order directing members of the force to report to him for special duty at any time under his order and that it will be his privilege to discharge incapables and supply their places at his pleasure.

Chief Patterson has been informed that the people of Hancock have been troubled of late with a number of tramps and bums who are continually soliciting "hand outs" with all the grace that comes of long practice in the profession.

Church Services This Week.

This week is holy week and several of the churches will have special services during the time. Dr. Forbes of the Methodist will have meetings each evening on Friday will hold a continuous service from 3 o'clock in the afternoon until 9 in the evening. Rev. C. H. Remington will hold morning service in the church of the Holy Apostles, on Wednesday at 10:30 o'clock and evening service on Thursday evening at 7:30 o'clock. Special services appropriate to the day will be held on Good Friday.

West Duluth Briefs.

The ladies of the Congregational church will hold their missionary meeting this week at Mrs. Drury's on Third avenue east.

A gospel meeting for boys will be held in the Presbyterian church this evening at 7:30.

The business men's club will hold a meeting Friday night to discuss the sewerage and arduous questions.

O. O. Wold is traveling for the Minneapolis Tribune company. He leaves this week for a trip to Virginia on the Mesaba.

Capt. James Foley, superintendent of the Lone Jack mine, and Capt. Harry Roberts, manager of the McKinley properties, were here yesterday on business.

For rent—Two much money is paid for rent which should go towards buying a home. C. W. Hoyt, West Duluth, will sell you a lot for \$50 cash, balance \$10 per month. This is desirably located.

This is a snap. Cheap lot on First avenue west, Fifth division. Address look box 33, West Duluth.

FIN, FEATHER AND FUR.

The heart of a Greenland whale is a yard in diameter. The true herrings are ocean fishes, which never come into the river.

A goose with three wings is the choicest food in the flock. Mrs. Samuel Hart of Worcester, Montgomery county, Pa.

Foxes are so plentiful between East Bucklepost, Me., and Bangor that the stage horses are frightened by their barking. On the east coast of southern New Zealand there are giant trout. From either one of five or six rivers one may take 100 pounds of trout in a day with a minnow or 20 pounds of salmon.

The trout average about 10 pounds in weight, but run as heavy as 35 pounds.

FIGS AND THISTLES.

Bees in the bonnet never make honey. Hence the moment envy shows its head.

The religion that is used for a cloak has no warmth in it. Character is what we are when we think we are not watched.

The world will always listen to the man who makes it think. The man who risks a hobby always wants the whole road for himself.

Nothing hurts so like disinterested kindness when we know that we do not deserve it.—Hunt's Horn.

POLISHERS.

For jewelry, spirits of wine and powder French chalk. For marble, sand, then emery powder and lastly putty powder. For ivory, prepared chalk applied rapidly with chemical leather. For horn, scrape with emery powder and water, finishing with jeweler's rouge. For pearl, a paste of powdered rotten stone and olive oil, thinned with oil of vitriol and applied with cork covered with velvet.

TO INCREASE BATTING.

Caylor Thinks That the Pitcher is Curbed at Last.

YETLIEP recent legislation on rules at the National League's spring meeting in New York every man or boy in the United States who either reads about the national game, sees it played or judges to play it becomes deeply interested. The rules of the National League control baseball playing everywhere, whether it be amateur or professional. Therefore the radical changes made by the League in its playing rules will affect games universally for 1893.

The most important of these changes is that which puts the pitcher further back into the diamond. The experiment is a daring one, and the most conservative among the baseball observers await the result with some misgivings. The increased distance is virtually five feet. Therefore a line 50 feet from the home plate has been drawn plus the distance of the pitcher—the limit of his approach to the batter in delivering the ball. He dared not get so much as the toe of his shoe over this line in stepping forward to pitch. Under the new rule his boundary line is put behind him—60 feet 6 inches from the home plate. The pitcher is thus 10 feet further back from the home plate than he has been. A long line is drawn from the pitcher's hand to the home plate, and in delivering it he must take but a single step—not a jump—nor about five feet. A long line is drawn from the pitcher's hand to the home plate, and in delivering it he must take but a single step—not a jump—nor about five feet. A long line is drawn from the pitcher's hand to the home plate, and in delivering it he must take but a single step—not a jump—nor about five feet.

The new rule makes much easier for the long-suffering and much abused umpire. He need not now watch where the pitcher lands with his "forearm." He but need only observe that one of his feet is on the prescribed line when the delivery begins. To the superficial student of the game this change in pitching distance may appear unimportant, but it really is. When it is remembered that pitchers like Mullins, Hecker and Morris in their day acquired a winning superiority by stepping with half their advanced foot over the line, some idea will be had of the difference which five feet more will make to the batter. The pitcher has been the personification of trouble to baseball legislators ever since the game became professionalized. He has slowly and insidiously overruled the restrictions set by the National League. In the early seventies the rules required that he deliver the ball with the arm swinging almost parallel with the body. This was the "pitching" and in this delivery, the pitcher's arm was kept close to his body. The umpire is widespread that the new rule will remove the crow from the pitcher's king. That hereafter he will be no more important than the other members of the team. For several years the public has clamored and hungered for "more batting." Now they'll get it. There may be a surfeit after the change in base hits. Too much of the change would be unpopular. And yet the summer's batting promises to be of the full, long, set-on-up-swing kind. My note of opinion is that one season, or maybe part of one season, will be enough under the new rule to make the baseball public push for a new set of rules.

Modest Paternalists. Minneapolis Journal: North Dakota's legislature appropriated \$100,000 for a state elevator at Duluth. The paternalists are more modest over there than in Minnesota. Our state elevator champions want to spend about \$3,000,000 to insure a fat take.

Kickapoo Indian Sagwa

T. B. NOLES AND FAMILY, URBANA, ILL., RESTORED TO HEALTH BY SAGWA.

URBANA, Ill., Sept. 24, 1892. Kickapoo Indian Sagwa has accomplished such great and lasting good in my family that I feel that the world ought to know it. My wife had suffered with a combination of Female Troubles and Indigestion for several years, and for two years had been almost blind, in fact, was blind to such an extent that she had to be led from place to place. From the First Bottle of Kickapoo Indian Sagwa she began to improve, the improvement being so rapid as she continued the use of Sagwa as to Astonish Our Neighbors, who had known her condition. After taking but six bottles of Sagwa, she was wholly free of her Female Diseases, could eat and digest her food, and most wonderful of all, her Eyesight was Completely Restored. While in this condition my wife gave birth to a boy, who inherited her weak eyes and he became Almost Wholly Blind. Knowing what Sagwa had done for his mother, I gave him this remedy, and he is today as perfect specimen of physical childhood, as are as good as anyone's. I had a Disease of the Kidneys, being my own remedy, and it was a terrible time that I could perform but very little labor. I also took Sagwa using but two bottles, and my Kidney Sound As a Dollar. Kickapoo Indian Sagwa certainly Performed Wonders in My Family. T. B. NOLES, Urbana, Champaign Co., Ill.

An Excellent Site. Superior Call: The city of Duluth is considering the advisability of laying out a park on Duluth heights. The site is perhaps the best within the boundaries of that city, and it would be desirable for many reasons to choose that locality.

The Greedy Cool Men. Chicago Post: The lack of the Minnesota coal combination may call the Hon. Ignatius Donnelly a crank and attempt to belittle his crusade against them, but they must admit he is giving them some hard nights. The mass meeting in St. Paul to protest against the extortion of the Northwestern fuel company was big and enthusiastic, and it showed a temper that bodes ill for the greedy cool men.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
March 27.—Fair weather, with a light
drizzle, and a light breeze from the west.
The temperature has risen slightly in all sec-
tions. The wind is from the west, and the
clouds are from the west. The temperature
has risen in all sections. The wind is from
the west, and the clouds are from the west.

A Public Park Needed.

The suggestion first made by The
Herald that a park should be established by
the park commissioners on the hill-
top near the head of the incline road has
met with very general approval, although
a correspondent has urged that Cascade
square should be improved before an-
other park is created. There is no
reason why these two matters should
conflict. Cascade square certainly
should be improved and no doubt will be
at an early date, but the other project
should receive early attention because it
interests a greater number of people. A
park on the heights back of the city
would be patronized by many thousands of
people during the summer months. This
is proven by the immense crowds that
visited the Pavilion last summer and the
large numbers who have attended the
few band concerts given this season.

There was a very large crowd yesterday
—strong evidence of the desire of the
people to find a place for quiet enjoy-
ment and pleasure. When the weather
grows warmer, the people will prefer to
remain in the open air, and then the
park will become a necessity.

It is said the park board is handicapped
at present by lack of sufficient funds to
purchase the necessary land and improve
it for park purposes, but the city council
might properly make some arrangement
whereby the board could be assisted fi-
nancially until its funds are increased by
the returns from the tax
collections, because this is a
subject in which all the people are in-
terested. No one will question the value
of parks, especially in large cities, and
we all believe Duluth will be a large city
in the near future. Land can now be
purchased for park purposes at one-
tenth the price that would be asked ten
years hence, and the park board has
pursued a wise policy in devoting its at-
tention almost exclusively to desir-
able tracts of land, leaving improvements to
the future.

Here, however, is a case where land
should be purchased and improved at
once. No other point is so favorably
situated for a popular resort, and no
time should be lost in establishing a good
sized park commanding a full view of
the city, harbor, bay and lake.

A Better Water Service.

The Herald is pleased to see that the
News Tribune has come to its assistance
in the effort to secure a better water
supply for the city, and feels assured that
the movement will now become so strong
that the water company will be forced to
take action to improve its service. The
News Tribune complains about the in-
adequate water service that is now fur-
nished on Third street and the streets
higher up the hill, with the result that
property in that section is greatly en-
dangered by the inability of the fire de-
partment to obtain sufficient water pres-
sure when fires break out. The fire of
Saturday on Ninth street, near Tenth
avenue east, is an instance in point, the
department being unable to get sufficient
water to subdue the flames, although a
good pressure was obtained on Eighth
street.

The Herald has frequently urged that
steps be taken to give the higher portions
of the city a proper water supply. That
section is being populated rapidly, and
it would grow still more quickly if it en-
joyed a good water service. Duluth
Heights, for instance, is experiencing a
regular building boom at present and
this year will witness quite a good-sized
population located there. It is but right
that these people should be furnished
with water, and The Herald feels as-
sured that it will have the support of the
News Tribune in demanding that the
company extend its mains to that dis-
trict.

The News Tribune reminds the people
that "the gas and water company last
year entered into the most solemn agree-
ment with the city, on condition that
the suits then pending in the supreme
court against it were withdrawn, to
extend its mains and to give the city

better service," and it asserts that
the company has made no attempt to
keep this promise. Now The Herald be-
lieves in "giving the devil his due," and
it cannot, therefore, subscribe to this
statement, which was undoubtedly made
under a misapprehension regarding the
agreement. As far as The Herald can
learn, the company has lived up to its
promise, having made the extensions and
placed the hydrants agreed upon. This
is all that it was required to do up to
the present date.

Another part of the agreement is to put
in a high service system and the company
has until November 1 next to complete
that system. It is not fair to condemn it
for non-compliance if its promise, until this
time has expired. If when November 1
rolls around, the high service system has
not been provided, there will be good
reason to kick. It will do no harm now
to stir up the company in reference to
this matter, so that November 1 may see
the system perfected. Then the higher
portions of the city will probably get an
adequate service, and Duluth Heights
may likewise get its rights.

A Marked Improvement.

The financial situation shows marked
evidences of improvement. The drain
of gold to Europe has largely disap-
peared and is now at its normal propor-
tions, while the "silver scare" has like-
wise subsided to a large extent. There
is now plenty of gold in the national
treasury. Secretary Cullie has declined
offers of more gold made by the national
banks in New York, on the ground
that the treasury is now provided with
all the gold it requires.

In his financial report for last week
Henry Clews, the New York banker, who
has been declaring until recently that
the only remedy for the financial dis-
arrangements was the immediate repeal of
the Sherman silver purchase law,
appears to have entirely recovered
from his scare and now ad-
mits that things are not as bad as they
have been, and that, in fact, there is a
distinct improvement in the money mar-
ket and an important recovery of con-
fidence. We are now entering a four
months' period during which, in normal
times, we usually ship several millions of
gold per month, and the question is
whether there are any influences likely
to vary these remittances from the usual
average amount.

In regard to this, there are certain
facts that deserve special consideration,
in Mr. Clews' estimation. In the first
place, during January and February, the
export of our leading exportable prod-
ucts was hindered in an extraordinary
degree by speculative withholding of
these articles from the market. In the
next place, this swelled our shipments
of gold for those two months to possibly
the extent of \$20,000,000 over what
they would have been had the exports
of produce taken their usual course. And,
in the next place, the country is now
flooded and the money market
oppressed with an altogether
extraordinary surplus of products
awaiting export, and which, it would
seem, must now begin to go out in large
volume. The difference in value of the
visible supply of these commodities com-
pared with a year ago, is fully equal
to the normal average net export
of gold from this time to June 1. This
is a fact that demands much credit in
considering the probable movement of gold
during the spring months.

The most important offset against this
substantial factor is the fact that Austria
has completed her loan for the recon-
struction of her currency system, and that
the procurement of gold for that purpose
will take effect immediately. The bal-
ance now remaining over the turned over by
the Rothschilds to the Austrian govern-
ment on account of this operation is about
\$15,000,000. Under ordinary circum-
stances, the Rothschilds would probably
have sought to get this required sum of
gold from the United States, as some
\$12,000,000 was taken from us in January
last for the like purpose. But it is at
least supposable that a banking house
with such important direct or indirect in-
terests in this country would not wantonly
trifle with the sensitive state of financial
affairs now prevailing here, but would
seek to avoid such a course, and, espe-
cially, to avoid the bank of France, whose
present gold holdings are \$55,000,000
above the stock of a year ago, and could
therefore satisfy the remaining wants of
Austria and yet have \$10,000,000 more
than the supply at the same time of 1902.

On the whole, therefore, concludes Mr.
Clews, the prospective movement of the
foreign exchanges, so far as it may be
inferred from existing factors, bears a
hopeful aspect rather than a threatening
one. And this is really, at present, the
controlling consideration. For both at
home and abroad, we have gotten over
the effects of the failure of congress to
suspend the purchases of silver, and all
sides will regard that as a sleeping fac-
tor, until the next assembling of con-
gress; when, from present appearances,
seems unlikely to occur before next
December.

J. Slat Fassett, who ran against Ros-
well P. Flower for governor of New York
and was beaten out of sight and later
turned up at the Minneapolis convention
as anti-Harrison worker, has been keep-
ing very quiet lately. It is now an-
nounced that he intends to return to
active politics by being a candidate for
the state senate in the Elmira district this
fall. The district is Republican and he
will probably be elected. Mr. Fassett is

barely 40 years old, so that he may yet
have many years of political life.

Among those decapitated by Secretary
Hoar's Smith's snickerbox on Saturday
was Col. C. A. Lounsbury, erstwhile of
Duluth and for several years special
agent of the general land office, in which
capacity he did excellent work. The
colonel, however, has been writing red-
hot Republican correspondence to Min-
neapolis papers from North Dakota re-
cently and was consequently marked as
an "offensive partisan."

Saturday's edition of the Chicago
Inter-Ocean was a mammoth issue, con-
sisting of sixty pages. This large paper
was issued in celebration of the Inter-
Ocean being 21 years old on that day.
The Inter-Ocean has certainly shown its
right to live, and it was never so suc-
cessful and prosperous as at present. It is
an excellent newspaper, ably edited and
enterprising in news-gathering. That it
will continue to grow and prosper is a
certainty.

Mme. Diss Debar is again behind a
prison's bars, having been sent to Joliet
for two years for swindling people in
Illinois. This is the notorious adventu-
ress who posed as a spiritualist and by
the aid of alleged "spirit paintings"
worked Lawyer Marsh of New York, for
many thousands of dollars. She is a
clever swindler in her way, and the
proper place for her is in prison.

Mr. Wack's bill to appoint a commis-
sioner to investigate the Torrens land
system and report a bill at the next
session of the legislature, applying the
system to Minnesota, should be passed.
The Torrens system is simple and ex-
pensive and its adoption would be a great
benefit to the state. The present system
of land transfer is cumbersome, expen-
sive and antiquated (land should be cast
aside).

There is one Ohio senator who enters
peculiar ideas. He said in a recent
speech that he carries railroad passes
and uses them, and added that the offi-
cers of the companies that furnished the
passes ought to be sent to jail. He over-
looked the fact that the bribe is just as
guilty as the briber.

Indianapolis is preparing to give a
hearty welcome to the G. A. R. veterans
who will hold their annual national con-
campment in that city this year. The
city council has voted \$75,000 for their
entertainment and the citizens will raise
an equal amount.

Successors must soon be selected by
President Cleveland to Generals Scho-
field, Howard and McCook, who will go
on the retired list at an early date. The
probable successors of these three gen-
erals are already being discussed in
army circles.

According to the Washington corre-
spondents, President Cleveland rises early
and works late. The position of chief
executive of this nation is no sinecure.

A Chicago man had a woman arrested
a few days ago for stealing his glass eye
and he recovered it. Then he winked

Oh, My Heart!

Palpitation and Rheumatism.

Mr. James S. Jones
Bismarck, Wis.

"From my experience I think Hood's Sarsa-
parilla will do everything it claims and more
too. It is surely entitled to my heartfelt thanks.
I think it is the best medicine in the world. For
25 years I have suffered with palpitation of the
heart and rheumatism. I tried everything
could hear of, but I have found Hood's Sarsa-
parilla to be the only medicine that has cured
me. In fact I have now all the time until
for three years."

I Could Not Labor Any.

I read about Hood's Sarsaparilla and thought I
would try it. I have taken four bottles and
feel like a new man. There is no more labor
for me.

MILL SITES ARE HIGH

Murphy & Dorr, of Saginaw, Wanted to Build a Sawmill, But Sites Were Too Costly.

Other Concerns Looking Over the Situation, But Have Not Been Able to Get Sites.

A Sketch of G. Fred Stevens, of the Cranberry Lumber Company—The Season's Logging Operations.

Duluth has got to be a big town now and an old saw mill, more or less, cuts but little figure in the aggregate of her institutions. Consequently incoming saw mills have to fight for place instead of having desirable sites given them with resolutions and a banquet. Murphy & Dorr, of Saginaw, had been offered in evidence as to the correctness of this proposition. Last fall, having completed the purchase of a big chunk of stumpage in St. Louis county, northwest of the city, they began to look about to decide upon which site along the bay they would select when they were offered by public spirited boards or individuals.

No sites came and then the enterprising firm went after them. It has been after them ever since, and still it has no mill site. The real estate owners, with heresies pointed to the main chance, have named up prices which are prohibitive. Instead of encouraging the mill men they have driven them away. T. E. Dorr left for his home a few days ago with the announcement that he had given up the struggle, at least for the present. It was the intention of the firm to build a mill with a capacity of 25,000,000 feet a year. Other concerns looking over the situation have decided to build their mills in the interior, or else are investigating such openings.

The Northwestern Lumberman of Chicago contains in its last issue an excellent portrait of G. Fred Stevens of this city, accompanied by the following personal sketch: "As the gentleman remarked who was exhibiting the famous libelous panorama, the next picture of

Easter Hats and Bonnets,

At this writing we know of forty people who will have a new Hat or Bonnet for Easter, as there have been just forty ladies who secured, this morning, that all important article—the Spring Hat and Bonnet, and it is now only 11 o'clock. The \$3.50, \$4.00 and \$5.00 Hats seem to surprise and delight everyone. There probably never was a Millinery Opening where more speedy selling took place.

Did you notice the congregation in the Cloak room. There was another point where joyful discoveries were made, and the selling of Cloaks kept fair pace with the Millinery.

AT THE PAVILION.

Another Great Crowd on the Hill Yesterday Afternoon.

The crowd at the pavilion yesterday were about 2500 people, representing about 5000 fares to the Street Railway company. The passengers commenced going up in droves shortly after 1 o'clock and at 3 o'clock the big building was crowded on the upper floor; the roof promenade and lookout tower being well filled also. The city band went through a careful and attractive program of twelve selections, encores being given on two of the numbers and heavily applauded by the throngs upon all. The freerzes and night usually as well as thaws by day and is of little benefit to the streams.

Gilbert Young, of Manitowish, a well-known figure in Manitowish lumbering circles, has moved to Duluth. He will engage in lumbering in some of its branches.

THE ICE IS VERY THICK.

Lake Superior Ice Two Feet Thick at the Apostle Islands.

The ice is reported by fishermen as about two feet thick cut among the farther Apostle Islands, says the Bayfield Press. In some places it is rapidly cutting away from underneath, and if this continues will rapidly disintegrate. About the harbor where ice is being cut the thickness varies from nineteen to thirty inches.

The harbor at Bayfield has usually been open soon after April 1, although boats from outside have not reached us until May. The business between Bayfield and the islands usually begins soon after April 1. Should the weather be reasonably warm, there is no reason to apprehend a later opening than usual. The stone quarries on the islands are already getting their crews together and work at the usual time. Fishermen are making nets and attending to the refitting of boats.

The Booth Packing company will put a new and fast tug on this run for service in picking up fish along the shore and among the islands. Several mammoth rafts of logs will be ready to be transported to the mills as soon as the ice goes out.

New Vessel Appointments.

The Chicago line of steamers will sail under a new name next season—the Lake Michigan and Lake Superior Navigation company. The officers and engineers have just been appointed by General Manager Joseph Austin, as follows: Manitowish, Capt. Allan McIntyre, Engineer Wm. Conley; Peerless, Capt. H. C. Page, Engineer Wm. Lalande; City of Duluth, Capt. Donald McLennan, Engineer Henry Chalk; City of Traverse, Capt. I. M. Twitcheell, Engineer S. W. Armstrong; Jay Gould, Capt. James White, Engineer A. P. Williams; J. L. Hunt, Capt. Reynold, Engineer D. MacManney. The new steamer Manitowish will run between Duluth and the Soo. Her commander, Capt. Allan McIntyre, is well known here. McIntyre has not sailed for several years, but has managed the company's business in Chicago.

MAY USE THE BRIDGE.

Rumors That Street Cars Will Run Over the Northern Pacific Bridge.

It has been rumored that the street car companies of Superior and Duluth would use the Northern Pacific bridge to make connections between the two cities. The cars of the Duluth street railway company are broad gauge and could be used on the railroad track easily. The best reason of all for the railway allowing the street car companies to use the bridge is that the short line trains did not pay last year. The ferries to be put on in good shape this season will cut into the business of the short line trains more than ever if they are continued, but they will probably be taken off. A prominent local railway official said to the Superior Leader in speaking of the matter:

"What the street car companies of Superior and Duluth and the Northern Pacific railroad ought to do the coming summer is to build a broad gauge line commencing at the corner of Tower and Broadway, continuing west to the Union depot, then over the Northern Pacific tracks to the Union depot, Duluth, and up the hill to Superior street. This would make the shortest possible route between the cities and convenience of transfers unparalleled. The double track of the Northern Pacific and electric signals and switches on the bridge now in operation are a complete success and to change the line for electric service would not be very expensive.

"Both street car companies could furnish the power with but slight additional cost. A schedule of rates could be charged something as now in effect between St. Paul and Minneapolis—10 cents for the through trip from any part of either city. This would make the best paying line at the head of the lake and the Northern Pacific would not doubt be glad to enter into it on a fair division as their short line traffic is badly affected as soon as navigation opens by being placed in direct competition with the boat companies."

On the other hand it is said that the Northern Pacific bridge is not in good condition for any additional traffic; in fact, that it is liable to be condemned at almost any time.

Engines For Ore Traffic.

Nine powerful engines of the mastodon or twelve wheel type have been built for the ore traffic on the Duluth & Iron Range railroad by the Schenectady Locomotive works, Schenectady, N. Y. They have cylinders 22 by 22 inches; eight driving wheels 4 feet 6 inches diameter, and a four wheel truck. Boiler pressure, 180 pounds. The tender tank has a capacity of 3500 gallons, and the engine and tender together weigh 240,000 pounds. They were designed by Mr. Pitkin, superintendent of the works, and are somewhat similar to the engines built for the Iron Range & Huron Bay railway by the Brooks Locomotive works, Dunbar, N. Y.

The Employers' Liability policy, issued by the Fidelity and Casualty company, of New York, (assets \$1,820,542) indemnifies the employer against damages he may be required to pay in settlement of accidents to employees within the limits prescribed in such policy. D. H. Costello district manager, 11 Phoenix block.

THE FISH EXHIBIT.

It Will be on Exhibition at the Hatcher for a Day or Two.

Between two and three hundred people went out to Lester Park yesterday from various parts of the city to see the state fish exhibit as arranged by Dr. Sweeney for the World's fair. All the members of the piscatorial tribe in Minnesota are represented in the display and in several cases, several members of the same family are on view. The display of wild water and prairie fowl is also very creditable and interesting. To accompany the specimens will be an Indian birch bark canoe and in it two dummies, one representing a red man paddling his light craft and another seated in the canoe in the genuine Indian style.

Many who visited the exhibit yesterday were those who could not conveniently do so any other day. The doors are open today and the public is assured that admittance will be possible at least until Tuesday noon. After that time, it is expected that the work of installing the specimens in the car that takes them to Chicago will commence. It is only just and proper to state that Dr. Sweeney and his attendants spare no pains to make a visitor feel at home and to fully exhibit and explain all the features of it.

They Were Arrested.

The two Superior Chinamen in whose establishments opium was found by Inspector Mann last Wednesday have been arrested and taken to Madison. They were first examined before United States Court Commissioner Perkins and were held on a charge of selling opium without a license and having in their possession a stamp taken from a package of opium which had not been destroyed as it should have been. These stamps which are taken from packages whole by the almond eyed laundrymen, are sold to the wholesale dealers in opium in San Francisco and other points, sometimes in China.

The Municipal Court.

In municipal court this morning John Curtin and Alex McShea, up for drunkenness, were committed to the county jail for ten days. John Hiedman for the same offense paid \$12 and secured his freedom. Ole Langlin denied the charge of drunkenness and his trial was set for 2 p. m. Alex Stewart and George Bain for disorderly conduct were committed to Sheriff Sharpy's care for five days.

Professor Cooley Here.

E. J. Cooley, principal of the High school at Aurora, Ill., and who has been recommended by Superintendent Benfeld for election to the principalship of the Duluth High school, is in the city today and it is presumed that he will be eventually landed over by the members of the school board.

World's Fair Visitors.

An intending visitor to the coming World's fair at Chicago need have no fear as to the possibility of securing satisfactory accommodations, at reasonable rates, at either the many hotels or residences listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 9000 private families who will accommodate visitors in Chicago during the time of the fair, viz: May 1st to October 30th; gives their names and addresses, and number of rooms each will have to spare. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, comparing in advance with one or more families in that locality with regard to rates and the accommodations desired.

The Wisconsin Central lines will in due time publish low excursion rates to Chicago and return for this occasion, while the daily passenger train service, including through sleeping and dining cars to Chicago, will be as usual at the head of the list in every particular. To help you fix your advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

All Fools Day.

From a time long beyond the memory of the "oldest inhabitant," the first day of April has been deemed to give license for practical jokes to any extent. In the middle ages and down to the latter part of the eighteenth century, the peasantry of Europe celebrated All Fools Day by gathering in some church, choosing a bishop or archbishop, or pope of fools, and performing such burlesques on religious ceremonies as would not be thought highly improper, if not sacrilegious. It is said there is a fool born every minute, and the literature of all centuries is sprinkled with allusions to them. Carlyle said that the population of Great Britain was thirty million people, "mostly fools." This was dyspepsia run mad—but almost all persons are foolish about some things. Sometimes it does not make any important difference, but there are matters in which it is fatal to be foolish or foolish—and one of these is the selection of a railroad when you travel. You will be pre-eminently wise if you always choose the Burlington route when traveling, for it goes everywhere and has the finest accommodations. GONE WITH ANOTHER

Fred T. Hart, After Eleven Years of Wedded Life, Proves Unfaithful to His Wife.

Preferred the Affections of a Variety Woman Known as Jennie Fay and Left With Her.

His Wife Charges Him With Stealing Her Diamond Ring—She is Determined to Prosecute.

If after eleven years of wedded life a husband leaves his faithful spouse and wanders off with a variety woman, decidedly repulsive in appearance and possessing no personal attractions it may be reasonably assumed that marriage is far from being a success. In one case at least, unusual as it may seem this is the tale of one who has married. Fred T. Hart recites:

Hart had been employed in the fire department as a painter until about ten days ago when he drew his pay and quit. He was a good workman, punctual and no cause for complaint was ever found against him. There was another side of his life, however. Last July his wife went to Minneapolis to keep house for her three brothers. Hart about this time became enamored of a buxom damsel known as Jennie Fay, employed at Ole Olson's variety theater, and ever since then they have lived together, in various places, unbeknownst to Mrs. Hart. Tom Hayden was aware of it, however, for he gave them notice at one time to leave a certain house on First street where they were living.

In February Hart arranged for his wife to return from Minneapolis and early this month she arrived. They arranged to go to Virginia, on the range on Saturday last and in the meantime were staying at the home of Nils Nelson, of the board of public works.

It was not until Wednesday that the wife knew of her husband's disgraceful liaison although she had suspected something of the kind for two weeks previous. On Thursday night Hart left and she has not seen him since. She was to meet him at Superior on Saturday and go with him to Virginia, but he did not show up at the appointed place. Mrs. Hart now says that he has run away with Jennie Fay and thinks they are in Superior. She saw County Attorney Teas this morning for the purpose of securing a warrant for his arrest on a charge of adultery and theft.

She alleges that he stole her diamond ring. She further says that he purchased \$160 worth of furniture for the woman at Smith, Farrell & Steele's, that he sold her own furniture for \$35 and pocketed most of the money, and that he had stolen several things. She is determined to prosecute him and was quite indignant this morning over the fact that she has some trouble in taking steps toward securing his arrest.

ALMOST A STAMPEDE.
How a Young Lady Was Frightened by an Overseer.
It was on Pine street, between Third and Fourth. The street is narrow, the sidewalks are more so. Two newsboys were discussing some important matters of state over near the Merchants' Exchange. A gentleman with a pair of deerskin rubbers and in a terrible hurry was coming up the street on the north side. Coming in an opposite direction was a young couple. Of course the sidewalk being slippery it was necessary for him to assist her, and the sidewalk being narrow it was also necessary for them to walk very close together.

"I'll tell you what I'd do with you," said one of the newsboys at the climax of his argument.

The man in an argument at this particular moment lost one of his rubbers. It came off at the heel, and in his wild rush up the street the impetus of his movements caused his toe to remain in the overcoat just long enough to give it a forward motion, and it went flying along over the icy walk about 10 feet in front of its owner.

"What yer givin' us?" asked the other newsboy in a tone of supercilious scorn. "I tell you what I think of der whole scheme. See I thinks—rats!"

As the emphatic remark about rodents cut through the air like a hot knife through fresh cheese the escaped overcoat shot under the skirts of the young lady. She did not know what it was, but the noiseless motion of the black object and the cry of rats were sufficient. She emitted a scream that brought the neighboring population to their windows, while her young man's hair stood up, his heart stood still, and an unhandy villain look came into his eye.

He was about to rush to the rescue when his feet flew up and he sat upon the hard sidewalk. When the young lady screamed, she also jumped straight up in the air, and when she came down the man who owned the rubber was saying:

"Beg pardon, but that was my overcoat."

The young lady recovered quickly, and watching her discomfited escort pick himself up the absurdity of the whole thing seemed to dawn upon her, and she burst into an uncontrollable fit of laughter, in which the young man soon joined, and they continued on their way to gether.

The newsboys were dazed for a moment, when one of them availed himself of his stuper and remarked:

"Yum, yum. Chummy, git onto der taffy."—St. Louis Republic.

WHEAT HALF A CENT HIGHER.

There was good demand for track wheat and fair speculative trading.

There was fair trading in May and July wheats and good demand for track wheats, with a considerable number of sales, on the Duluth board today. Spot stuff was neglected. May opened 2c higher and July 3c higher, and later May advanced 1c to 67c and July 1c to 70c. May afterwards closed off a shade. The close was dull but steady at the advance all round.

The visible supply report showed a decrease of 50,000 bu. in wheat, 100,000 bu. in corn and 17,000 bu. in oats. New York elevators today received 52,000 bu. of wheat. Liverpool cable reported moderate demand for wheat and prices bid higher but not sustained. Following were the closing prices here today:

No. 1 hard, cash, 65c; May, 66c; July, 67c; No. 2 hard, cash, 55c; May, 56c; July, 57c; No. 1 northern, cash, 61c; May, 62c; July, 63c; No. 2 northern, cash, 51c; May, 52c; July, 53c; No. 1 soft, cash, 41c; May, 42c; July, 43c; No. 2 soft, cash, 31c; May, 32c; July, 33c.

Our inspection today, 35,000 bushels wheat, 6,500 bu. corn on track, last year, 59,000.

All that brains could devise are creating the swiftest, the newest and most beautiful conceits in millinery. Our formal opening will take place Wednesday and Thursday.

An Ancient Quarrel.
The acknowledged oldest minstrel joke is a witticism of the late Archbishop Whately, who was born in London in 1787 and died in Dublin in 1863. One of his biographers says, "His wit was great, his generosity magnificent, and his hospitality boundless." Here is the "joke."

"Why can a man never starve in the Great Desert?"

"Because he can eat the sand which is there?"

"But what brought the sand which is there?"

"Noah sent Ham and his descendants mustered and bred."

The same wit of the man who asked, "What was Joan of Arc made of?" and who, when the interlocutor gave it up, replied, "Joan of Arc was made of Orleans."

On still another occasion the archbishop startled his listeners by asking, "If the devil lost his tail, where would he go to find a new one?" and without waiting for any one to guess replied, "To a gin palace, for bad spirits are retailed there."

At dinner one night this witty prelate asked the company to name the difference between an Irishman and a Scotchman on the top of a mountain in frosty weather. Nobody hazarded an explanation, and the proposer answered, "One is cowed with the kilt, and the other is kilt with the cowd."

Too Late.
After the wedding ceremony a friend of the family took the father of the bride apart and whispered to him, "I observe that you do not seem to be aware that your son-in-law is over head and ears in debt."

"Are you sure?"

"Certainly, and I am convinced he has only married your daughter with the object of paying off his creditors with the dowry."

"Why did you not mention this before?"

"He owes me 5,000 reals!"—Calendario Bilbaino.

Only a Financier.
"Susan," said the housewife, "I think that once a week is quite often enough for your sweetheart to be calling here."

"He ain't my sweetheart," Susan explained. "He's the man I'm going to marry. I don't suppose if I had a sweetheart I'd go an spilo him by marryin' him!"—Indianapolis Sentinel.

A Good Idea.

A THEATRICAL REVIEW

Henry E. Dixey Has Finally Realized the Extent of His Ability and Will Revive "Adonis."

As a Burlesque Actor He is Great, But as a Legitimate Comedian He is Ordinary.

"Joseph" at the Union Square—The Remarkable Career of Martha Morton as a Playwright.

NEW YORK, March 26.—Henry E. Dixey has at last and very sensibly come to the conclusion that his public had reached some time ago—that is, in effect, that Dixey as a burlesque actor is great, but as a legitimate comedian he is very ordinary, with a strong emphasis on the qualifying adverb, in the case of comedy. After Dixey's really phenomenal success in "Adonis," he was justly recognized as one of the greatest of American burlesquers. In fact, he was the only one whose work in that field was genuinely artistic.

He tried "The Seven Ages," but the piece was unfortunately conceived, and no amount of good execution could make it a "go." Then came the engagement with Charles Frohman during which Dixey was featured in "The Man With a Hundred Heads" and "The Soldier." These farces, however, possessed no remarkable inherent merit, and while Dixey was fairly good in them the words are full of "fairly good" actors, and his reputation was accordingly not added to by this venture. Next Dixey tried starting in earnest comic operas, and once more that annoying combination of adverb and adjective, "fairly good," was very much in evidence.

At last, however, Dixey has determined to return to his first love, "Adonis," in which he will open at the Casino Monday evening, April 3, in a run the length of which, as I understand it, is to be determined by the reception accorded the burlesque "Adonis" has been "up-to-date," which means that some new funny matter has been written in. One of these new scenes much is expected.

The scene represents the back yard of a flat building in this city and affords the opportunity for introducing many ludicrous episodes which will doubtless be happily repeated in New York, where so many persons exist—"live" is too strong a term—in the little steam-heated and coal-burned-for-the-range apartments which contrast so dramatically with the grand old mansions of the city.

A very excellent light comedy organization under the management of H. H. Morris began an engagement at the Union Square theater Monday evening in a farce entitled "Joseph," which was written by Leon Gaudillot, a Frenchman, and was adapted for the English speaking stage by Madeline Wetsen, a Londoner. While the story is very amusing, it is not a new one, and the French farce style, where convenient doors, through which people who are in the way are unconsciously pushed, figure prominently.

Act 1 finds the Hacketts and Bobby installed in a handsome house at Long Beach, a suburb of London. Bobby is a young society swell in love with Sophie. They are surrounded by people who laugh at their mistakes in secret and respect their hospitality and make one of them for their own ends. The two sisters and brother, intoxicated by the new atmosphere, plunge into all kinds of extravaganzas. When Brother John arrives from Bethel, his honest instinct discerns at once the true state of affairs. He begs them to go home with him. They refuse and meet his authority at defiance. Cut to the heart by their ingratitude, he is about to leave alone when the sight of Bobby intoxicated arouses in the real danger of the situation, and he resolves to stay and save them from the consequences of their own imprudence.

Act 2 finds Bobby in a fast set gambling, drinking and going headlong to perdition. He turns a deaf ear to all of John's efforts to restrain him. At length John's patience gives out, and he turns upon the crowd of sycophants and drives them from the house. Act 3 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 4 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 5 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 6 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 7 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 8 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 9 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 10 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 11 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 12 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

Act 13 finds the family in the old home where Brother John has brought his members. Bobby and his sister realize that they had been pursuing a deceiving phantom and had left real happiness at their own fireside. Brother John, after fixing them all up "comfortable," sits down with Betty to finish their game of chess.

good part in a surprisingly artistic manner. If Martha Morton, whose latest work, "Brother John," William H. Crane produced at the Star theater Monday evening, shall develop into a great play, it will tend to demonstrate the correctness of the theory that dramatists are born, not made. From childhood it has been Martha Morton's ambition to write plays. While visiting friends in Europe she devoted much of her time to studying the methods of the French, German and English dramatic authors. Her first effort was expended on dramatization of George Eliot's great novel, "Daniel Deronda," which she has never offered for sale.

Shortly after her return to New York from Europe she became interested in an entertainment to be given for a charitable affair and wrote a travesty of "May Blossom," which was then in the height of its success at the Madison Square theater. Miss Morton received so many compliments for this work that she determined to make a serious effort to realize the ambition of her life. She accordingly wrote "Hedone," in which Clara Morris appeared with some success. Miss Morton attempted to sell the play to Cora Tanner, who starred in it for some time.

Miss Morton's next work was "The Merchant," which daily went the rounds of the principal managers and was as duly returned to its owner. The New York World then offered a prize for the best American drama. Miss Morton started "The Merchant" off on another journey and was rewarded for her persistence by having it declared the best of the many hundred plays submitted in competition. An elaborate matinee production followed, when "The Merchant" was once more consigned to the trunk. At this a purchaser came along and paid \$1,000 for the play. "Geoffrey Hambleton, Gentleman," was the next and perhaps the best of Miss Morton's plays. It was in the repertoire of Pilon's stock company until that excellent organization did what Hamlet thought of doing—and ceased to be. Then came a Connecticut comedy in which Lizzie Evans, I think, starred.

John Hackett ("Brother John"), a teacher, lives quietly with a spinster sister, Beck, a younger sister, Sophie, and brother Bobby in the town of Bethel, Conn. Brother John, a big, burly, somewhat old-fashioned man of about 40, is absorbed in his business—the manufacture of high silk umbrellas. He is a family and a family man, with whom he is unconsciously in love. Act 1 ends with Betty over a game of chess gathering his consent to give the women folks a holiday.

Act 2 finds the Hacketts and Bobby installed in a handsome house at Long Beach, a suburb of London. Bobby is a young society swell in love with Sophie. They are surrounded by people who laugh at their mistakes in secret and respect their hospitality and make one of them for their own ends. The two sisters and brother, intoxicated by the new atmosphere, plunge into all kinds of extravaganzas. That inure to Duluth's supremacy than any other Duluth paper. It is essentially the women's paper; its bright and crisp society gossip, its many features pertaining directly to the homes, and the recognition of the cause of the gentle sex make THE EVENING HERALD especially of interest to them.

The independent course pursued by THE HERALD in politics has won for it many friends who are not prejudiced by party ties, and who approve of a fearless newspaper, but who loathe and despise a hide-bound organ, that only reverberates the sentiment of some party platform that has nothing in common with Duluth or her varied interests. THE EVENING HERALD has given several examples of its independence the past year and will continue to do so whenever in its opinion the good of Duluth demands it. If you do not take it, subscribe for it.

The business man reads it and advertises in it to the exclusion of all others, because it GIVES THE NEWS and is read by double as many readers as all other Duluth papers.

The laboring man and the artisan want THE EVENING HERALD because it is delivered fresh from the press at a time when his day's labors are ended and he has the long winter evenings to read to himself and family all the day's happenings of his own city and from every nook and corner of a busy and heedless world.

The two largest news organizations, the Associated Press and the United Press, serve the Herald with special telegraph wires, with all of the outside news.

Its staff of editors, local reporters and contributors are ever alert that nothing may be missed that might be of interest to its patrons or contribute to the welfare and prosperity of Duluth.

One of the best investments in Duluth is a block of 24 lots in Duluth Heights, Fifth or Sixth Division (two blocks from electric car line, and ten minutes ride from Superior street) for \$250 per lot, or \$6000 for the block; cash payment on the entire block \$1200, balance one and two years.

With 130 houses now in course of construction in that locality and 200 more to be started before July (all to be built, owned and occupied by men of families), these Lots must advance very rapidly in market value, and would certainly yield a profit in the next six months, equal to the cash payment of \$50 per lot, or 100 per cent on the actual cash invested. These prices are only a fraction of the prices of other property similarly located at the head of the lake, in fact they are village prices. We are making sales every day and prices will be raised the first of every month. If desired by buyers, we make the cash payment \$30 per lot.

We are selling more lots than all the other land companies in Duluth. Call and look over our maps and prices.

A CRUSHING DEFEAT

The Brazilian Revolutionists Received a Very Great Blow by Gen. Saraiva's Defeat Last Thursday.

Not Only Was the General Beaten, But Thirty Thousand of His Men Were Made Prisoners.

Terrible Stories of Outrages Committed by Rebels Reported From the Scene of the Revolution.

NEW YORK, March 27.—The Herald's Valparaiso correspondent says Gen. Saraiva's defeat by government troops near Alegrete, Rio Grande do Sul, on Thursday was a greater blow to the Brazilian revolutionists than was at first thought. Advices from Rivera say that Gen. Saraiva was not only beaten but that 30,000 of his men were made prisoners. He also lost a large amount of ammunition and arms.

The news from Bage is to the effect that Gen. Tacarez is entrenched outside the Castilistas' stronghold and is shelling the town from the hills with several large guns. No general attack has yet been made upon the garrison. So far as the Castilistas and federals are concerned, they appear to be mainly engaged in avoiding an engagement. Their marches through the district affected by the revolution have been marked by many outrages. Women appear to have been the chief sufferers from these atrocities. Many homes have been destroyed and women subjected to assaults of the most dastardly character. Stories reach here almost daily of attacks upon women and young girls which are difficult to believe. Meanwhile it is apparent the war must soon end through the interference of the general government of Brazil. One thousand two hundred troops from the general government reached Rivera yesterday, and this makes the number of the national army in Rio Grande do Sul more than 5000. They are well armed and equipped, and it is not believed possible for the revolutionists to hold out against them long.

Three Men Shot.

FORT WHITE, Fla., March 27.—J. Holmway, John Bell and Seth Calhoun were perhaps fatally wounded late Saturday night. They were returning home from the village when they were fired on by an unknown negro. All three of the men were shot through the body. They are unable to give an intelligible account of the shooting. The town is terribly excited over the affair and the assassin will be lynched if captured.

A Conflict Feared.

PARIS, Tex., March 27.—The situation in the affairs of the Atlanters, Chocaw nation, is regarded as critical and it is feared nothing can prevent a conflict to-

day. The militia force of thirty men is camped near town waiting for reinforcements which are hurrying to them and will raise their force to 200 men.

FIGHTING THE ORDER.

Railroad Telegraphers Discharged Because They Are Union Men.

ST. LOUIS, Mo., March 27.—The Chicago & Northwestern, Sioux City & Pacific and Fremont, Elkhorn & Missouri Valley railroads have begun a war against the Order of Railway Telegraphers. Several months ago a division of the order was established here, as well as at several places along the Elkhorn lines west of here. Since then the men who belong to the order have been quietly dropped out of the service of the road, various reasons being assigned.

The men are now convinced that their membership in the order is the reason and the officials tacitly admit it. It is also said that the Western Union company is pursuing the same tactics in this city.

GOOD FOR THE NEGROES.

Two White Caps in Georgia Shot Dead in Their Tracks.

FORT VALLEY, Ga., March 27.—White Caps attacked the negro quarters at S. H. Bassett's plantation Saturday night and the inmates fled. Mr. Bassett left his house, met the trespassers in the darkness and forbade them to go any farther. The White Caps disregarded the order and would have continued their search, when several of the negroes who were concealed near by opened fire on the intruders. They were William Hatchett and Marion Bryant. The others fled precipitately. The coroner's verdict was justifiable homicide.

GUILTY OF MANSLAUGHTER.

Theodore G. Arnold Convicted of Killing John Kramer.

WASHINGTON, March 27.—Theodore G. Arnold was found guilty of manslaughter, after a trial lasting two weeks, and which developed many sensational and romantic incidents. Arnold was a postoffice employee from Texas who became infatuated with the wife of John Kramer.

Last June he killed Kramer, the evidence going to show that Kramer had threatened his life. In the meantime Mrs. Kramer disappeared, but turned up in the course of the trial, having married the detective whom the government had put on her track.

Three People Drowned.

MARIETTA, Ohio, March 27.—Three young men were drowned yesterday at the dam at the head of Marietta island. They were attempting to shoot the swift waters and go above when the boat capsized. They were George Dow, 24 years old; Harry Dow, 15, and Frank Ackerson, 20. All were good swimmers and made heroic efforts in the cold, swift waters to save themselves. The Dow boys were sons of Capt. Dow.

AMUSEMENTS.

"The White Squadron."

"The White Squadron" opens at the Temple tonight an engagement of two nights. This production is said to have cost \$25,000 before the curtain was rung up on the initial performance at the Fourteenth street theater, New York, where it had a career almost unparalleled in the history of that home of successes. "The White Squadron" tells a strong dramatic story, which is so brimful of American patriotism that during the run in New York ladies nightly rose in their seats, waved their handkerchiefs vigorously and applauded vociferously. The congress of nations, which forms the finale of one act, was unanimously declared by the captious New York critics to be the most elaborate and artistic stage picture ever seen in that city. The dramatic company necessary to the development of the plot has not been neglected and several well known artists are in the cast.

Al. G. Field's Minstrels.

The Al. G. Field famous American minstrels will appear at the Lyceum theater tonight, and will introduce many new and novel features. Among them are the grand spectacular first part, "In Camp," the laughable burlesque, "World's Fair Visitors," the Eutopian minstrel creation, "Boys and Girls," "Eldora," the American Cinquennial; a beautiful costumed march entitled "The Norman Knights," Clayton and Jenkins and their wonderful trick donkey Jasper; J. E. Lewis, the Apollo wonder, and the burlesque, "The Darktown Circus," or "America Discovering Columbus," introducing a genuine circus parade, grand entry, vaulting, tumbling, etc., by a number of the world's greatest acrobats.

"The Prodigal Father."

Tomorrow night "The Prodigal Father" will be seen at the Lyceum and with it Carmenita, the Spanish dancer, whose fame has preceded her. The story of "The Prodigal Father" is that of a young man, who, in a moment of sudden infatuation, marries a song-and-dance artist of rather disreputable antecedents. He is immediately very sorry for his foolish act, and endeavors to get away from her. She chases him up, however, with unrelenting pertinacity, and forces her way into his family, where it is discovered that his father had previously endeavored to carry on a flirtation with her. Between the complications of the father and the son a great lot of absurd cross play occurs.

Marshall P. Wilder.

Marshall P. Wilder, one of the most noted humorists this country has produced, will be seen at the Lyceum on Wednesday evening. Of him the Toronto Empire says: "In pantomime, Mr. Wilder is beyond compare." The Saginaw Herald calls him "the funniest of funny men." The Detroit Tribune speaks of him as "the prince of laugh provokers." From prominent people everywhere Mr. Wilder has received high compliments.

His compositions, operettines include several people who are artists in their respective parts. Miss Cecelia A. Woolsey is called a "musical phenomenon," being an accomplished performer on many different instruments. Miss Carolla Gilman, another member, will be pleasantly remembered by Duluth peo-

ple as one of the favorite prima donna sopranos of the Calhoun Opera company, which appeared here last summer. Edwin F. Kendall is the pianist of the company. He is said to display wonderful powers as a pianist, playing compositions of his own with a great brilliancy and good execution.

"Uncle Tom's Cabin."

Of Stetson's spectacular "Uncle Tom's Cabin" company which will be at the Temple on Wednesday afternoon and evening, the Reading, Pa., Eagle says: "Stetson's Big Uncle Tom's Cabin company drew a packed house at the Grand Opera house last evening. The special scenery, of which they carry a full car-load, was very fine. A good performance of this ever popular play was given. Especial mention is deserved of the many pleasant specialties. The two Topsyes are the best ever seen here and are accomplished dancers. The Lone Star quartette rendered some pleasant negro melodies in a fine manner. The African mandolin students were called on for four encores."

Osberg May Come. Caroline Osberg, the great Swedish soprano, who has been packing the Chicago Auditorium lately, is expected at the Lyceum during Easter week.

Great Promise for Wood Manufacturers.

It is only quite recently that manufacturers of furniture, wagons and wood work generally have become aware of the wonderful promise offered by North Galveston, Tex. Directly tributary to this young city and not many miles distant in Eastern Texas are over 45,000,000 acres of timber which comprises all of the high grade hard and soft woods.

Many people are coming in and are now doing business, but there is room for a great many more. With rail and water facilities for shipping, and markets in all directions, there should not be any hesitation about the outcome of manufacturing ventures. For further particulars call on or write Holwick & Youngblood, 327 West Superior street, Duluth, Minn., the local agent. The address of the home office is North Galveston association, box 65, Minneapolis, Minn.

What ex-President Harrison thinks of Marshall P. Wilder: "He has a wonderful talent."

NO REPORT TONIGHT

The Tunnel Matter Will Not Come Up at the
Council Except Possibly the Assess-
ment Portion.

Board of Public Works Will Ask for More
Room at the City
Hall.

Recommendation Will be Made That the
Present Building be Raised Two
Stories at Once.

Tonight another council meeting will
be held. No sensational features were in
prospect up to noon today. Alderman
Cox, it is said, will adhere to his determi-
nation to resign the chairmanship of the
committee on public offices and officers.
There are those who stoutly maintain
that the committee will report adversely
upon the appointment of Frisbie as Nels
Nelson's successor as a member of the
board of public works and Frank Thomas
as McGregor's successor on the fire com-
mission.

There will be no general tunnel report
tonight but the board of public works
hopes to have one ready next week. It
has been impossible to get the estimate
and pronto ready in time for tonight's
meeting. President Truelsen, of the
board of public works, stated this morning
that he has been able to get some sort
of a report on the assessment side of the
tunnel matter but that he could not
positively say until the board could hold
a meeting with the committee from the
chamber of commerce and the members
of the council. He stated that he had
arranged for such a meeting for this
afternoon, at which time ways and
means would be discussed and any con-
flicting opinions that there might be
harmonized.

The board of public works will tonight
submit to the council a communication
setting forth the fact that there is inade-
quate office and vault room in the city
hall for the city engineer, city com-
ptroller, and especially the board of pub-
lic works. The present crowded condi-
tion is emphasized and the statement
made that when West Duluth comes in
as a part of the city there will be abso-
lutely no place for the records.

The members of the board further say
in the communication that a competent
architect is confident that the foundation
and superstructure of the city hall will
stand three stories more. The opinion is
expressed that two stories will cost \$2,500,
and furnish adequate room until Duluth
attains a population of 250,000. In con-
sideration of the fact that West Duluth
will be annexed Jan. 1 next, the board
recommends that the two additional
stories be constructed and that immedia-
te action be taken so that the improve-
ment can be completed this summer
and enable things to be put in shape for
the increase of business at the beginning
of the coming year.

Is it Magic?
One of the places in Duluth that is
always the cause of remark by visiting
strangers is the Haynie & Co. store.
"Looks very like a city store," "a
creditable enterprise," "a busy looking
place," etc., are the general remarks
heard. Upon visiting their store this
morning we find a crowd of ladies ap-
proaching a multitude, and the most
cheerful, happy, bright looking congre-
gation imaginable; how or by what
magic power these conditions are
brought about we cannot conceive of.
We certainly join with the majority in
wishing well this enterprise that has be-
come such a comfort to so many.

DISTRICT COURT PAPERS.

List of Papers Filed With the Clerk of Court
This Morning.

There have not been many filings of
interest in Clerk Sinclair's office since
Saturday. Among those of importance
are:

An order for judgment which says that
the plaintiff in J. A. Taylor vs. Triggs &
Kennedy "is not entitled to take any-
thing," or to recover anything, and that
the defendants are entitled to recover
judgment against the plaintiff for their
costs. The plaintiff sued to recover
a large amount for commission in engineer-
ing a deal by which the St. Louis river
water power was to be transferred to an
Englishman named Bolton for \$1,000,000.

The bond of Uncas Larson for \$500
with H. Gilmark and Alfred Burke as
sureties for the faithful performance of
his duties as justice of the peace in Vir-
ginia.

A large number of notes of issue for
new cases for the April term.

The summons and complaint in Ameri-
can Loan and Trust company vs. C. E.
Goodale et al. This is an action to com-
pel the partitioning of certain real estate,
valued at \$21,000, or failing in this for a
sale of the premises, which consist of part
of a lot in West Duluth.

Second citizenship papers were issued
to Julian Carlson, of Sweden.

Wants a Divorce.
The summons and petition for alimony in
Lizzie Morse vs. James P. Morse. This is an action for
absolute divorce on the grounds of cruelty
and neglect. They were married in 1882, at
which time the bride was only a little over
14 years old and the husband 38 years.
They have a female child named Annie
Morse, who is 3 years old. The plaintiff
wishes to resume her maiden name and to
have the care and custody of the child.

Open Evenings.
At the request of many ladies, we will
keep our parlors open evenings during
this our "Easter opening week." Mes-
dames Forgy & Hartman, 11 and 13 First

sity of the model. I had the pieces of the
base assembled at the mill to ensure fit

Capt. McDougall Back.
Capt. McDougall is back from his
Southern trip. He covered a great deal
of ground in his journey and visited every
seaport of importance between New York
and Galveston. He says there is a vast
amount of shipping along the Atlantic

PERSONAL.

Superintendent Wilsey, of the North-
ern Pacific, and Superintendent Bell, of
the Union depot, returned from St. Paul
today.

H. Erickson, who has been with the A.
Booth company for about a year in the
capacity of clerk, has been promoted to
the position of local cashier made vacant
by the resignation of Mr. Underhill.

George H. Dodge, of Minneapolis, is in
the city.

T. J. Sheridan, of Grand Rapids, Mich.,
is here today.

F. W. Winship has returned from his
Western trip.

T. G. and W. O. Winston came up
from Minneapolis this morning.

J. H. Chandler, the Chicago attorney,
is in the city.

Capt. H. C. Braden arrived from St.
Paul this morning and will remain.

Thomas Aldern, of New York, is in
the city.

R. S. Henry, representing the World's
Fair Transportation company, was in the
city yesterday.

Horace Williston arrived from Ocean
Springs, Miss., yesterday, where he has
been wintering.

John McCarthy, of Stillwater, is in the
city.

A. S. Wilson will reach home Wednes-
day.

A. E. Humphreys has returned from
the East.

Miss Ruth Ingalls is home for her
Easter vacation.

James E. MacPherson, of the Chapin-
Wells Hardware company, has gone to
Saginaw. His mother, Mrs. Rust, is not
expected to live.

Two Probate Cases.
Judge Ayer heard a couple of interesting
will cases before him today. Headmitted
the will of Emmor Weaver to probate
with Edwin C. Weaver as administrator.

The heirs are Elizabeth Sprankle, Laura
W. Bessler, Edwin C. Weaver, Julia G.
Borup, Jennie S. Weaver, Annie Wea-
ver. A portion of the estate consists of
realty and mortgage holdings in St. Louis
county, but the testator died in Philadel-
phia some time ago. The estate is very
valuable but the bequests are apparently
small—namely, \$100 to each child and \$50
to each sister. The balance is for the son
Edwin C. Weaver who is to support his
mother during her life.

The other case is a contest over the
administrator of the estate of Tallack
Tollakson Ove. Helen Lindberg, a
daughter, wants her husband, James
Lindberg, appointed as administrator,
and Ole Jacob Tollakson, a son, rises up
in his wrath and says Lindberg is not
worthy to have such a high trust; that
he is only a relation by marriage, and
asks that his brother August J. Tollak-
son, a worthy man, be appointed admin-
istrator. The contest will be decided
next month.

Noble Has Resigned.

Mathew Noble, chief engineer of the
Duluth Street Railway company has
tendered his resignation, to take effect
in April. After that time he will be em-
ployed as chief engineer for the Rus-
sell Milling company at Superior. Mr.
Noble has a wide circle of friends here.
He will probably be succeeded by John
Carson, at present assistant chief en-
gineer for the company, a well known Du-
luthian.

On a Happy Errand.
Professor Max Allettschauer, the popu-
lar athletic teacher of the Duluth
Turn Verein and instructor of physical
culture at the High school, leaves for
Minneapolis today and on tomorrow will
be joined in the holy bonds of wedlock
to Miss Helena Rothenberg one of the
most popular young ladies in German
circles in that city.

The Minneapolis Judge Recommended By the State Legislature For Head of the Pension Bureau.

Attorney General Decides a Reapportionment Can Be Made and the House Considering the Bill.

John J. Rhodes, Manager of the Coal Combine, Has Been Placed Under Arrest For Perjury.

Chris O'Brien Charges That Certain Members of the Legislative Investigating Committee Have Been Bribed.

St. Paul, March 28.—[Special to The Herald.]—Senator Grall tried to take the Hastings and Dakota land forfeiture bill from general orders and refer to the judiciary committee, but by a vote of 14 to 17 failed. At noon the judiciary committee decided on the indefinite postponement of Bjorge's bill to abolish capital punishment by a vote of 4 to 3.

The coal combine committee bill amending the anti-trust law by adding imprisonment from one to ten years for the penalty for violation of the law passed by the house. Under a suspension of the rules, the first business under the head of motions and resolutions in the house was a strong endorsement of Judge Lochren, of Minneapolis, for commissioner of pensions which Wyman introduced and eloquently supported. Judge Fleming seconded the motion for the adoption of the resolutions, and Van Sant, Greer, Abbott, Young, Kelly, M. Wilson, Blocker and Cotton spoke, and they were adopted unanimously.

Speaker Lee meant business today and rapped down everything in any way indicating disorder or lack of respect. He backed up by Bob Dunn who served notice on the house that he proposed to object to all motions for suspension of the rules from now on.

The debate on the pool bill, however, took up considerable time and the house did not get as much business as on some other days.

The judiciary committee reported the senate bill on pool selling and bookmaking before the house. It was a report for a definite postponement in the house this morning. Wyman moved to place the bill on general orders and Greer offered a substitute a motion for the report of the committee be adopted, speaker Lee ruled that Wyman's motion took precedence and the bill was placed on general order by a vote of 60 to 37. Mr. Boggs was not present to vote but Messrs Merritt and Cotton, both voted for the Wyman motion.

Senator Donnelly from the special committee on soldiers pension money bill reported a substitute bill drawn up by Senator Sanborn, providing that where an inmate of the home has a family, his pension money shall go to their support. The bill passed under suspension of the rules.

The senate bill making street commissioners in villages elective, was lost this morning, but was reconsidered later. Gudrich's bill providing for an appeal from the decision of county commissioners in the matter of auditing bills was passed under a suspension of the rules.

Representative Fleming's bill to facilitate the transfer of old soldiers to the soldiers' home passed under suspension of the rules. Boggs' bill to permit certain lodges to own property was called up by Daugherty and passed the senate by suspension of the rules.

Senator Tawney inquired this morning after the missing anti-scalpers' bill, which has disappeared although it should be on general orders. Its disappearance is creating considerable talk. The secretary stated today that he had not yet found the bill and nothing more was done about it for the time being.

With the approval of the governor, Senator Mott introduced a bill making railroads liable for damages to cattle where their track is not fenced, and it went to the railroad committee.

Governor Nelson has approved the bill for prisoners parole and has appointed Chester McIntyre of Goodhue county as a member of the state reform school board. The appointment was at once confirmed by the senate.

Senator Keller's state reformatory bill finally passed the senate with the amendment forbidding whipping. F. M. Wilson offered a resolution to pay the house employees the same as was in the senate and asked for its immediate adoption. Jackson insisted on the regular order and a vote on suspension of the rules resulted, ayes, 72; nays, 18, and the motion to suspend was lost, not having the necessary two-thirds. The resolution then went to the committee on legislative expenses, and a recess was taken at 12:30. This afternoon the house is considering the reapportionment bill.

The attorney general's opinion was read in the senate yesterday afternoon upon the question as to whether the legislature had the right to make a reapportionment for legislative purposes at this time, the last legislature having failed to do so. Gen. Childs was of the opinion that the failure of any legislature to make a reapportionment would not preclude the right of subsequent legislatures to remedy errors or omissions and consequently such reapportionment may be made by enactment during this session.

One of the funniest measures which has been introduced in the legislature this session is the bill giving civil jurisdiction to North Dakota over an elevator site of five acres at Duluth. It is a case of tooth-pulling humor, but it is very funny and it is simmered down to a logical conclusion. Just think of five acres in the city of Duluth which will pay no city, state or other taxes, which will be a sort of Gretna Green subject to the civil jurisdiction of the state of North Dakota.

It is quite liable to have a colony of fair applicants for divorce settled upon it inside of six months, who desire to take advantage of the mild Dakota laws which, like the painless dentist, dissolve troublesome marital bonds while you sleep.

How delightful a feast it will be for the Meslimes Grandys of the Zenith City to discuss the various candidates for freedom from the harsh fortune of being tied up to a worse half. Besides these fair exponents of "vanity fair" will be able to enjoy the delightful summer resort at the head of the lakes while their divorce proceedings are progressing under the smile of fortune and the frown of Hymen. It will be a great improvement over living in the wilds of the blizzard and the poker game awaiting the day of blessed emancipation. There is another question of a more serious nature, however, it will give rise to two inspection systems at the head of the lakes which it has been the aim of the Duluth board of trade to avoid on account of the less confusion and perhaps distrust it might create in Eastern grain markets. The Dakota system of grain inspection as well as Dakota rail law will prevail on this blessed five acre tract. The Minnesota railroad and warehouse commission will find one part of Minnesota on which their omnipotent sway as extended by the present legislature will be of no avail.

Following this civil jurisdiction to Dakota was recommended to pass in committee of the whole in the senate yesterday. Thus far there has been no opposition to it, although the railroad and warehouse commission are known to be against it, and its path has been easy and its progress uninterrupted. It is probable, however, that a cyclone may be let loose later on. It will probably be given cheerfully in Wisconsin later on, and the bill will be passed.

Following this bill the house yesterday afternoon: Relating to licenses for the sale of intoxicating liquors; Smith, annual report of attorney general; Smith, relating to animals; O'Brien, asserting county commissioners' O'Brien, asserting and delivery of railroad ties, etc., and Boggs, aid for the construction of railroads, being the bill designed to allow St. Louis county to issue bonds to aid the Duluth, Missabe & Northern road.

Dunlap's bill appropriating \$50,000 to defend the coal combine committee against J. J. Rhodes' suits and empowering the governor to expend the money and to take steps to prosecute the coal combine in the United States before the federal courts passed the legislature yesterday. John J. Rhodes, agent of the coal combine committee, was taken arrested on complaint of perjury preferred by R. A. Walsh, a member of the coal combine committee. He was taken to the St. Paul jail, and a \$5,000 bail was set for him to appear before the grand jury which meets next May. The charge is based upon contradictory evidence given by Rhodes before the coal combine investigating committee. He also swore he had no books relating to his business and the committee afterwards captured the books that he swore that he did not have.

C. D. O'Brien, attorney for Rhodes, came out this morning in a published interview. He privately makes absurd charges that certain members of the coal investigating committee have been bribed and alleges he can prove his statements. He also says that the warrant under which Rhodes was arrested is defective and that the whole matter is a farce and a joke. He is unsparing in his language of invective against the coal combine and the legislature in general. N. Saunders, president of the Northwestern Fuel company, whose arrest was also expected, left town yesterday morning ostensibly called East on important business.

CAUGHT AT LAST

One of the Supposed Murderers of Banker Mead at Waupaca, Wis., Arrested At Barnum.

Sheriff McKinnon, of Carlton County, Captured Clarence Sherman Alias Frank Palmer For the Crime.

Murder Was Committed Eight Years Ago and Fifty Indictments Were Found Two Years Ago.

Sherman Has Been Eluding His Pursuers Ever Since, But Has Been Finally Run to Earth.

The arrest of a man named Sherman, alias Palmer, supposed to be an accomplice in the murder of the banker Mead at Waupaca, Wisconsin, was accomplished at Moose Lake last night by Sheriff McKinnon of Carlton county with an assistant. The man has been in hiding in the Minnesota woods and pineries ever since the commission of the crime, about eight years ago.

He was scented out by Sheriff Williams, of Waupaca county, Wisconsin, by Deputy Sheriff Al Free, of St. Louis county, but eluded his pursuers and fled elsewhere, only to be captured last night as stated.

A few days ago Sheriff McKinnon was here and got a photograph of the man, which was in possession of officers here and which was known as the picture of one "Sherman."

The Wisconsin authorities have been notified. There is a heavy reward out for the man's apprehension. About two years ago the grand jury in Waupaca county found about fifty indictments against parties implicated in the murder.

CAUGHT IN A LUMBER CAMP. SHERMAN WAS CAUGHT IN A CAMP NEAR BARNUM.

CARLTON, Minn., March 28.—[Special to The Herald.]—Clarence Sherman, alias Frank Palmer, was arrested in a lumber camp near Barnum last night for complicity in the celebrated Mead murder, case soon to be tried at Waupaca, and the details of which will be remembered by many of The Herald's readers.

The prisoner maintains a sullen silence regarding the affair, but it is the opinion of Sheriff McKinnon that he is an important witness and probably something more.

THE SPECIAL LAND AGENTS. AN INSUFFICIENT APPROPRIATION CAUSES NUMEROUS DISMISSALS.

WASHINGTON, March 28.—Owing to insufficient appropriation for the special service of the general land office, the services of the following named special agents have been discontinued: R. F. Allen, of Iowa; A. E. Boissiere, of New Hampshire; G. F. Boque, of Kansas; T. F. Ryan, of Indiana; Jacob Brenner, of Kansas; J. Bayard, of Oregon; M. B. Kane, of Illinois; E. T. Eason, of Colorado; J. E. Gilligwater, of Missouri; C. A. Lounsbury, of North Dakota; A. F. Bane, of Connecticut; C. E. Loomis, of Illinois; Bartlett Minor, of South Dakota; C. A. Mosier, of Washington; E. H. Marshall, of Nebraska; W. T. Nicolls, of Missouri; L. C. Kaudas, of Ohio; T. S. Stidger, of Nebraska; C. H. Tandy, of Missouri; W. F. Horn, of Ohio, and John Vost, of Illinois.

Special Agent Lambert, of Kansas, has resigned. The remaining eleven special agents have been selected solely upon their records of efficiency, a large majority being Republicans.

SENTENCED FOR FRAUDS. One Man Given a Twelve Years' Term and Another Five Years.

LONDON, March 29.—James W. Hobbs, of J. W. Hobbs & Co., Henry Granville Wright, solicitor, and George Newman, formerly chairman of Newman & Co., were yesterday sentenced to terms of imprisonment for frauds connected with the building society by obtaining large sums of money under false pretences.

Hobbs and Wright were each sentenced to penal servitude for twelve years, and Newman, whose share in the fraud was less conspicuous, was sentenced for five years.

Cut His Own Throat. CHICAGO, March 28.—Horace O'Donoghue, a well-known printer and publisher, committed suicide yesterday at his home, No. 270 Wabash avenue, by cutting his throat from ear to ear. He was in good circumstances financially, and was undoubtedly suffering under a temporary aberration when he committed the deed.

The Sentences Confirmed. PHILADELPHIA, March 28.—The supreme court has refused to grant a special allocatur in the cases of the anarchists, Henry Bauer and Carl Nold, of Pittsburgh. By refusing to grant the special allocatur, the supreme court confirms the conviction and sentence.

The Agricultural Exhibit. WASHINGTON, March 28.—The department of agriculture has arranged the shipment of specimens for exhibition at the World's fair. Assistant Secretary Willets said today that the installation of the exhibit would be completed by May 1.

An Artful Deed. NEW YORK, March 28.—George H. Galt, one of the best known men in the art world of New York, died suddenly last night in his studio.

Dividend Declared. NEW YORK, March 28.—The Pittsburgh, Cincinnati, Chicago & St. Louis railway has announced a dividend of 2 per cent on the preferred stock, payable April 7.

THE INDIANS RETAIN TITLE.

Claim That the Upper Peninsula of Michigan Was Never Ceded.

DETROIT, Mich., March 28.—The Evening News last evening said: Something in the nature of a startling discovery has been made by H. F. Chipman, son of Congressman J. Logan Chipman, in relation to the title to the lands of a large part, if not the whole, of the upper peninsula of this state, and if Mr. Chipman's conclusions are borne out by more minute investigation and sustained by the courts, every acre of land in that peninsula west of the Sault and Mackinac to the Montreal and Menominee rivers and from Lake Superior to Lake Michigan and the Straits, inclusive of city and village lots, will be handed over to the rightful owners, the descendants of the Chippewa Indian nation of the Superior region.

Mr. Chipman asserts that his examination of all the treaties made between the United States government and bands of the Chippewas of the Lake Superior and Upper Mississippi regions have convinced him that no cession of the upper peninsula lands has been made to the United States government, and that therefore the title deeds in every registry of deeds in the region indicated are as worthless as so much blank paper.

The case involving the payment of the principal and interest under the treaties is well under way and will be brought in the department of the interior. If rejected there it will be taken to the United States supreme court of claims.

THE STRIKE AT AN END.

Coal Miners in Monongahela Valley Returning to Work.

PITTSBURGH, March 28.—The great strike of the coal miners in the Monongahela valley is actually at an end. Probably 3,000 men resumed work yesterday, and the remainder are expected to be back inside of a week. The strike was broken Saturday by the Lucyville and Roscoe miners of Joseph. Walton & Co., applying for work at the reduction. It is reported that great distress exists among the miners.

A dispatch from Monongahela City states that about 300 miners held a meeting yesterday and decided to stay out until the convention which meets today makes some official declaration regarding the strike. It is thought the 3 cent price will be accepted and the strike declared off.

To Create an Embassy.

LONDON, March 28.—In the house of commons yesterday Sir Edward Grey, parliamentary under secretary of the foreign office, stated that the British foreign office had been informed of the intention of the United States to accredit an ambassador to the court of St. James in acceptance and in recognition of the friendly action of her Britannic majesty in raising the British minister at Washington to the rank of ambassador.

TO OVERTHROW HIPPOLYTE.

The Haytien Exiles in Jamaica are Much Encouraged.

NEW YORK, March 28.—A cable from Kingston, Jamaica, to the Herald says: Encouraging news has been received by the Haytien exiles here who are planning the overthrow of President Hipolyte. It comes from San Domingo.

The report states that E. P. Euzen, of Cap-Haïtien, of San Domingo, received with pleasure the envoys sent to him by the exiles. As a result of the interview aid from San Domingo, it is declared, has been assured.

Other news of an encouraging nature has been received here. Sympathizers of the revolutionary movement now residing in the United States have sent assurances of substantial aid, which it is expected will soon be received.

THE DUNHAM DIVORCE.

Mrs. Dunham in Sioux Falls—Allyn Said to Be There, Too.

SIoux FALLS, S. D., March 28.—The Dunham-Allyn divorce sensation which was precipitated Saturday, in Chicago, has a Sioux Falls end. Mrs. Elizabeth Wallace Dunham, who is the defendant in the Chicago case is at the Cataract here, and will soon begin an action for divorce.

Edward Allyn, the banker who is charged with having committed adultery with Mrs. Dunham, is here also going under the name of A. C. Boyle. Dunham is ex-congressman from Illinois and was formerly president of the board of trade. Mrs. Dunham has been married three times and is very wealthy.

Many Are Willing.

WASHINGTON, March 28.—Up to date there are ten applications on file in the department of agriculture for the assistant secretaryship. They are Hon. Morgan Rawls, of Georgia; Hon. B. M. Hord, of Tennessee; Samuel Blackwell, Alabama; E. L. Merritt, Springfield, Ill.; Charles Griffith, Illinois; Major H. E. Alvord, Kansas; S. D. Lee, Mississippi; Daniel Strange, Michigan; Prof. E. M. Shackelford, Alabama, and S. W. Corbin, Virginia.

Cutting Down Expenses.

WASHINGTON, March 28.—A letter from Secretary Morton has been addressed to every bureau and division chief in the department of agriculture, asking whether any reduction could be effected in the number of his employees without impairment of the public service, it being desirable in the interests of economy to lessen the expenses of the department.

In Mr. Blaine's Honor.

WASHINGTON, March 28.—Minister R. E. Mahony, from his post of duty in Ecuador, transmits a copy of the official journal of Quito of Feb. 25, directing the flags of that distant republic to be placed at half mast in honor of the late Mr. Blaine.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.

March 28.—Light snow has fallen at scattered places, through the country and still continues over Northern Minnesota and the region north and west of there, but has scarcely been heavy enough to measure. Light rain is falling at Minneapolis, Tenn., and elsewhere.

No decided change in conditions is indicated for the next twenty-four hours. The days will probably continue to be warm and the nights cold, with some light snow or sleet until the snow has left. The daily mean temperature has been ranging steadily about eight degrees lower than the average during the month, caused mainly by the larger amount of snow in this vicinity.

The highest temperature here yesterday was 32, the lowest last night, 14.

DULUTH, March 28.—Continued fair, slight change in temperature; light variable winds.

A. H. HANSEN, Local Forecast Official.

Washington, March 28.—For Minnesota: Local snow, followed by clearing in northern portion, fair in southern portion; southerly wind; stationary temperature followed by rise. For Wisconsin: Generally fair; warmer winds shifting to south-westerly.

The City Parks.

Another communication from James G. McNair regarding the improvement of Cascade square is published today. It is in reply to an article in the News Tribune on Sunday, which commended Cascade square with Cascade Park, which is in an entirely different location. Cascade square is within easy access of the central portion of the city and should be improved at an early date.

In this connection, The Herald would direct attention to the condition of the so-called Cascade Park at Twenty-fifth avenue west. The property was condemned for park purposes, but the park board has never paid the amounts awarded to the owners. The result is that there are several houses standing upon the property, and recently one of the property owners there erected another house, in accordance with his lawyer's advice, which will call for more damages when the property is condemned again, as now seems necessary. These houses are near Third street in what was once one of the most beautiful portions of the proposed park, but the beauty it possessed is rapidly being destroyed, the handsome trees are being cut down and the whole place is being practically ruined for park purposes.

Surely something should be done to preserve this romantic spot from ravages of the vandals who are now destroying it. The evidences of destruction can be seen by every one who drives from the boulevard down the road that winds around Miller's creek. Cannot the park board do something to save this beautiful place from complete ruin?

A Special Session.

According to a Washington special to a New York paper, there is to be an extra session of congress, after all the rumors and counter-rumors, and it is not to be called to consider the silver question, but to deal with the tariff question. It is asserted that President Cleveland has made a formal announcement to several members of the next congress that he will call the special session in September. Several senators have also been apprised by the president of his intention. As a consequence, the politicians are arranging all their plans with a view to coming back to Washington for a long siege with the tariff. The first work of the congress will be the consideration of a tariff measure and a bill to repeal the Sherman silver purchase.

It is said the legislature in congress have consulted the president regarding the makeup of the ways and means committee in order that none hostile to the administration and its tariff reform policy shall be put upon the committee.

Secretary Carlisle has already a force of experts at work upon data for a tariff bill and he has subdued the rancorous feeling among the congressmen by explaining that he would not interfere in the work of tariff reform further than supplying the figures which the ways and means committee would necessarily be compelled to secure from him.

Democrats are anxious to have a bill framed and passed before the next congressional elections, as business would be disturbed by it and this would be taken advantage of by the opposition. Without doubt the tariff measure to be considered next September will become a law Jan. 1 or Feb. 1, 1894. It is very desirable that the radical changes which are likely to be made in the tariff should go into effect at as early a date as possible, so that the people can see their workings on a satisfactory trial before the next elections.

Minnesota in Gotham.

A few Minnesota gentlemen met at the office of Mr. James H. Warner in the Equitable building in the city of New York last Saturday afternoon, to consider the matter of the organization of a

Minnesota society in that city.

Plans of organization and other matters incident to making such a society a success were discussed, and the meeting adjourned to meet in two weeks, after appointing a committee on organization and membership, consisting of Messrs. James H. Warner, Frederick K. Shepherd and K. Leslie Moffett.

The readers of The Herald would confer a favor by forwarding to the committee, care of Mr. James H. Warner, No. 120 Broadway, New York city, the names and addresses of Minnesota friends now residing in and about New York city, in order that a large increase of membership may be secured and the success of the Minnesota society in the city of New York assured.

A Waterway to the Sea.

The Canadian parliament has passed the bill incorporating the North American Canal company, which proposes to construct a canal from Lake Erie to Lake Ontario, deepening the St. Lawrence canal and cut a canal from Lake St. Francis to Lake Champlain, and thence to the Hudson river. It is said this company has heavy financial backing, and it certainly will require it, because the work it has in view must cost about \$500,000,000 at least.

If this company shall provide a deep waterway from the great lakes to the sea it will be a happy solution of what is now a serious problem. The Canadian government is not in a position to expend many millions in deepening the present canals, and the scheme of a deep ship canal through New York state recently urged upon our congress is deemed by prominent engineers to be impracticable, while it is hardly likely that congress would appropriate a sufficient sum to perform the work, for many years to come, even if it were feasible.

The plan proposed by the company incorporated in Canada, appears to be feasible and Duluth and the Northwest will watch its progress with considerable interest.

Bills have been introduced into both the Wisconsin and New York legislatures, drawn on the lines of the Alford bill recently passed by the California legislature, making it a misdemeanor for any proprietor or publisher of any periodical or newspaper to misrepresent the circulation of his publication for the purpose of securing advertising or other patronage. There should be similar laws in every state. A publisher who misrepresents the circulation of his paper when seeking advertising patronage practices a fraud, on the merchant who advertises just as much as the man who obtains money under any other false pretense.

That England means to continue mistreat the seas, if warships can maintain their position, is shown by the scheme of construction just submitted to parliament, which calls for thirty-nine new vessels and additions to the enlisted strength of the navy that will bring it up to 76,700 men. Among the new vessels are to be six torpedo-boat destroyers. These craft are to have twenty-seven knot speed, and are to prey on the torpedo boats, which they will be swift enough to overhaul and strong enough to destroy.

A Washington dispatch says that Senator Hoar intends to bring up in the senate the notorious charges which have been circulated regarding Senator Roach of North Dakota and demand an investigation. No self-respecting man can associate with Mr. Roach, if the charges be true, and if the Democrats refuse to declare his seat vacant or request him to resign, the Republican members will be compelled to ostracize him.

Two members of the St. Paul school board recently resigned because they claimed its actions were manipulated by outside political influence. Now William Pitt Murray has resigned from the board of directors of the chamber of commerce of that city. The reason is not stated, but probably it is the same as actuated the members of the school board.

Hon. D. D. Taylor introduced a bill in the Ohio legislature providing that no married man should go out in general society without warning the girls that he was married. The bill passed the house but was defeated in the senate. The gay old senators did not propose to be thus shorn of some of their annual pleasures.

A Chicago woman medium says "the spirits" have informed her that Carter Harrison will be elected mayor of Chicago by 40,000 majority, and Parkacker Allen's supporters declare it is only a ghost story.

The exports of agricultural implements from this country to the Argentine republic have increased in value in one year from \$325,000 to \$1,381,000. This shows the value of reciprocal trade treaties.

The secretary of Harvard university says that a student can complete the college course there "happily and honorably" for \$300 a year. Of course this is so, provided he has not a champagne disposition harnessed to his back income.

Manager Rhodes, of the coal combine, is in the firm grasp of the law. He probably realizes now that the legislative war on the combine is not a bluff.

Unnecessary Alarm.

Grand Forks Herald: The St. Paul Globe is alarmed at the possibility of a canal being constructed by Canadian capitalists from the lakes to the sea by way of the St. Lawrence river, Lake Champlain and Hudson river, and wants something done (quick) to head them off. It will probably be as difficult to stop work on the company means business as to show what injury a nice deep canal of the character proposed and along the route indicated would cause to the interests of the Northwest.

As to Cascade Square.

To the Editor of The Herald:

The Tribune of Sunday wishes to make Cascade square appear a long way off. But in all justice allow me to give the exact location of the much abused and much gilded spot, or gem. It lies about 500 feet from Mr. Mendonhall's residence, or one block from the street car line, on Fourth street and First avenue west, Duluth proper. It can be reached without cars or even without paying 5 cents, or \$3 for horse, ass or mule hire. One thousand Christians would visit Cascade square daily. Don't fail to visit the "Alps," or Pavilion park.

Let the reader remember that Cascade square and Cascade park are two different places in the city of Duluth. When crisscrossed on crutches visit this place as a choice spot to rest and see beauties of the city, the beauties of the city, our humane society should find seats and our park commissioners should get this square in shape as spring is drawing nigh, and let the property holders around this square get some profit out of their hand carved real estate. Give them some encouragement to build up permanent homes.

Remember there is an immense traffic along this square since Piquet avenue was cut. Thousands of people who will not take a 5-cent ride on the cars up to the Pavilion, where Cascade square will be the level headed men or females' choice.

IT IS ALL RIGHT NOW

Assistant City Attorney Crassweller's Position is Now Secure, the Council Electing Him Last Night.

His Former Appointment and Confirmation Were Not Made in Accordance With Charter Provisions.

The Park Board Presented Its Annual Statement—Banks Petition to Be Made Depositories.

Alderman Cox handed in his resignation as chairman of the committee on officers and offices last evening, after the larger part of the routine business had been ground out. No sooner had the document been read than Alderman Myers jumped to his feet and exploded a motion that the resignation be not accepted and Alderman Sorensen chimed in a mellow sound. The vote was taken and Cox was vindicated to the extent that his withdrawal from the committee was not accepted.

Having tasted blood, however, the alderman from the Fifth ward wanted to carry the war into Africa a little further. He got up and said that if the members of the council were going to insist upon retaining him as chairman of that committee, he should insist that the appointment of the assistant city attorney be re-committed to him for another week on the grounds that the action last week was invalid for the reason that none but the members of the council had a right to appoint that official and that he had not received a majority vote of members of the council. Mr. Cox read from a leather-bound copy of the city charter in proof of his statement. The council was compelled to see that the irrefragable alderman was right. Then came a long waste of words in an attempt to get around the break. There were motions and questions and opinions and what not. A motion to reconsider finally bobbed to the top of the boiling pot, which prevailed by a vote of 7 to 5. Then on motion of Alderman Thomas, the council proceeded to elect an assistant city attorney. AMUSEMENTS.

"The White Squadron."

Enthusiasm fairly overflowed at the Temple last evening, the house being filled with just such an audience as would appreciate a production of the character of "The White Squadron." The gallery was there and everybody knew it for the hero was given a great ovation, the villains were literally hissed and every thrilling climax brought tremendous applause. The White Squadron appears almost entirely to the gallery. It abounds in patriotic sentiments and "villain defying" declarations that always find a ready response in the bosoms of the gods. It is a play of the most dramatic and thrilling nature, and has so much plot that one is in imminent danger of losing the thread of the story. There are several good situations and climaxes. The best one is at the close of the first act, whereas the strongest climax ought to be at the close of the third. Then the characters are greatly overdrawn. An American naval officer who would assume so suddenly that it might startle him. But on the whole the play is as good as the average drama of the character and pleases the class of audiences that it draws. The play is magnificently staged, and fine scenic effects will always cover a "multitude of sins."

The cast on the whole is good. Robert Hilliard is a fine-looking fellow and a good actor and ought to appreciate the fact that the leading part in "The White Squadron" does not afford him sufficient scope for the employment of his abilities. William Harcourt as Paulo, King Healy as the Brazilian general and Ernest Hastings as Francisco were all good. Elmer Grandin as Santos, the slave, is also deserving of special mention and was particularly prominent because of his magnificent physique. Graham Henderson as Fritters, the newspaper man, portrayed a character never seen in real life, that of the "stage reporter," in a very satisfactory manner. Miss Wheeler as Onesta was good and Miss Lillian Leach as Hope Stanton was clever.

"The White Squadron" will be repeated tonight.

Field's Minstrels. A. C. Field's minstrels were confronted by a crowded house at the Lyceum last evening and gave about three hours of good solid minstrelsy and fun. Their specialty people were all first-class, and the team's paving block chorus was as novel as it was pleasing. The same team gave a street sweeper's musical burlesque and recited instrumental both of which were perfectly new. There were a number of old jokes, but a quantity of new ones. The other specialists were very good. Al Field, Donnelly and McNish were hosts in themselves and the performance was thoroughly enjoyable.

Carmenita Tonight. Tonight at the Lyceum Carmenita will be seen for the first time in Duluth with "The Prodigal Father." She will dance the Cachucha, also Sandiogo and the Volantes, three of her most successful and thrilling dances. In the Cachucha the sinuosity of her movements and the delightful motions are exceptional for her beauty and her musical thought. The abandon of her movements and the delightful and symmetrical

cal forms into which she poses are a romance idealized. Her costumes are exquisite, her dances are such as have never before been thought of or attempted by any but this distinguished Spanish beauty. The strength of the program which will be presented is exceptional. The comedy of "The Prodigal Father," during which Carmenita appears, had a great run in New York. The author of the comedy is Glen Inge Donough. His dialogue is of the brightest, the situations of the jolliest description, and the company which will be seen here is one of the strongest, including as it does, besides the great Carmenita, such names as Geo. Denham, Geo. Boniface, Jr., Cecil Kingstone, Walter Thomas, Geo. Gaston, Frank Caldwell, Blanche Chapman-Ford, Cora Macy, Hope Ross, Marguerite Franklin and Little Irene Franklin.

"Uncle Tom's Cabin." The Baltimore American says of Stetson's Uncle Tom's Cabin company which appears at the Temple tomorrow afternoon and evening:

"Stetson's Big Uncle Tom's Cabin company is at Kelley's front street theater this week. They have all the accessories for producing the play in the most approved style, and were highly successful in pleasing the audience. It is singular how this piece draws, and how the audience laugh over it. There is no necessity for speaking at length over the presentation last night. It pleased the majority greatly. Topsy was good, so was Uncle Tom, so were Eva, Marks, the dogs and the singing. It was a good entertainment and the audience, which had come to laugh, laughed heartily and were satisfied."

Marshall P. Wilder. Tomorrow night Marshall P. Wilder and his company will give an entertainment at the Lyceum. Marshall P. Wilder is better known in the East than is any other public entertainer, but he is now making his first general tour of the country. For the past ten years he has been the act of New York's "top." He has been the central figure of many brilliant scenes of social entertainment. Fashion, culture, wealth and genius have joined forces in paying tribute to the unique powers of this refined jester of American civilization. Statesmen and great men of all classes have been made the objects of his flashing humor. In foreign lands royalty and nobility have received him with honor and given him the highest praise. The world is better for such men as Marshall P. Wilder, and he himself has drawn inspiration, happiness, honor and some money from the people he has made glad.

Lewis Morrison. Lewis Morrison and his company will produce his elaborate scenic and dramatic version of "Faust" on Friday and Saturday evenings. The piece will be

mounted with magnificent scenic embellishments. Startling scenes, that make the poor miserable mortal feel his weakness when compared to the power of the immortal, come in quick succession. For this reason Mr. Morrison's "Faust" is a worthy moral lesson as well as a gorgeous production of dramatic and scenic art.

ALMOST AN ACCIDENT. A Teamster's Presence of Mind Saved His Horses.

Train No. 5 on the Duluth & Iron Range road had a narrow escape from a bad accident yesterday afternoon, and the presence of mind of an unknown teamster saved a couple of valuable horses from death. A sleigh loaded with telegraph poles in attempting to cross the tracks at the crossing of the Duluth & Iron Range road stuck fast and in an instant the teamster heard the rumble and saw the afternoon passenger train coming down swiftly upon him. The teamster slacked his team back and in an instant had withdrawn the bolt which fastens the single tree onto the sleigh pole and just succeeded in getting his team and self out of harm's way when the snow plow of the train struck the sleigh and sent the load flying in all directions. The sleigh broke up and was well demolished and the poles will do for gigantic toothpicks, but beyond that the plow and a little no damage was done to the engine.

The Superior Election. Superior has three candidates for mayor. The Democratic nominee is E. C. Kennedy, a partner of Judge Spencer, of Duluth. Martin Pattison has the Republican nomination. He is a native of W. E. Hoelke is running independent. The fight will be a warm one. The Land and River Improvement company prefers Kennedy, but this fact will damage rather than assist his canvass.

JUMPED THE TRACK. A Lakeside Street Car on the Rampage But No Damage.

One of the Lakeside street cars is laid up for repairs today and a load of fifty or sixty passengers are congratulating themselves that they have no broken bones. About 6:30 o'clock last evening an east bound Lakeside car full of passengers had just crossed the bridge near the ravine near Thirty-second avenue east when the car jumped the track and ran along for about forty feet parallel with the rails. It struck some little obstruction and "slewed" the car body crosswise and continued on its course, plunging into a bank of snow with a suddenness that caused a sacrifice of much dignity on the part of the passengers, who were indiscriminately thrown together at the front end of the car.

Several of the windows were broken and the car was unable to proceed. It blocked one track but left the other one clear. The soft snow was the means of averting more serious accident for the car stopped only a foot or two from one of the trolley poles which stood in front of it. It was some time before the track was cleared.

Birds of Passage. Between this and the other side of the broad Atlantic, in the shape of tourists, commercial travelers and mariners, agents "on the road," stevedores, captains, ship's surgeons and all sorts and conditions of travelers, emigrant and new settlers appreciate and testify to the preventive and remedial properties of Hostetter's Stomach Bitters in sea sickness, nausea, malarial and rheumatic trouble, and all disorders of the stomach, liver and bowels. Against the prejudicial influences of climate, crudely cooked or unaccustomed diet and impure water, it is a sovereign safeguard, and has been so regarded by the traveling public for over a third of a century. No form of malarial fever, from the calentura of the Pacific and the broken bone fever of the Mississippi, to its milder types, can resist the curative action of this benignant preserver and restorer of health, a veritable boon to persons in feeble health or liable to incur disease.

THE MUNICIPAL COURT.

A Quintette of Drunks go to the County Jail For Repairs.

Five specimens of genuine homo were committed to the county jail this morning for drunkenness. They bore respectively the names of James Davidson, James Walsh, Tom Davison, Sam Johnson and Angus McDonald. Martin Matson was drunk also but he paid \$12 and escaped confinement.

Andrus Matheson, on complaint of John Christianson, was arraigned on the charge of willful destruction of property. On March 25, so the complaint avers, the defendant tackled a house that was being moved from a lot down on Rice's Point, smashed the windows, tore off one side and did damage to the extent of \$750. The trial was set for tomorrow afternoon at 2 o'clock.

Non-pull-out. is an arbitrary word used to designate the only bow (ring) which cannot be pulled off the watch.

Here's the idea. The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the groove, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

It positively prevents the loss of the watch by theft, and avoids injury to it from dropping.

IT CAN ONLY BE HAD with its Bow Fitted or other watch cases bearing this trade mark.

All watch dealers sell them without extra cost. Ask your jeweler for pamphlet, or send to the manufacturers.

IRON ORE TAXES

The St. Louis County Members are to be Heard Against the Langum Bill This Evening.

Leavitt's Bill for an Immediate Tax on Iron Amended to Three Cents in the Senate.

Another Anti-Scalpers' Bill Introduced to Take the Place of the One That Was Lost.

Retail Coal Dealers Tell How the Combine Threatened to Freeze Them Out for Cutting Rates.

ST. PAUL, March 29.—[Special to The Herald.]—Mr. Cotton spoke today in opposition to Langum's resolution to recall his bill taxing iron ores, telephone, express companies, etc., from the committee on mines and mining. The matter was finally adjourned by agreeing to allow the St. Louis county members to be heard against the bill in committee this evening, before it is reported to the house.

A new bill was introduced in the house today to take the place of the anti-scalpers' bill which was lost in the senate yesterday. It was an exact copy. Great opposition was developed. Cotton spoke in favor of suspension of the rules and passage of the bill on the ground of fair play. Charges were made by several members on the floor that the bill was stolen by interested people from the clerk of the senate. Greer made a statement that he never saw a measure of the legislature on which there were so many lightning conversions. The bill was reconsidered and passed.

Two bills were introduced in the house by permission of the governor: one relating to the retailing of the "household" and other for an act to prevent anything said against a dead man concerning what may be discovered on post mortem examinations.

The coal combine investigation continues to go merrily on. The committee is now putting up the retailers upon the rack and it is pretty thoroughly shown that the plan was to freeze out those who sold below the combine prices. John C. Norton, a retailer of Minneapolis, told the witness stand last night his difficulty in getting coal when he only cut prices one cent per ton on large contracts.

B. L. Perry, of Minneapolis, testified that Mr. Rhodes solicited their firm, Perry, Leavitt & Sons, to sign the roll of membership in the "household." The Lehigh company from whom they had bought coal had advised them to join the combine, if they wanted to get any more coal. He understood that the established prices was to be maintained or their supply from the Lehigh company would cease. He had written a letter to one Charles T. Jerome, in which he declined to cut prices, as he had been forced to join the combine in order to buy coal.

James A. Jelley of Hastings testified as to his connection with Mr. Rhodes as his agent at Hastings. Mr. Walsh asked him if he had not done some work for Mr. Rhodes in St. Paul. "Yes sir. He asked me to come up at one time, and when I got here he gave me a list of dealers and instructed me to buy coal if I could for less than \$3.85. I bought two tons of coal for \$17 from the Pioneer Fuel company on Sixth street. I called on others, but bought no coal from anyone else."

Senator Leavitt's other bill proposing an immediate tax of iron without a constitutional amendment was amended yesterday to 3 cents per ton. Senator Daugherty worked hard to secure one-half of the revenue thus secured for the county funds, but the senate will only give one third. In other words, the state takes six times as much from St. Louis county in percentage of tax upon the property valuation of iron as it does from any other county in the state on any other commodity. The state tax is usually from one-fifth to one-tenth of the total tax levied in the county.

In the senate this morning, E. K. Smith introduced a bill relating to elections of school directors in districts containing more than 1750 inhabitants.

Senator Gunderman secured the passage of his bill, under suspension of the rules, which allows owners of land to file a lien on logs which float upon their premises and remain there for a period of one year, also his bill making driving of spikes in saw logs a misdemeanor.

Senator Leavitt tried hard to get the reformatory bill which passed Saturday reconsidered, on the ground that certain amendments offered by him had not been reported or acted upon in committee of the whole, but he was voted down.

The special house committee appointed to investigate the alleged irregularities in the state auditor's office in connection with the sale of timber on the Mille Lacs county school sections is expected to make its report to the house within a few days. It appears probable that there will be a majority and minority report. Mr. Gorman, one of the members of the committee, expressed himself as dissatisfied with some of the testimony taken and will probably refuse to sign the report when it is presented to him. The report will undoubtedly recommend that the sale be declared void, and that C. A. Smith & Co. be required to pay \$1 per thousand for the timber.

The house kept at the reappointment bill all yesterday afternoon and at the end of the day had disposed of fifty out of the sixty-one senatorial districts proposed by it. Redwood county was made a single senatorial district. An extra representative was given Fairbault. Sherburne county was detached from Wright and placed in the district with Isanti and Anoka and a few other changes made. But a few hours' work was insufficient to dispose of it. No night session was held, the legislators

being at the reception tendered them by the Commercial club.

HAS REDUCED THE TIME.

The Burlington Will Make a Twelve Hour Run Between St. Paul and Chicago.

ST. PAUL, March 29.—The announcement yesterday that the Burlington & Northern road would, after April 7, reduce its running time between St. Paul and Chicago to twelve hours was the occasion of considerable surprise in local railroad circles.

Officials of other lines are non-committal on the subject, but it is certain that the Northwestern will meet the reduction in the time and the Milwaukee & St. Paul will put on sleepers on its fast mail train which now makes the run in twelve hours.

Some of the local railroad men think that, in case the Burlington executes the change as announced, the lines who cannot meet the reduction in time will retaliate by cutting the rates and a passenger rate war will be inaugurated.

EDITOR BAKER'S PLUM.

Will Be Made Minister to Either Japan, China or Brazil, According to Dan Lawler.

WASHINGTON, March 29.—[Special to The Herald.]—Representative Baldwin and Dan Lawler called on Secretary Gresham today to urge the appointment of Editor Baker, of the St. Paul Globe, to a foreign mission. They were seen after their interview with Mr. Gresham, and Lawler, who is doing his best to push Baker's claims, said that he was certain now that Baker would be named for minister to either Japan, China or Brazil.

ARREST OF A BRUTE.

He Maltreated His Wife So That Her Death Resulted.

SCRANTON, Pa., March 29.—Barney McMahon was taken in by the police yesterday charged with maltreating his wife in such a brutal manner that her death resulted, while giving premature birth to a child. The child is also dead. The investigations of the police show that McMahon a few days ago reached home from his work in the mines in an intoxicated condition. His wife began to upbraid him. He assaulted her. She ran screaming from the house. While in the street in full pursuit, he struck her to the ground and then beat her with a pole.

She was taken ill, her husband did not give her proper treatment as advised by the physician, and yesterday morning she gave birth to a child which was dead. The mother breathed her last a few moments later. The coroner is holding an inquest. No disreputable fellow and feels no regret for his crime.

THE PROFESSOR POUNDED.

He Insulted a Lady and a Friend Gave Him a Trouncing.

ATLANTA, Ga., March 29.—The effort of a prominent musician to make a lady apologize to him resulted in the musician being unmercifully beaten here yesterday. The musician is Professor William C. Rehmer, the man who did the pounding. Samuel Burbank, a prominent business man; the lady's name is not public.

Rehmer received a note in which the young lady requested him for some act at which she took offense. This note seems to have upset the youthful professor to such an extent that he threatened to bring an attachment for libel and slander against the lady.

Failing to secure from Rehmer the apology he, as a friend of the lady, demanded, Burbank promptly knocked him down. Rehmer had a charge of assault and battery made, but did not prosecute his charger.

KILLED HIMSELF AND WIFE.

A Double Tragedy, Committed by a Doctor in Nebraska.

ATMORA, Neb., March 29.—Edward Sterret, physician, shot his wife and killed himself yesterday. Mrs. Sterret left her husband Monday without assigning any reason. He met her on the street yesterday, and without saying a word drew a revolver and fired at point blank range into the throat, forced the weapon into her mouth and fired.

He then turned the weapon upon himself and fired into his brain. Mrs. Sterret is fatally wounded. No cause is known for the tragedy, as the couple were supposed to live happily.

PLAYED THE BUCKET SHOPS.

Now He is a Defaulter for a Large Amount.

BUFFALO, N. Y., March 29.—Charles Tomes, local manager for the American Preservers' company, has disappeared, leaving a letter confessing that he is a defaulter. The amount of his shortage is placed at somewhere between \$10,000 and \$20,000.

The bank books of the company cannot be found, and it is supposed he has taken them with him. Tomes has been living extravagantly and playing the bucket shops. The head office of the company is in Chicago.

Another Woman Lawyer.

WASHINGTON, March 29.—The committee to whom was referred the application of Mrs. Ellen S. Mussey, widow of the late Gen. R. D. Mussey, for admission to the district bar, having made a favorable report, the court in general terms yesterday admitted Mrs. Mussey to practice.

Lillie Johnson is Free.

MEMPHIS, Tenn., March 29.—The celebrated Mitchell-Ward tragedy was cleared from the courts this morning when the case against Lillie Johnson, charged with being Mitchell's accomplice in the killing of Freda Ward, was dismissed by order of Judge Scruggs, who succeeds Judge Duboise. Judge Duboise had persistently refused to dismiss the case. It was Judge Scruggs' first official act.

BLOODY BATTLE

The War in Honduras Marked by Another Fight in Which Government Troops Were Defeated.

They Left One Hundred Men Dead on the Field, While the Rebels Lost Fifty.

The Battle Raged for Many Hours and Was Decided by a Clever Flank Movement.

Hard Fighting in Brazil Where About One Hundred Rebel Soldiers Were Surprised and Butchered.

NEW YORK, March 29.—The Herald special correspondent at Panama cables that paper this morning as follows: Tremendous fighting marks the procedure of the war in Honduras. News has just been received of a battle near Tatumbla, which resulted in the defeat of the government troops with a loss of 100 men killed on the field. Nearly fifty of the revolutionary soldiers were slaughtered, and after the battle the bodies of all the dead men found on the field were collected in a heap and burned.

This battle occurred several days ago. Gen. Fonzo Villalla, who had been sent to the front with a large body of government troops to intercept the revolutionists who were moving against Tegucigalpa, reached the vicinity of Tatumbla at 3 o'clock in the afternoon. Gen. Villalla's approach was in the nature of a surprise to the revolutionary commander, Gen. Sierra, who occupied that city.

Gen. Sierra hurriedly prepared to defend his possessions, and from behind the works the troops kept the enemy away, while awaiting reinforcements from Gen. Reyna's division, which was only four miles away. Reyna's troops were pushed rapidly to the front, but the battle began so late in the day that firing had ceased owing to the darkness, when he arrived to reinforce the southern wing of the army. Gen. Villalla's forces fell back a short distance and waited for daylight to renew the attack.

That night a council was held by Gens. Sierra, Reyna and Archer, and Dr. Policarpo Bonilla and a flank movement upon Gen. Villalla was decided upon. Five hundred braves were detached in the swing, and with Gen. Reyna at the head occupied a height to the left of the position held by Villalla. The movement was so successfully executed that the commander was wholly unaware of it.

Gen. Villalla renewed the attack at daybreak. His men advanced fearlessly upon Tatumbla and the battle was soon raging furiously all along the line. As soon as the attack in front became general, Reyna opened fire upon Villalla's forces. The attack was so fierce and unexpected that it was with difficulty that the government troops were kept in line.

For many hours it raged. The government forces, attacked in the front and rear, could stand it no longer and Villalla ordered a retreat and the demoralization was complete. Without attempting to preserve the lines, the government troops fled in all directions. Not more than fifty soldiers of Villalla's army followed him in the retreat toward La Montaña. The revolutionists killed as many of the fleeing troops as they could. All that had been captured were slaughtered. The dead bodies of more than 100 government soldiers and nearly fifty of the revolutionary army were gathered together in a heap and burned.

Since his victory at Tatumbla, Gen. Sierra, with a combined force of 1,000 men, has advanced nearer to Tegucigalpa and is preparing to attack that city. Gen. Bonilla has taken possession of Olancito.

Further dispatches from Honduras say that the position of Acting President Aguirre is a pitiful one. He is said to be practically a prisoner in the capitol and is acting under the orders of Gen. Vasquez, who is Bonilla's rival for the control of the republic. He is anxious for peace, but has not the power to prevent further hostilities.

Gen. Vasquez has gone to lead those who favor his cause. Terror is rampant in the Guaymas. Wives and children of absent revolutionists have been imprisoned and subjected to frightful tortures. Assaults of revolting nature have been committed and even the hair has been cut from the heads of women. Vasquez is held responsible for these tortures. Governor Ezeta, of San Salvador, has assured the government of Honduras that he will take no part in the trouble.

HARD FIGHTING IN BRAZIL.

One Hundred Rebels Were Surprised and Butchered.

NEW YORK, March 29.—The Herald's cable despatch from Valparaiso says: Advices from Rio Grande do Sul have been received here to the effect that refugees arriving from Bagé tell stories of hard fighting between the government troops and revolutionists under Gen. Tavares, who are besieging the stronghold.

It is said that Col. Matta, commanding a detachment of the national army, surprised and butchered 100 revolutionists near Rio Negro. Tavares, who has command of the revolutionary troops in that section, attacked Col. Matta. The revolutionists were driven back, after a hard fight, but Col. Matta is reported to have been killed.

This report is only partly confirmed by the correspondent in Rivera, who says Tavares has made no decisive movement against Bagé.

CAPTURED AT JEROME

Latimer Was Recognized in a Country Store While Buying a Cheap Pair of Boots.

When the Constable Arrested Him He Did Not Resist and Was Evidently Tired Out.

He Says He Did Not Intend to Kill Haight But Only to Make Him Unconscious.

JEROME, Mich., March 29.—It was 9 o'clock last night when a man entered a country store here and asked for a pair of boots. A young man standing by whispered in the clerk's ear: "That's Latimer." The clerk nearly fell down. "Run out and tell father," he said faintly to the man who had recognized Latimer. The young man slipped out of the store to inform the proprietor.

By this time Latimer, who had caught on to the fact that he was recognized, left the store, having purchased a cheap pair of boots, a pair of socks and a pair of buck mittens. He passed between two stores, struck the railroad track, followed in a short distance, and took the traveled road back the way he had come.

Coming to the road leading to Hudson, he started up that. He did not run, but walked at a good clip. After a few moments of confusion at the store, the two young men followed down the road, and soon overtook Latimer. They were walking along by the side of him, fearing to lay hands on him, when the constable, who had joined the pursuit, drove up and jumped from the buggy. He tapped Latimer on the breast, saying "You are Latimer?"

"Who is Latimer?" smilingly inquired the fugitive, innocently. "You are, and I want you." "I never heard of Latimer, as I know of," insisted the constable. He made no resistance whatever, but walked back a mile and a half to the village side by side with his captors. He was all tired out and could not have made any sort of resistance if he had wished to.

In paying for the boots and other articles, Latimer handed out of the \$5 gold pieces taken from the pockets of Geo. Haight, whom he had murdered twenty-four hours before. Latimer was recognized by his striped shirt, which he tried to keep covered up and by his prison trousers. Said one of his captors: "Latimer did not get a bit excited, when he seemed to understand he knew him. He spoke slowly, made change deliberately and then walked out slowly. He is a devil of a cool chap."

DID NOT INTEND MURDER.

Latimer Says He Only Wanted to Make Haight Sick.

JACKSON, Mich., March 29.—Coming over from Jerome, Latimer told the following story to T. J. Lowery, one of his captors: "I intended to escape, if I could, all the time. I studied up the means which I knew would get me the quickest and do the work effectively, but I never intended to kill anyone. I read books on poisons, and found that by diluting Prussic acid to a certain degree it would act safely and suddenly. "I wanted to hit it so I could make the night guards unconscious for an hour. No man on guard knew a thing of what I intended to do. All the officers about the prison are absolutely blameless for anything that has happened. I am sorry that Haight is dead. I only intended to make him sick, the same as Gill. I must have made the solution stronger than I thought. The officers see I am telling the truth by looking at the book in my cell, where I read how to dilute the Prussic acid."

"The story of buried money in Kheas Island, I invented to interest and please Gill. I saw he was close to believe the story and kept it up."

Latimer said he got his clothes from a man three miles south of Jackson. He woke up the man at a farm house, told him he was destitute of clothes and had to have something to wear. He told him he had been stealing a ride on a train and lost his clothes on the top of a

SUNSTROKE IN BATTLE!
DR. MILES' MEDICAL CO., ELKHART, IND.—I must say the Restorative Nervine and Nerve and Liver Pills have done great good.

FOUR YEARS I HAVE NOT FELT AS WELL AS NOW.
The starting point of my disease was a sunstroke received in battle before Fort Hudson, Louisiana, June 10th, 1885. Try to the time of beginning to take Dr. Miles' Restorative Nervine I had had a continual distressing pain in my head; also, weak spells, and the past four years I have had to give up everything of an active character, and stay in the house for the most part. I have been cured by the use of Dr. Miles' Restorative Nervine. Several of my friends have cured me, and I have been using your medicine, and all speak well of them. Yours truly, W. DEAN.

car. After leaving Soul's farm house near Horton, Monday, Latimer ran into a swamp between there and Moscow. On jumping from one log to another he slipped and hurt his ankle. It pained him so much that for a time he could not walk. Finally he got through the swamp and struck a sort of camping place.

He found an old tin pail and built a fire. He put water in the pail and heated it, tore the lining out of his coat, dipped the pieces in the hot water and applied them to his ankle. He stayed there until he saw a man coming through the woods carrying a gun. He hid just time to conceal himself in the hollow of a standing tree when the man saw the fire and came to it. He saw Latimer's tracks in the earth and stooped down to look at them closely.

The gun seemed to bother him and he sat it up against a tree and went into the swamp. As soon as he got out of sight Latimer slipped out of the tree, took the gun and went through the woods as fast as he could. He carried the gun three hours, and then as it tired him to carry it he hid it under a bridge.

THE OPPONENTS OF HOME RULE.

They Met Mr. Gladstone. Who Replied to All Their Arguments.

LONDON, March 29.—Mr. Gladstone was visited yesterday by delegations from the Belfast chamber of commerce, the Belfast harbor commissioners and the Ulster Linen Merchants' association, who addressed the premier in deprecation of the proposal to establish a separate legislature in Ireland, and represented that Irish interests would be greatly injured thereby and that religious and radical differences would make successful home rule impossible.

Mr. Gladstone discounted the importance of the fall in Irish securities, which he said doubtless arose from the fact that the majority of the property owning classes in Ireland were opposed to home rule. Mr. Gladstone disputed the allegation that historical jealousy existed between the members of different religious in Ireland, and he denied that radical divisions would prevent unity under one local government.

Mr. Gladstone referred to Canada for an instance of the existence of racial divisions infinitely sharper than in Ireland. There, too, there had been similar gloomy prophecies when a united, autonomous scheme of government was proposed, but Canada nevertheless was contented and prosperous.

As to the charge that capital would be driven from Ireland by home rule, Mr. Gladstone said that so far from there being a chronic want of money in Ireland when home rule would be established there, there would, he believed, be a plethora of money because the expenses of the government were now enormously extravagant.

After replying to the Unionist emissaries from Ulster, Mr. Gladstone received a deputation of London merchants and bankers, including Right Hon. William Liddell, one of the directors of the Bank of England, who had come to represent the danger to financial interests involved in the Irish home rule scheme.

Mr. Gladstone said that he was sadly sensitive that the government was at issue with the money classes whose views were commonly opposed to national sentiment. They should remember, however, that the period of the last Irish parliament had been a period of marked financial progress, and the proposed measure was, as a matter of fact, conservative and not revolutionary.

A PRIEST REINSTATED.

Father Kuhlman Wins on an Appeal to the Pontiff.

ST. LOUIS, March 29.—Rev. Father Kuhlman, the former manager of the Church Progress and the Catholic World of this city and the pastor of a church at Mitchell, Ill., who was suspended by Bishop Ryan of Alton, Ill., will return to St. Louis shortly after Easter, restored to his priestly faculties. He has been in Rome for over a year, and when his case was heard he obtained a favorable decision. He will not, however, obtain a charge in the diocese of Alton.

Rev. Father Kuhlman, of Bayonne, Ind., one of the principals in the dispute over the pastorate of the Catholic church in that village, was in this city a few days ago. He announced his intention to suffer suspension rather than to obey the orders of Mgr. Sattoli to preach in English.

New Road to Duluth.

CHIPPWA FALLS, March 29.—A road has been projected from this city north to Lake Superior, which will open up a fine timber country. The corporation is to be known as the Chippewa Falls & Northern Railroad company, and it is proposed to survey a line from here to Cadott, twelve miles distant, as far as River Falls, forty miles altogether, and build it the coming season.

Leprosy in Illinois.

OAKLAND, Ill., March 29.—There is great excitement here at a patient of a man named Allison, who the doctors say has the genuine leprosy. The man was married only a few weeks ago, but his flesh is sloughing off of his bones and his face is as spotted as a leopard. The physicians say that the disease is contagious, and as his wife has had a chance to catch it she will be quarantined.

CAR ROBBERS CAUGHT

The Perpetrators of Robberies That Have Cost Railroads in Texas Heavy Sums Found Out.

A Raid Made on Two Negro Stores and Large Quantities of Stolen Goods Discovered.

Nine Colored Men and Women, Supposed to be Implicated in the Robberies, Were Arrested.

PARIS, Tex., March 29.—The car robberies, which have cost the railroads here \$6000 or \$7000 and resulted in the killing of Lee Stephens Monday night, were the basis of nine arrests yesterday. Two negro stores, one owned by James Dawson, who is worth about \$15,000, and the other by Randolph Vandeyke and Anthony Gray, have been under close watch for the car robbers.

Monday night after Stephens was killed, these people were quite busy packing things away and yesterday morning they were raided. At Dawson's a large quantity of dry goods, shoes, clothing, hats, groceries, trunks and stationery were found, many of them in original packages.

The goods were hidden in the loft and even a wall was jammed full. Two houses belonging to Dawson and occupied by negro women were also hidden places for goods. At Vandeyke and Gray's a lot of groceries, hardware and some furniture were found. Some of the hardware bore the marks of Hicks-Betts Hardware company and had been stolen from their store.

James, John, Canda and Emma Dawson, Mattie Gould, Lonnie Cook, R. Vandeyke and Henry Debro, Hicks and Betts Porter are under arrest. Other developments are expected.

THE FRENCH TARIFF.

It Will be Modified When Other Countries Grant Concessions.

NEW YORK, March 29.—The Evening Post's Paris cable says: The French foreign minister, speaking at the banquet of the chamber of commerce, indicated the intention of the government to relax the stringency of the Meline tariff in cases where it is calculated to complicate the relations of France with some of her neighbors, and expressed confidence that if other countries meet his financial policy in the spirit of fairness and good will, no doubt a satisfactory agreement will be secured.

It is understood that the present high duties on petroleum will only be maintained until tariff agreement with those countries, whose concessions to France would be to represent the danger to financial interests involved in the Irish home rule scheme.

ANNEXATION IS POPULAR.

The Feeling in Hawaii in Favor of Annexation Is Increasing.

SAN FRANCISCO, March 29.—The steamer Alliance, which has arrived from Honolulu, reports that the provisional government is administering public affairs in a conservative manner and is strengthening its position in every way. It is being done in order to maintain the situation until such time as the United States shall complete measures for taking the islands into its possession.

The sentiment in favor of annexation has, notwithstanding reports to the contrary, been surely gaining ground, and among those who have been or recently been listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by the Chicago World's Fair Association.

The book contains a list of about 6000 private families who will accommodate visitors in Chicago during the time of the fair, viz. May 1st to October 30th; gives their names and addresses, and number of rooms each will have to spare. The book also gives a list of the hotels and their locations. It has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, corresponding in advance with one or more families in that locality with regard to rates and the accommodations desired.

The Wisconsin Central lines will in due time publish low excursion rates to Chicago and return for this occasion, while its double daily passenger train service, including through sleeping and dining cars to Chicago, will maintain its head of the list in every particular.

To help you in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

BRAGG SPEAKS HIS MIND.

He Tells Cleveland That He Has Been Snubbed Publicly.

WASHINGTON, March 29.—Gen. Bragg, of Wisconsin, has finally arrived at the conclusion that he can expect nothing from this administration.

After having reached this decision he called at the White House and in a characteristic manner told the president what he thought of the treatment he had received.

GENERAL BRAGG.

received at his hands since he came to Washington.

In addressing him he claimed that it was through his efforts that the Democratic party in Wisconsin had been so lucky during the past few years and further than this that he had always been a staunch friend of Cleveland.

In closing his rebuke to the chief executive, he stated that he thought the present instead of having snubbed him publicly, should have at least had consideration enough to do it privately.

TALE OF SUPERSTITION.

A Story From Europe That Sounds Like Occurrences Years Ago.

BERLIN, March 29.—The Frankfort Zeitung publishes a horrible tale of superstition from the village of Pontezena, near Florence. A peasant's daughter was suffering from hysterics and the priest declared her to be possessed of the devil.

The priest consulted a reputed sorcerer, on whose counsel he was to seize and burn the first persons knocking at his door. This happened to be a beggar woman and he drove her into an oven.

Shrieks brought passers-by to her rescue. She was taken from the oven in a dying condition. The priest and sorcerer have been arrested.

Visitors Are Growing More Numerous.

Excursions to North Galveston, Tex., seem to be quite the proper thing, lately.

Many more are being made up from time to time; many are now enjoying the genial climate, and balmy sea air of that beautiful portion of our country; many more are projected. These visitors include manufacturers and capitalists from St. Louis, Denver, Minneapolis, St. Paul, Chicago and other large cities, all attracted by the wonderful resources and prospects of ultimate importance which is associated with this thriving young city. The local agents of the North Galveston Association, Holmwick & Youngblood, No. 327 West Superior street, Duluth, Minn., will be pleased to furnish information. The home address of the association is box 955, Minneapolis, Minn.

Ed Capliss is the Only Openly Declared Candidate for the Position of Postmaster.

The appointment of a large number of postmasters of late has revived a stir among the office seekers here and a number of the faithful are impatiently waiting to see the head of the present incumbent fall into the basket. There appears to be little doubt among the Democrats concerning the decapitation, but just whose name fills a snug place in the breeches pocket of Maj. Baldwin is as yet past finding out.

As usual there are several good citizens who would not refuse the position if urged to accept by their friends. Ed Capliss, however, is the only one who has made an open and personal canvass, and as he stands in pretty well with the representative Democrats his chances seem to be quite good. Mr. Capliss was president of the Democratic club during the last campaign.

Clerk Sinclair's office has had a number of interesting filings made in it since yesterday afternoon, among which are the following:

A default judgment for \$1338.11 in favor of Gottlieb Fontanel against Jean Baptiste Fontanel. This was the balance on a promissory note for \$1500 given by the husband to the wife June 2, 1892.

A release of claims against Ludwig Kahn, insolvent, by Albert Herzog Sons & Co.

An undertaking on appeal in the case of Elizabeth Jarmy vs. Duluth Street Railway company, also notice of appeal to the supreme court.

The complaint in John S. Pillsbury vs. W. K. Twomey et al. The "et al" in the case is Susie Twomey, wife of the defendant, and the suit involves title to land valued at \$5000, and avers an alleged fraudulent transaction of transfer in which Henry D. Fisher and the defendant were interested. The suit is brought to enforce the giving of a clear title from defendant to the plaintiff. Gillilan, Belden & Willard, of Minneapolis are attorneys for the plaintiff.

VIEW IT FAVORABLY. Chamber of Commerce Committee Thinks the Tunnel Should Be Built.

The committee of the chamber of commerce appointed to investigate the tunnel problem has made its report and it has been accepted and adopted. The committee informs the chamber that it thoroughly examined into the question and then says:

Your committee without exception are of the same mind as to the desirability and even imperative necessity of providing without delay adequate and suitable facilities for street and railway traffic between the city proper and that portion of Minnesota Point lying south of the ship canal. At this time when many parties seeking sites for manufacturing and commercial enterprises are forced by reason of the scarcity and high prices of suitable sites near the present business center of the city to accept inferior and inconvenient locations elsewhere it would seem to go without argument that a most urgent necessity exists for utilizing the splendid advantages afforded by Minnesota Point for business of all kinds, and that the best interests of the whole city will be subserved by securing immediate and convenient access with that immense undeveloped tract lying south of the canal and so make its almost unlimited capabilities directly tributary to the very heart of the city of Duluth.

The owners of property below the canal who will have to bear the major part of the expense of any means of communication with the main land seem to be a unit in favor of establishing this communication on the view of the fact that there is strong opposition as well from the general government as from other sources to bridging the canal in any form, it seems to your committee that the desirability of constructing a tunnel under the canal without unnecessary delay, is the only reasonable solution of the problem.

The committee further reports that it secured a copy of the act and considers it wisely drawn. The board of public works was interviewed and the committee expresses the opinion that the course taken by the board to determine the best plan of construction has been wise and correct. It is further said that while the board has not fully determined upon the territory against which assessments are to be made, it is predisposed to impose nearly the whole amount of the cost on property south of the canal and a small portion on property situated east of the point of rocks at Eighth avenue west. In conclusion the committee recommends the adoption of the following resolutions:

Resolved, that in the opinion of this board, a pressing necessity exists for permanent and suitable means of communication for both railway and street traffic between those portions of the city of Duluth divided by the ship canal, and that the most suitable method of securing such communication is by constructing a tunnel under the ship canal.

Resolved further, that the work of constructing a suitable tunnel under the canal be commenced without unnecessary delay and that in assessing benefits to defray such portion of the cost of constructing the tunnel, as it shall be determined to raise by direct assessment, the assessments should be spread over as long a territory as is consistent with a liberal exercise of equity and fairness.

LAKE AND RAIL BUSINESS. Trunk Lines Will Try to Control Rates From Duluth.

The trunk lines will make a determined attempt this year to control lake and rail rates, according to a Chicago dispatch. For the first time in their existence a well matured attempt will be made to regulate the lake lines in a large measure owned by trunk and central lake roads. The plan is based on a division of the traffic according to the percentage carried for the past three years.

This applies not alone to east-bound from Buffalo, but from Chicago and if possible from Duluth, Milwaukee and all lake ports. The plan is a pool only in effect. It does not provide for a physical division of tonnage or revenue, but resembles the east-bound arrangement from Chicago. Should any of the lines exceed their agreed percentages, they will temporarily retire from business until competing lines have caught up.

The arrangement is already complete as regards trunk and central traffic lake lines. Inducements are now being held out to the Great Northern to go in the agreement. Officials of Eastern lines believe the plan will work, and that the tramp steamers and schooners will be compelled to maintain rates.

The details of the plan in trunk line territory have been fully worked out and the agreement has been signed by all the roads interested. One of the trunk line officials declared that this will be carried out whether or not other lake lines joined it. He thought the permanency of the agreement was assured. Four-fifths of the entire tonnage is controlled by the trunk lines, and they could control the other fifth by refusing to pro rate except on agreed rates.

The plan would work far more satisfactorily, however, if the Great Northern and other recognized lake lines would become members. It is not generally known, but nearly if not a majority of the trunk lines have determined they will not hereafter haul a ton of freight which does not show a profit. The lake and rail agreement is the outgrowth of this determination.

Particulars of the Capture of Clarence Sheridan, Wanted for Complicity in the Meade Murder.

A Herald Representative Interviewed the Prisoner in the Carlton Jail Yesterday Afternoon.

Considerable Evidence Has Been Accumulated Which Indicates That Sherman Could Tell Something.

A Herald representative went out to Carlton yesterday and interviewed Sheriff McKinnon and Clarence Sherman, the latter being the much-wanted accessory to the murder of Banker Meade in Waupaca, Wis., several years ago. The capture of the man by the plucky sheriff and his assistants after several months of chasing by other officials, reflects great credit on the Carlton county executive and was effected in this manner:

Some weeks ago Sheriff McKinnon received a call from Andrew Williams, then sheriff of Waupaca county, Wis., who described the man known as Clarence or "Kenney" Sherman and the crime for which he was wanted. Sheriff McKinnon promised to be on the look-out and Williams went away. In keeping with his usual custom, Mr. McKinnon immediately sent descriptions of the man to his "lookouts" in various portions of the county, including one to Clequet, Saturday he received a telephone message from Liveryman O'Brien at Clequet, which was as follows: "Have you got Sherman? Think I drove him to junction last night."

The sheriff immediately started on the search for the man and traced him through the various places he was at on Saturday, including a visit to a house of ill fame, where Sherman spent considerable money, and back to the depot where he found that his man had purchased a cup of coffee and a couple of sandwiches just before the south-bound night express pulled out, and that he left the station with the sandwiches in his hand. Conductor Leonard was in charge of the train, and he returned on the north-bound train Sunday evening. Leonard

A Word About Capes

The Puff Sleeve, the Butterfly Trimmings, the general fluffiness of waists have brought into demand the Cape—and while they are being universally conceded as very stylish and practical, the Jackets are usually bought in preference.

VELVET CAPES are, comparatively speaking, a failure in the ready-made goods as anyone can buy the material and have one made for about half what they would have to pay for the ready-made ones, and they are too heavy and warm looking for spring and summer.

A Card

There has already arisen several contentions, owing to the fact that we have refused to copy pattern hats sold and thereby make common an otherwise exclusive conceit. All we have to say is that we shall adhere strictly to this method. We publish this for the reason that several who wished such copies made will understand that it is a severe rule which is enforced in every case.

We know in the end everyone will concede to these views, as it is the only method of preventing additions from becoming common. Respectfully,

"The Prodigal Father."

The Lyceum was packed last evening, Carmichael proving to be as great a drawing card as expected. When the famous dancer appeared, between the second and third acts, she was given an enthusiastic reception. Of her dancing there is nothing that can be said beyond what has already been written. She throws her whole self into the dance, body and soul, and her charm and fascination lie as much in the expression of her face and attitudes as in her wonderful agility. She was recalled again, and again and it seemed that the audience could not see enough of her.

The play "The Prodigal Father," gave great satisfaction. It is nonsensical and light but is comical and amusing in the extreme. It is really a side splitter. The wit is bright and catchy, the situations extremely ridiculous and it fulfills in every respect the purpose for which it was written—to amuse. The company presenting was a good one. George W. Denham deserves great praise for his excellent work in the character of Stanley Dodge. George C. Boniface, Jr., always popular with Duluthians, made new friends in the character of Tom Breeze, although it does not give him sufficient opportunity. Miss Blanche Chapman Ford in the character of Dollie Bonde was very good, and the whole cast was eminently satisfactory. Little Irene Franklin made a great hit and is a very clever child. George Gaston's piano specialty was very clever.

Upon his return to Grand Rapids after the former trial he immediately went on a drunk and in one saloon displayed a \$300 roll of bills, saying to the people in the place: "I got this for keeping my mouth shut at Waupaca." In another saloon and before some women he afterwards showed two rolls of money, one containing \$300 and the other \$800, with the remark that "it sometimes pays better not to tell all you know."

The witnesses to these admissions, act and sayings already on their way to Waupaca and will appear at the forthcoming trial on the part of the state.

Sherman, as Frank Palmer, has a bad reputation among the woodsmen and among the sporting women as an all around thief, one of the latter class saying: "Whenever he comes around the girl he is with always hides all her money and jewelry until he goes away."

Sheriff Ed Williams will be at Carlton today with fresh requisition papers and will take the man back to Waupaca. A witness has been found who will testify that Sherman was seen coming around the back of the Waupaca bank on the night of the murder, about the time the deed was supposed to have been committed, and it will also be produced in evidence that Sherman had been seen prowling around the bank several evenings previous to the murder. Something like \$10,000 in valuable papers and cash were missing from Banker Meade's office and the after negotiation of some of the securities gave the officers some clues.

merry. Wilder is a born humorist. His quaint, diminutive figure and indescribable face mark him for drollery; his keen perception and native wit confirm his calling. Instead of laboriously manufacturing "humor" and solemnly committing it to paper, he is the joke personified. Therein consists his genius. Another explanation of Mr. Wilder's success is his wonderful facial expression. He is the solemn old deacon, the Irish laborer or the young dude in an instant, and too, he enjoys his work; he enters into it heart and soul, and he never fails to keep his listeners in a roar of laughter.

Miss Carlotta Gilman is the soprano of the company and will doubtless receive a cordial reception, because of the popularity which she attained while here last summer. Miss Cecelia A. Woolsey a musical phenomenon is also with the company and Edwin F. Kendall is pianist.

"Uncle Tom's Cabin."

"Stetson's Uncle Tom's Cabin" company will present the famous old drama, "Uncle Tom's Cabin" at the Temple tonight. The version given by this company has met the especial approval of Mrs. Harriet Beecher Stowe, the immortal authoress of that world-famed drama, from the fact of Manager Stetson's adherence to the original text, which is a complete deviation from the custom of other Uncle Tom managers, who interpolate so many attempted jokes, stale jokes and vulgar witticisms into their renditions that scarcely a vestige is left of the never-to-be-forgotten work. Aside from the great work of the company, every act will be presented with new and elaborate scenery, painted by the master scenic artist of the world. The excellent company, two comical Topsyes, the two ludicrous musical Marks, the elegant scenery, the novel mechanical effects, the ferocious bloodhounds, two brass bands and the celebrated Lone Star Quartet will all unite in making the engagement a most notable one.

Lewis Morrison—"Faust."

Lewis Morrison introduces a novel idea in his spectacular production of "Faust" at the Temple Friday and Saturday. During the garden scene Mr. Morrison as Mephisto, makes flowers bloom where all was barren ground. With a wave of his hand he causes the flower to open, disclosing miniature variegated incandescent electric lights. In the church scene a chime of rich-toned bells and quartet of experienced singers are heard, and the scene of the Brocken, with its weird apparitions, flashes of lightning and concluding avalanche of fire, will be given with wonderful effect. The Mephisto of Mr. Morrison is a great creation, and to his forcible acting is added the charm of perfect elocution.

Cornell University Boys.

The Cornell University Glee and Banjo clubs will be at the Lyceum Saturday evening. Collegians have a happy way of pleasing everybody and of angling as no other organizations can. The Cornell boys have the reputation of having the best glee and banjo clubs in all the colleges.

Mike Brady was committed five days for vagrancy and Edward Dahl dropped \$3.50 into the slot because he failed to keep his outhouse vault clean, in violation of the city ordinance regulating such matters.

Kickapoo Indian Sagwa

T. B. NOLEN AND FAMILY, URBANA, ILL., RESTORED TO HEALTH BY SAGWA.

URBANA, Ill., Sept. 24, 1892.
Kickapoo Indian Sagwa has accomplished such great and lasting good in my family that I feel that the world ought to know it. My wife had suffered with a combination of Female Troubles and Indigestion for several years, and for two years had been almost blind, in fact, was blind to such an extent that she had to be led from place to place. From the First Bottle of Kickapoo Indian Sagwa She began to improve, the improvement being so rapid she continued the use of Sagwa as to Astorish Our Neighbors, who had known her condition. After taking but six bottles of Sagwa she was wholly free of her Female Diseases, could eat and digest her food, and most wonderful of all, her eyesight was completely restored. While in this condition my wife gave birth to a boy, who inherited her weak eyes and he became Almost Wholly Blind. Knowing what Sagwa had done for his mother I gave him this remedy and he is to day a perfect specimen of physical childhood, without a blemish and his eyes are as good as anyone's. I had a Discharge of the Kidneys, being so weak the larger portion of the time that I could perform but very little labor. I also took Sagwa using but two bottles, and am to day as Sound As a Dollar. Kickapoo Indian Sagwa certainly Performed Wonders in My Family.

One of the best investments in Duluth is a block of 24 lots in Duluth Heights, Fifth or Sixth Division (two blocks from electric car line, and ten minutes ride from Superior street) for \$250 per lot, or \$6000 for the block; cash payment on the entire block \$1200, balance one and two years.

With 130 houses now in course of construction in that locality and 200 more to be started before July (all to be built, owned and occupied by men of families), these Lots must advance very rapidly in market value, and would certainly yield a profit in the next six months, equal to the cash payment of \$50 per lot, or 100 per cent on the actual cash invested. These prices are only a fraction of the prices of other property similarly located at the head of the lake, in fact they are village prices. We are making sales every day and prices will be raised the first of every month. If desired by buyers, we make the cash payment \$30 per lot.

We are selling more lots than all the other land companies in Duluth. Call and look over our maps and prices.

LOCAL COAL DEALERS

They Present a Few Facts for the Consideration of the People Regarding Coal Prices.

What Committees of the St. Paul Chamber of Commerce and the Congress Have to Say.

The Trouble is Claimed to be Solely With the Eastern Producers and the Railroads.

The local coal dealers do not feel that they are being fairly treated in the present legislative investigation into the alleged combine. They think that the public should not jump to conclusions until they hear both sides and they assert that their side can disprove all the assertions that have been made by the legislative committee and others. At the recent public meeting in St. Paul, the chairman received a letter from President Wales, of the Pioneer Fuel company, but it was not read to the audience. President Wales said in this letter:

Believing that the people of Minnesota and the Northwest desire facts as to the prices at which it is possible to furnish anthracite coal delivered in their territory, the writer is prompted to furnish herewith a copy of a report made by the St. Paul chamber of commerce committee in October, 1888, after a careful investigation and in connection with this report, to say that upon investigation it will be found that the prices of anthracite coal f. o. b. cars at the head of Lake Superior and also the prices at retail in St. Paul, Minneapolis, etc., were practically the same then as at the present time.

Upon investigation the following facts will also be developed:

First—An advance in the price of coal at the mines.

Second—An advance in the cost of transportation from the mines to Buffalo.

Third—A decline in the cost of lake transportation from Buffalo to Duluth, but not sufficient to overcome the above mentioned advance in cost and rail transportation.

Fourth—The cost of transportation from Duluth to St. Paul and Minneapolis is the same as in 1888.

A copy of the report of the congressional committee, consisting of Hon. John Lind, of Minnesota, and others, is also herewith furnished. This report explains itself and may be of assistance in enabling the people to arrive at a fair conclusion as to the prices at which it is possible for the Minnesota dealers to supply the trade.

The report of the St. Paul chamber of commerce committee concluded as follows:

"These investigations have convinced us of several things in connection with the question of anthracite coal or fuel for the residents of St. Paul. First, our local dealers, both wholesale and retail, are

not making exorbitant or any more than reasonable profits. Second, we are a long way from Pennsylvania and every time coal is handled it costs something, and in addition to this expense the plants are necessary and must yield some return upon the capital invested. Third, coal could be furnished in St. Paul for less than present prices at a profit to all handling it were the mine owners so disposed and the railroads between Duluth and St. Paul, or Lake Superior and St. Paul, to reduce their rate on it, which is, we think, now too high. We think largesized hard coal should never hereafter exceed \$7.50 per ton in August and September here delivered, but whether we shall see this price or not, rests mainly with the mine owners in the East."

The report of the congressional committee appointed "to investigate the anthracite coal combine" is very voluminous. The committee found that it was the railway companies controlling coal lands, and not the coal dealers that constituted the combine, and said in its report:

The committee, after a careful investigation, has come to the conclusion that the railroad companies engaged in mining and transporting coal are practically in a combination to control the output and fix the price which the public pays for this important and necessary article of consumption. The combination is not confined to the Philadelphia & Reading and the Lehigh valley, but embraces all the railways connecting the anthracite coal regions with the water. There is substantially no competition existing between these companies. The only limitation to their demands is the indisposition on the part of the public to buy the product at an exorbitant price. The committee predicates its conclusions on the following facts, which were developed in the progress of the investigation.

First—That each transportation company directly owning coal producing lands, and each affliating coal producing company, sends a representative to meetings which for years have occurred monthly. These meetings are informal, so far as the committee could ascertain. They are not convened in pursuance of any resolution or agreement, but were the result of a tacit understanding between the parties in interest. No minutes of these meetings, so far as ascertained, are kept, and the proceedings are not of record or made known to the public. However, the fact is incontrovertibly true that at those meetings the monthly output and price of coal are determined.

Second—That in pursuance of a consensus of opinion or understanding arrived at in these monthly meetings, the transportation companies and the coal producing companies act in concert and conform thereto.

Third—That when it appears that a recalcitrant owner of a colliery declines to conform to the output of his mine to the conclusion arrived at in their monthly meetings, he is compelled to act in conformity by the transportation companies, who withhold from him cars which are necessary to transport an excess of output over the proportion which it was contemplated he would furnish to the market at such monthly meetings. (See testimony of Mr. Hadcock.)

Fourth—That these monthly meetings explain why the output of coal is annually about 10,000,000 tons less than the capacity of the mines. It is impossible

to say what amount of anthracite coal it would take to supply the market if the price was lower, but the evidence establishes that the public will not take the entire possible output at the price determined on at these monthly meetings. The natural law of supply and demand, in the judgment of the committee, does not control the output; but at these monthly conferences it is estimated what the demand will be at the price fixed, and in this way the demand as well as the price is, in a large measure, determined. The transportation companies are constantly confronted by a disposition on the part of the public to substitute other fuel for anthracite coal, and the question to be determined at these monthly meetings is how much the public will pay without destroying the market.

Fifth—That this result is brought about, not by the coal producers, but by the transportation companies who control them. The independent and individual owner of a colliery is practically at the mercy of the railroads. The freight agents who determine or fix the schedule rates of the several railroad companies are the men who practically control the situation. Where the railroad company owns the coal producing lands of the stock in an affiliated company, it makes no difference whether or not the business of mining pays a profit or freight yields a satisfactory return. The coal is shipped, and the coal is sold.

We are confronted by the startling fact that, notwithstanding coal can be handled with less labor and transported with less cost and risk than almost any other class of freight, the freight charges, as tacitly and apparently solidly agreed upon by all of the coal carrying roads, are far in excess of what would be the other great and more valuable products of the country.

The committee recommended various amendments to the interstate commerce law to deal with this matter and added: "The committee are agreed that the acquisition of property by transportation companies not necessary to the business of a common carrier is a growing and dangerous evil. The fact that the railroad companies are in one way or another absorbing the timber, coal and iron lands of the country cannot be disguised. That such ownership tends directly to monopoly and oppression is apparent to every student of commerce. No competition can exist between two producers of a commodity when one of them has the power to prescribe both the price and output of the other."

Creates no Comment.

WASHINGTON, March 29.—The gold exported from New York yesterday amounted to \$500,000 and all of it was taken from the sub-treasury. The loss of so small an amount does not even cause comment in treasury circles, as the free gold at the command of the treasury now aggregates more than \$7,000,000 and the treasury is gaining gold each day in its ordinary business transactions.

Now Let Her Come.

NEW YORK, March 29.—Martha Bell, who for years boasted that she would come back after death and demonstrate the truths of spiritualism, was stricken with apoplexy at her home on Gates avenue, Brooklyn, Monday night, and died before medical attendance could reach her. Mrs. Bell was 60 years old.

WILL SUPPORT SATOLLI.

Pope Leo Says His Mission is Necessary to Restore Concord.

Rome, March 29.—Pope Leo yesterday gave an audience to Mgr. Chapelle, coadjutor bishop of Santa Fe, N. M., who arrived in Rome about a month ago, having come to Europe with the object, so he stated, of obtaining recruits for the Santa Fe missions.

Mgr. Chapelle, who acted as secretary at the meeting of archbishops in New York, has disclaimed having come to Rome with any mission from the board of metropolitan. He has also expressed himself as replying to the appointment of Mgr. Satolli to his present post.

At the audience granted to Mgr. Chapelle, Pope Leo emphasized the importance of the university at Washington and expressed a hope that all the bishops would contribute harmoniously to assure its success. The pope said he wished the university to remain under the direction of the episcopal see.

His holiness added that he would constantly support his protégé and pupil, Mgr. Satolli, whose mission was necessary to restore union and concord in the church in America.

DEATH CAPTURES HIM.

Broadwell, the Celebrated Counterfeiter and Forger Dead.

NEW YORK, March 29.—Stephen C. Broadwell died in the prison pen at Bellevue hospital yesterday from a complication of diseases. Broadwell had several aliases. His career of daring crimes had made him known to the police of the principal cities of the country as one of the most dangerous and skillful counterfeiters and forgers in the United States.

He was last arrested about a month ago in this city by detectives from headquarters who had been searching for him more than a year. Broadwell was wanted in Cincinnati and Detroit for swindling several banks by raising checks. Detectives Reilly and von Gerichten found Broadwell at No. 34 West Twenty-third street on February 26.

They gained admission to the house pretending to be inspectors from the board of health. Broadwell was in bed, hopelessly ill with consumption. He was allowed to remain in the house under a close watch until a couple of weeks ago, when he was removed to Bellevue hospital.

The Deadly Grip.

NEW YORK, March 29.—Eleven deaths from grip were recorded at the office of the health board yesterday. The total number of deaths registered up to noon yesterday was 201, against 112 recorded Monday. The increase, however, is due to the fact that the number includes the deaths for two days in the institutions under the care of the commissioners of charities and corrections.

MARQUETTE, Mich., March 29.—The city convention last night nominated Nathan M. Vaughan for mayor, Thomas M. Lambert, for lieutenant, for recorder, and August Nachts for treasurer.

GERMAN AGRARIAN LEAGUE.

A Manifesto Repudiating Charges Made Against It.

New York, March 29.—The Evening Post has the following from Berlin: A well founded accusation that the Agrarian league is subverting agricultural interests to party ends has stirred the league into issuing a manifesto repudiating the charge and declaring that it will not allow itself to be taken in tow by the Conservative, Radical, anti-Semite and other parties, but will strictly retain its independence and prevent the conclusions of treaties prejudicial to German husbandry.

The movement is spreading in South Germany, where a new agrarian association is forming.

Criticized the ex-Secretary.

President Geo. H. Uhler, of the National Marine Engineers' Beneficial association, addressed a gathering of about forty Duluth and Superior marine engineers last evening in Hunter hall. Mr. Uhler took occasion to criticize the rulings of the late Secretary Foster, of the Navy department, with regard to the admission of the steamships City of New York and City of Paris to American registry when he admitted the foreign officers to obtain licenses to man the vessels. Secretary Foster snubbed the M. E. B. A. and President Uhler berated him for it. The visitor is an old ocean line chief engineer and a man of vast experience, and his address was very instructive.

TOOK THE TOWN FUNDS

Robert T. Berdie, Treasurer of the Town of McKinley Arrested in Duluth Last Night.

His Bondsman Made the Complaint and Charged Him With Absconding With Village Funds.

Alleged to be Short in His Accounts About Eight Hundred Dollars—May be Settled.

Robert F. Berdie, treasurer of the town of McKinley, was arrested by Deputy Sheriff Harry Armstrong last night and lodged in the county jail. He was on his way elsewhere and was arrested in the Union depot. He is said to be short \$800 and was formerly a resident of New Duluth and is of Hebrew extraction. His bondsman made the complaint. The telegram was sent by Justice F. S. Douds of McKinley mine and read as follows:

"Board Duluth & Iron Range train at Endion this evening and arrest R. F. Berdie. Complaint lodged with me by his bondsman that he is absconding with village funds."

The prisoner is about 35 years old, tall and of good appearance and address. He is under bonds at McKinley to keep the peace, and has probably been "spraying" a little of late. He ran a hotel and bar at McKinley.

Berdie was arraigned in municipal court this afternoon, at which time he waived examination. Judge Powell set his bonds at \$1500. He has not yet furnished bail.

A BAD FAILURE.

So the Schedule in the Andrew Jackson Matter Would Seem to Indicate.

The schedule of debts and the assets in the matter of the insolvency of Andrew Jackson was filed this morning. The assets foot up \$210,345.25, among which is the house and furniture already covered by mortgage at \$13,000. A large number of mining stocks which at par or face value would represent \$18,000, a mixed list of notes and accounts footing up \$77,425, and a miscellaneous lot of assets, the most of which are scattered pieces of realty all more or less encumbered. The qualifying notations are highly amusing and would take the time honored "Philadelphia" lawyer to unravel.

The liabilities foot up \$32,264.58. The document closes with the remark that the "foregoing statement is as complete as my rather imperfect bookkeeping enables me to make." The general impression among the legal gentlemen who have examined the schedule is that the liabilities are about as stated and the assets which may be realized upon are less than \$20,000.

To Build a Railroad.

C. K. Lawrence, of Superior, has left for Kentucky to superintend the construction of a railroad from the terminus of the Big Sandy River railroad to the coal fields in that state in which the Merits are interested, a distance of fifteen miles. The line will run from White House, the present end of the railroad, to Paintsville, at the mines. This section of road will be built, equipped and operated independently by the coal company, special bonds amounting to \$150,000, having been issued for the purpose. The coal company will own its own cars and engines and will turn its freight over to the railroad at White House.

THE IRON RANGE

Resolution Attacking the Iron Range Road Land Grant Introduced in the Senate This Morning.

The Attorney General Asked Whether the Road Has Any Valid Grant of Land at All.

The House Mining Committee Will Not Visit Duluth Until the First of Next Week.

Keller Charged John Day Smith With Being Responsible For Loss of Anti-Scalpers' Bill.

St. Paul, March 30.—[Special to The Herald.]—In the senate today a bill was introduced providing that on petition of the freeholders, city and village councils shall be obliged to submit to a vote of the people the question of establishing a public library. A two-thirds vote of the people compels the establishment of such library.

Merritt's bill providing for opening mines under the direction of the district court was referred in the senate to the judiciary committee.

A bill to enforce payment of delinquent taxes and make provision for the sale of such lands was passed under suspension of the rules.

Senator Daugherty called up house file 161, which enables the officials of West Duluth to complete their business after being annexed to Duluth, and had it passed under suspension of the rules. Senator Leavitt introduced a resolution attacking the Duluth & Iron Range road's land grant and reciting that the road has not complied in any particular with the terms of the grant. It calls for the opinion of the attorney general as to whether the road has any valid grant of land at all.

The senators tumbled over one another to vote for the drainage bill appropriating \$100,000 to improve the water courses of the Red River valley. As indicated in the debate, this was done to appease the northern portion of the state for the unjust defeat of the Markham bill. It passed almost unanimously under suspension of the rules.

In the house, the business of committee reports occupied the whole morning session. The house reported the loss of house file 761 from the committee on public parks. It provided for rights of way across public parks. The house committee has amended the senate bill on taxation so as to tax stock companies at 6 per cent on gross earnings and 5 per cent on telegraph companies, express companies and on mining companies. The bill was recommended to pass.

Mr. Merritt's mining committee will not be able to get up to 10 o'clock before the last of this week or the first of next. The morning papers here published a scheme for an appropriation bill which will only give one senator and one representative to St. Louis, Cook and Lake counties. Bob Dunn says that it is a bad measure proposed by the worst specimen of humanity. He said also that the committee would introduce a new bill about Tuesday giving these counties two senators and four representatives. The total representation will be fifty-five senators and 110 representatives.

Mr. Donnelly has secured the passage of the resolution in the senate to instruct the governor to appoint a commission of five to attend a conference of like commissioners from New York, Pennsylvania and devise means to abate the evils of the coal combine. The trust act of the state has been amended by the passage of a bill making the penalty for trusts and combines a fine of from \$300 to \$10,000 and imprisonment from one to ten years in the penitentiary.

Mr. Donnelly secured passage of the bill through the senate this morning adopting a state flag by solicitation of the World's fair ladies.

Mr. Keller publicly charged John Day Smith on the floor of the senate with being responsible for the disappearance of the anti-scalpers' bill in the senate and Smith retorted that he would like to deal with people when sober.

The senate yesterday passed Davis' bill reducing the number of regiments of the national guard from three to two. The debate was long-drawn out and somewhat personal, but the friends of the bill had enough votes and to spare. The bill passed by a vote of 33 to 11.

The reapportionment bill is conceded to be defeated, but a substitute will be introduced next Tuesday which will fix the number of senators at 35 and the house membership at 110. The bill may give satisfaction. There was a general kick on the first bill because there was an increase in membership, and every part of the state wanted the benefit of the increase. The northern portion of the state will fare badly without reapportionment this session, and the next legislature is likely to be Democratic.

A WEALTHY VAGRANT.

A Man Worth \$35,000 Arrested in St. Paul for Begging.

St. Paul, Minn., March 30.—Joseph Sutter of 200 North street was arrested here last evening for asking a street pedestrian for 25 cents to get a meal.

When taken to the central station and searched, there were found certificates of deposit on a New York bank for \$20,000, a bank book showing that he had an open account of \$15,000, papers showing that he had at some time been granted a patent on a motor, and a greasy old wallet containing \$81. He is 60 years old and says he has walked all the way from New York, having been arrested in Chicago two weeks ago for vagrancy.

HEAVY WIND IN CLEVELAND.

A Man Struck by a Falling Sign and Killed.

CLEVELAND, March 30.—A strong southwest wind has been blowing here all day raising clouds of dust that have in many instances been almost unbearable.

Charles E. Giles, a real estate agent, while walking along Superior street this forenoon, was struck upon the head by a falling sign board and almost instantly killed.

The telegraph and telephone wires are down and buildings in course of construction have been a number of accidents have been reported.

A MURDER AT ASHLAND.

Police Officer Hedican Shot Down by a Gambler Known as "The New Orleans Kid."

ASHLAND, Wis., March 30.—[Special to The Herald.]—This morning shortly before 3 o'clock a gambler only known by his nickname of "The New Orleans Kid" shot and killed Police Officer Ed Hedican (or Hetegan), while the latter with some others was attempting to arrest him. The facts, as far as learned at this juncture, are as follows:

The New Orleans Kid was playing cards in a gambling saloon, with several companions and had lost between \$200 and \$300, or about the greater portion of his roll. Jumping up suddenly from his chair, he said, "Everybody hold up their hands!" and whipped out his revolver. He then emptied all the money about the place and patrons into his pockets, and was just leaving the house when Officer Hedican, with two or three others, burst into the place and attempted to arrest the "Kid," who made a stubborn resistance and threatened to kill anyone who laid hands on him.

Police Officer Hedican rushed for the desperate fellow and grappled him, and the gambler's weapon was discharged, the ball striking Hedican, who fell to the floor without a word and died an hour afterward without speaking. "The New Orleans Kid" escaped in a few minutes and was lodged in jail. There is considerable excitement and some talk of lynching. A number of gamblers left town on the early morning train, or as soon as the murder became known, going to Hurley, Ironwood, Bessemer, Iron River and Duluth.

A BATTLE IS AT HAND.

A Desperate Fight Expected to Occur Today in Texas, Both Sides Being Well Armed.

PARIS, Tex., March 30.—In spite of rumors, there was no fighting at or near Antlers last night or this morning. One is expected today, however, and it will be a desperate affair.

Both sides have laid in fresh stocks of arms and ammunition and are determined upon the extermination of their adversaries. A number of surgeons have started from this city to take care of the wounded. Telegraphic communication is interrupted, probably by design, and it will be late before authentic information of the battle will be had.

THE FORGERIES EXPLAINED.

Sutter Forged the Warehouse Receipts Himself.

LOUISVILLE, March 30.—Information was secured at a late hour last night which seems to explain the mystery of the Sutter forged warehouse receipts. Rendered desperate and ill by the strain on his mind, Wm. M. Berber, confidential bookkeeper for A. H. Sutter & Co., last night stated that his employer was guilty of the acts alleged against him and said further that Sutter had confessed the same to him.

The blank receipts on which the orders were committed were secured, he said, over a year ago and were secreted in the office for some time before being started. The actual amount of forged receipts, according to Berber, is from \$70,000 to \$75,000. With the money thus obtained, Sutter was enabled to buy up large quantities.

THE OHIO REPUBLICANS.

A Big Banquet at Canton at Which Governor McKinley Spoke.

CANTON, O., March 30.—Representative Republicans from many sections of Ohio participated last night in a protective tariff banquet with the Republican club of Canton as the hosts of the occasion, and in sending greetings to the Republican party.

The tabernacle in which the event took place was elaborately decorated with bunting and the national flag, while the platform in front of which the table for the distinguished guests was laid was a mass of exotics, pot plants and cut flowers in various designs. Speeches were made by Governor McKinley and others.

CRUSHED BY ICEBERGS.

A Steamer Lost but All on Board Were Saved.

NEW YORK, March 30.—A dispatch to the Herald from Valparaiso says: The German steamer Tanis has arrived from the Falkland islands at Montevideo with the captain, his wife and crew of the steamer Templemore. The Templemore was crushed between two icebergs on March 3. The captain, his wife and crew got off in small boats, but the vessel was lost. They had been aloft five days and were nearly dead from hunger and exposure when they were picked up by the Dunbarine and taken to the Falkland islands. The captain, his wife and a portion of the crew will proceed to Europe on the Tanis.

BAYARD'S PLUM

The Former Secretary of State Rewarded by the President By Being Made Ambassador to England.

Lewis Baker Has Been Named as Minister to Nicaragua, Costa Rica and San Salvador.

A Minister to Japan Appointed and a Host of Other Nominations From the White House.

Maj. Baldwin Called Again on the President Today in the Interest of Harry Hawkins.

WASHINGTON, March 30.—The president today sent the following nominations to the senate: Thomas F. Bayard, of Delaware, to be ambassador extraordinary and plenipotentiary to Great Britain.

To be envoys extraordinary and ministers plenipotentiary of the United States: James D. Porter, of Tennessee, to Chile; James A. McKenzie, of Kentucky, to Peru; Lewis Baker, of Minnesota, to Nicaragua, Costa Rica and Salvador; Pierce M. B. Young, to Guatemala and Honduras; Edwin Dun, of Ohio, (member of the legation at Japan) to Japan.

To be consuls of the United States: T. M. Shaffer, of West Virginia, to Stratford, Ont.; Harrison R. Williams, of Missouri, to Vera Cruz; Theodore M. Stephen, of Illinois, to Amberg; Wm. T. Townes, of Virginia, to Rio de Janeiro; Claude McKelvey, of Ohio, to Bradford; Newton B. East, of Louisiana, to be second secretary of the legation of the United States at Paris.

Interior: John M. Reynolds, of Pennsylvania, to be assistant secretary of the interior, vice Cyrus Bussey, resigned; Henry J. Hathaway, of Maine, to be collector of customs for the district of Aroostook, Me.; Walter Goldard to be collector of customs of the district of Fairfield, Conn.; Lawrence J. Maxwell, Jr., of Ohio, to be chief of general vice C. H. Aldrich resigned.

AGAIN AT THE WHITE HOUSE.

Maj. Baldwin Presents More Indorsements for Harry Hawkins.

WASHINGTON, March 30.—[Special to The Herald.]—Representative Baldwin was at the White House again today to file additional recommendations for Harry H. Hawkins for the Alaska governorship. He said he yet had no opinion to express in reference to Hawkins' chances.

EXPRESS ROBBERS CAUGHT.

The Authorities Given a Tip and Laid in Wait For Them.

DEMING, Tex., March 30.—Late yesterday the news was spread that a gang of would-be express robbers had been jailed, as a result of a rumor that was current several weeks ago, regarding a plot to rob the American Express company here on the night of Feb. 10, when there was a sum of \$175,000 in the office. One of the party informed an officer, and the sheriff and deputies laid in wait for the robbers. They appeared at the appointed time, a. m., two of them masked, in plain sight of the officers, but for some reason the robbery was not committed.

The fact was kept quiet, when Sheriff Hughes arrested Tom O'Brien, of this city, and Joe Collins, of Sherman, and warrants are out for the two others. There is great excitement among the express people over the arrest.

HAIGHT WAS POISONED.

That Fact Shown by the Analysis of His Stomach.

JACKSON, Mich., March 30.—Dr. Nov's statement as to the analysis of the stomach of Guard Haight and the vitals and lemonade was read in evidence at the inquest this morning. Dr. Nov says the stomach, the vitals and the lemonade all contained hydrocyanic acid. Laumer is lying on bread and water now. The solitary cell he is in is smaller than the regular size and contains nothing but a straw mattress on the floor. No one but the chaplain is allowed to talk to him.

IMPEACHMENT FAVORED.

OMAHA, Neb., March 30.—The committee of lawyers, to whom the house referred the matter of the impeachment of the state officers, has reported in favor of their impeachment.

BURNED TO DEATH.

CLEVELAND, March 30.—An explosion in the store house of the Forest City varnish works shortly after noon today caused a fire in which Chase Doubelman was killed. The store house was partly destroyed. Loss about \$20,000.

"DESIGNED" OF COURSE.

WASHINGTON, March 30.—John Nichols, chief of the mail division, today tendered his resignation. His successor will be named during the next few days.

MORRIS RECOVERED.

WASHINGTON, March 30.—S. E. Morris, editor of the Indianapolis Sentinel, has been appointed consul general to Paris, writes from Asheville that he is recovered from his recent illness and expects to go to his post of duty within a month.

PIERCE RESIGNS.

WASHINGTON, March 30.—The resignation of ex-Senator Pierce as minister to Portugal has been received. Gen. Bragg will probably be offered the place.

THE RIGHT OF ASYLUM

Conflicting Statements Are Made Regarding the Contents of the Proposed New Treaty With Russia.

The Claim Made That It Would Allow the Return to Russia of Political Refugees.

The Senate Has Virtually Decided to Remove the Injunction of Secrecy and Make It Public.

WASHINGTON, March 30.—The showiness with which the senate act when it is so inclined, and particularly in regard to affairs of state, is manifested in the matter of the Russian treaty. This treaty was negotiated by Mr. Bayard as secretary of state and was sent to the senate by Mr. Cleveland during his previous term. After hanging fire several years, and being very materially changed and modified, it was ratified by the senate during the closing months of Mr. Harrison's administration.

So much criticism has been directed against the convention that a sentiment was created among senators favorable to its publication so that it might show for itself what it was intended to be. In this view, as has been published, the state department coincided and some days ago a resolution was introduced in executive session authorizing the removal of the injunction of secrecy. Out of respect to the committee on foreign relations the resolution was referred to it for action.

No report has yet been made. The committee had adjourned yesterday but it is understood that while being favorable to the purpose intended by the resolution, they were unable to agree upon a favorable report by reason of disagreement relative to the correspondence accompanying the convention.

A well known senator, who is prominent in his love for fair play and general good humanitarian legislation, stated that when published the Russian treaty would be found to be neither more or less objectionable than several other treaties that have been in operation for some years. The criticism is due, he says, to a misconception of the effect of the instrument, based upon garbled extracts that appeared in a publication when the treaty was first sent to the senate and when objections now made would, if made then, have been timely and well founded.

The criticisms that have been made upon the treaty, whether just or not, have had the effect of putting the senate on the defensive, and it is understood that when it is finally decided to give the treaty out, it will be accompanied by the draft of the convention as it came to the senate, so that a comparison may be made between the treaty as ratified and the one upon which the senate acted.

Accompanying this will also appear the correspondence, for it is understood today that the state department has given its consent to the publication of messages that passed between the representatives of the contracting powers. It had about made up its mind that it would act regardless of the fact that the state department and that consent was readily secured, although consent to make public the text of the instrument itself has never been withheld. Mr. Charles F. Smith, chairman of the committee on foreign relations, was absent yesterday or it is probable that the treaty would have been released then.

Extraordinary care has been taken that this treaty should be kept as a profound secret, and it has been almost impossible to get anything like an accurate insight into the much discussed convention. The most recent treaty previously made by this government bearing upon the extradition of criminals was that made with Belgium in 1882, and that contains a clause that is said by senators to be almost identical with the political clause of treaty under discussion.

Political clauses are not at all rare in treaties made by the United States, for from early days the right of asylum has been protected in all conventions that have been negotiated. In many cases the language is exactly the same, while in others there is a different way of expressing the intention of this government, but it is expressly stipulated

that extradition will not be granted for offenses of a political nature in the treaties with Austria, Russia, Belgium, the Dominican republic, France, Haiti, Italy, Japan, Mexico, Netherlands, Nicaragua, Spain, Sweden and Norway and the Swiss confederation. While some of these treaties were made many years ago, although amended and altered, the "political clause" still remains.

The crime of forgery by which is meant, as stipulated in the treaties, the utterance of forged papers, and also the counterfeiting of public, sovereign and governmental seals, which appears in the Russian treaty, also appears in many of these earlier treaties, but the fact remains, as stated on the floor of the senate when this particular treaty was up for discussion, that no country maintains a frontier guard against the escape of its citizens at all comparable with the rigid discipline and strict surveillance maintained by the government of the czar, and what might be a simple provision intended to provide for the capture of criminals pure and simple, in any one of these other countries, becomes, under the peculiar conditions that exist in Russia, a standing menace to the safety of every man who may be able to get out of that country and reach the shores of America.

The treaty concluded with Belgium in the year 1882 and proclaimed November 2, within two days after the exchange of ratifications, contains the most elaborate reference to the crimes of a political nature. An additional clause provides that "a person, who has been surrendered on account of one of the common crimes or offenses mentioned, shall consequently in no case be prosecuted and published in the state to which his extradition has been granted on account of a political crime or offense committed by him previous to his extradition, or on account of an act connected with such political crime or offense, unless he has been at liberty to leave the country for one month after having tried, and in case of condemnation, for one month after having suffered his punishment or after having been pardoned."

It is understood that this provision is also found in the Russian treaty, but it was asserted upon the floor of the senate that extradition to Russia under treaties of precisely the same wording meant two vastly different things. During this debate it was brought forcibly to the attention of the senate by one of the leading lawyers of the South that this country had at one time asked for and secured the extradition of a man charged with what might have been under such a treaty called an offense.

He referred to the arrest of John H. Surratt, who was implicated in the conspiracy which resulted in the assassination of Lincoln. Surratt fled to Egypt and joined the army, thence to Rome, where he became one of the Papal Zouaves. He was recognized by a citizen of Baltimore who notified this government of his whereabouts. Upon application to the pope, who then enjoyed his temporal power, in Italy, Surratt was sent to this country and tried.

FOR THE GOOD OF THE SERVICE.

Secretary Carlisle Wants a Change in the Civil Service Rules.

WASHINGTON, March 30.—Secretary Carlisle is anxious to retain for the good of the treasury department the services of the substitutes now at work, who will be dropped under the new law forbidding their employment. To this end he has written the following letter to the civil service commission, suggesting a change in the rules by which his desires may be satisfied:

"I have the honor to call attention to section five of the legislative, executive and judicial appropriation act for the fiscal year ending June 30, 1894, and to the opinion of the first comptroller of the treasury thereon. The effect of the law and opinion referred to is to make the maximum absence ninety days with pay from all causes, on the part of employees of executive departments."

"In view of this fact, it will be seen that employment of substitutes must cease. In this department there are now employed thirty-three substitutes, who have been in service some of them since September, 1891. The present rule under which they are appointed provides that they shall be appointed to regular places as substitutes, and such course will be followed in this department between now and July 1 next when the law goes into effect, so far as possible, but it is doubtful whether all now on the list can be provided for within that time."

"I have the honor, therefore, to request that the rule may be so amended as will give to such substitutes as may not receive permanent places or before the date mentioned preference for selection to such vacancies as may occur after that date. The department desires to adopt this plan, if possible, for the reason that substitutes have come to Washington from distant places at more or less expense, have served faithfully and well, and it would be to the interest of the public service to retain their services in preference to calling for new and untried applicants. To turn them aside without any chance of reinstatement would, in my opinion, be an injustice and work great hardship."

"For these reasons, I have to recommend that the matter be taken under consideration and such amendments presented to the president for his approval as will admit of the permanent appointment of all the substitutes now employed in this department."

EXPECTS SUDDEN DEATH.

John L. Sullivan Believes Heart Disease Will End Him.

NEW ORLEANS, March 30.—John L. Sullivan, who is playing here, weighs 252 pounds and is in none too good health. Yesterday in a talk he said:

"I have always had it in my head that it is heart disease that is to be my end. My mother died of heart disease, and I take after her physically. It has come sometime and I am looking for it in a hurry, but when it does come, I had rather be snuffed out quickly by something like heart disease than to suffer with a lingering illness."

Sullivan now denies that he ever said Mitchell would whip Corbett.

MARRIED FOR MONEY

The Case of Charles W. White Who Married a Wyoming Widow For \$100,000 in Cash.

She Was Short of Ready Cash and White Claims That He Took Securities Instead.

The Widow Declared That He Robbed Her and Had Him Arrested, and Then Got a Divorce.

NEW YORK, March 30.—Charles W. White, who was arrested in this city on October 15 last, upon a requisition from Wyoming for the larceny of money and securities aggregating about \$100,000, failed to appear when his case was called in the United States circuit court last Friday, and an order has been entered forfeiting his bail of \$100,000, now in possession of the court.

White married Mrs. Elma J. Nagle, the widow of Erasmus Nagle, of Cheyenne, Wyoming, who had left an estate of \$200,000. White says his marriage was all business and that he sold himself to the widow for \$100,000. As ready money was short, he took \$25,000 cash and \$75,000 mortgage.

White left Cheyenne Sept. 6 last, with \$100,000 of Mrs. White's property. White came to New York and at once assigned his \$75,000 mortgage to the Central Trust company. It is said that the assignment was made without a consideration. A charge of grand larceny was preferred against White in Wyoming and a requisition sent for him from Acting Governor Barber. It was alleged that White had stolen from his wife the property of the estate, consisting of bonds worth \$61,850 and about \$40,000 in cash.

White's attorney procured a writ of habeas corpus from Judge Wallace of the United States circuit court, and upon hearing, October 2, it was dismissed. An appeal was also taken to the United States circuit court of appeals, where, while things were moving on both sides in Wyoming, White's attorneys appealed to the new Governor Osborne, to recall the requisition. He refused. Mrs. White at the same time was suing for divorce and has got it.

Suits were also commenced both in New York and Cheyenne against holders of the securities to whom White had made transfers, and injunctions were served restraining their transfer. Pending the decision on appeal, White was admitted to \$10,000 bail by Judge LaCombe. White always seemed to have plenty of money for his needs, and when Louis E. Cassier went on his bond the cash was furnished.

KILLED FOR HIS MONEY.

Murder of a Wealthy Stock Breeder in Ohio.

LIMA, O., March 30.—Daniel Scherger, a wealthy stock breeder of Cherry Fork, left his home Monday morning with a large sum of money for the purpose of buying some stock. In going to West Union, he passed through a dense wood, where he was seized upon by two highwaymen, who slipped upon him from behind and dealt him a heavy blow on the head with a blunt instrument.

When found, his skull was crushed and his throat was cut from ear to ear. His money, watch and jewels were gone, and some valuable papers were missing.

His body was carried by the murderers into a thicket, where it was found lying in a heap.

There is no clue to the highwaymen, although a number of suspicious strangers have been seen in that part of the country lately. The amount stolen was over \$1200.

FIRE IN A PRISON.

Pearl Button and Furniture Shops and Foundries Burned.

AUBURN, N. Y., March 30.—A fierce fire broke out in the shop of the prison yesterday but was soon gotten under control. The shops destroyed were the pearl button shop, the brass foundry and foundry No. 2, all belonging to the state and C. H. Stickley & Simonds' furniture shop.

The fire was presumably the work of convict firebugs. Warden Durston estimates the loss to the state on buildings and stock at \$40,000; place their loss at \$65,000; insured for \$25,000.

Two People Drowned.

NEW YORK, March 30.—Two lives were lost by the sinking of a canal boat at the foot of Thirty-seventh street this morning, a little before 6 o'clock. Joseph Williams, one of the crew, and Mabel Carman, the infant daughter of Captain John Carman, were drowned. Their bodies are still in the sunken boat.

Death Warrant Issued.

HARRISBURG, Pa., March 30.—The governor has issued the death warrant of Pietro Buccieri, an Italian, who murdered his nurse, a Sister of Mercy in a hospital at Reading. He will be hanged on June 15.

IT HAD A NARROW ESCAPE.

A Vessel Nearly Destroyed by Fire While at Sea.

NEW YORK, March 30.—The steamer Venango (British) from Hamburg, which arrived last night, had a narrow escape from total destruction by fire during the voyage to this port.

Capt. Wilson reports that on the 21st instant at 10:30 p. m., during a strong northwest gale and high sea, a hanging lamp in the saloon broke from its fastenings, falling to the floor, where it exploded and the whole cabin became one mass of flames.

All hands rushed aft and with much difficulty, owing to the headway the fire had gained, caused by the high wind, succeeded, with the aid of a fire pump, in subduing the flames, however, not before the interior of the cabin was charred and destroyed. The chief steward was severely burned about the face and body. The loss will reach several thousand dollars.

TO PROTECT AMERICANS.

The Kearsage Has Gone to Hayti Fearing a Revolution.

KINGSTON, Jamaica, March 30.—The United States war vessel Kearsage sailed for Port-au-Prince yesterday with the object of protecting American interests in the event of a revolution which the followers of General Maginat are endeavoring to excite in Hayti.

Thursday evening an exciting incident occurred in this port. A steamer belonging to the Kearsage got into trouble on the shore and was assaulted by a local constable. In the fight which took place, the constable almost killed the steamer. The latter was so badly injured that he was not taken on board the boat, but conveyed to a hospital. Although the best attendance is being given to him, his recovery is doubtful.

The strassling left Bremen on March 12. She was on Monday and considerable anxiety has been felt by those having friends on board. She has 500 passengers on board, only about fifty of whom are first class. The value of the strassling and the cargo is considerably over \$1,000,000.

SECRETARY SMITH'S WORK.

He Now Has the Cole Land Case Under Consideration.

WASHINGTON, March 30.—Secretary Hoke Smith has taken up for consideration what is known as the Cole case, which involves substantially the same doctrines as were announced in the celebrated Guilford Miller case, decided by Secretary Vilas in 1888.

There are two questions which remain undischarged on an appeal from Secretary Vilas. These are, first: Whether under the granting act to the Northern Pacific railway, the secretary of the interior has authority to disclaim the indemnity withdrawn; second, whether under the granting act, the right of the government to the general route of the road is exhausted when the company has filed one such map and a withdrawal has been made thereon. These are important questions, and the secretary is determined that they shall be promptly decided.

AROUND THE CONTINENT.

Trip of Two Young Ladies to Show the Possibilities of Travel.

ST. LOUIS, March 30.—Miss Edith Day, of Portland, Oregon, who is making a tour of the United States and Mexico to show the possibilities of travel on this continent, arrived here last night via the Ohio & Mississippi road from Washington, D. C. Her next day's destination is later by the Iron Mountain road for San Antonio and New Mexico.

Miss Bessie Mitchell, of Chicago, is covering the same number of miles, but by a different route, and the young lady tourists will meet in the City of Mexico at 1:15 p. m. April 2, and will each arrive at their respective destinations, Portland and Chicago, on the same day, April 9.

A Bearish Fake.

PEORIA, Ill., March 30.—President Greenleaf, of the whisky trust, was asked regarding the rumor that the Cincinnati end of the commission had asked for a receiver. He said that he considered it another fake for the purpose of bearing the stock which fell three points yesterday.

The Pennsylvania Road.

PHILADELPHIA, March 30.—The directors of the Pennsylvania road organized yesterday and re-elected the following officers: President, Geo. H. Roberts; first vice president, Frank Thomson; second vice president, John H. Green; third vice president, Charles E. Hughes; secretary, John C. Smith; treasurer, Robert W. Smith.

If you are tired and never hungry, Hood's Sarsaparilla will make you feel strong and well and give you a hearty appetite.

There is no better time to begin a commercial stenography or telegraphy course than Monday, April 3, and no better place to attend than the Duluth Business University.

Mme. LaFerte has returned to Duluth and is at 601 West Superior street where she will be pleased to see all her old customers and extends a cordial invitation to all.

ARE SEWERS NEEDED?

That is the question which is agitating the minds of West Duluthians just at present.

The Policy of New Administration on the Subject Will Probably Be Soon Ascertained.

Many Claim the Time is Not Ripe as Additional Tax Would Be Too Much.

The matter of sewerage is becoming an absorbing topic of conversation upon the streets and the pros and cons gather in little knots upon the streets and in the offices and enthusiastically discuss the important question. Some are in favor of building for sanitary sewers the present year while others take the ground that a thorough system should be built as soon as possible.

There is a conservative class who contend that a few mains should be constructed and from them branches should be built as demanded by the residents of the different districts. This latter theory is held by a number of the councilmen and it is probable that the plan will be adopted. During the municipal campaign the need of sewers was loudly proclaimed by both parties and the victorious party will no doubt be pledged to construct such as the people demand, and fulfill the campaign promises.

President Martin is known to be an advocate of a proper system of sewerage and there is no doubt that something towards that end will be commenced this year. The objection made to the project arises from the expense which will be added to the taxable property. It is contended on the other hand that no more large business blocks will be built on the business streets until the sewers are put in.

EX-PATROLMAN FREEBURG.

He Tells Why He Was Discharged From the Force.

Patrolman Clarence Freeburg, who was discharged by the council at its last meeting, has written a letter to The Herald giving the facts from his side, regarding the matter. He says that last Sunday he called on a saloonkeeper and requested him to keep his saloon quiet and peaceable. He told Patrolman Freeburg to keep away from his doors or he would have him arrested. "I don't want you to disturb my customers," he said, "because I have a permit from the president of the village and a good provision from the chief of police, so I don't have anything to do with you."

The patrolman called on the chief of police to find out what was to be done, as the sidewalk was blocked and singing was going on inside the saloon. Ladies and gentlemen had to walk into the middle of the street in order to pass. Thirty minutes later the chief of police came to the corner of Second street south and Eighth avenue west, one block from the saloon, but he was as far as he would come. The patrolman could get no satisfaction, so he applied to the council for advice as follows:

WEST DULUTH, Minn., March 27, 1893.—To the honorable council of West Duluth, president and gentlemen: I the undersigned do hereby ask for instructions regarding the privileges the saloonkeepers are supposed to have. First, have they a right to have their saloons open all day Sunday and all night? This is not the law as far as I understand, and as far as I am sworn by the council of the village of Duluth, I am sworn to want the council to decide tonight if they want to close the saloons on Sunday or not. If not, I ask for my discharge as I can not swear to a thing that I can not keep up to. Yours respectfully,

CLARENCE FREEBURG, Policeman.
The Herald: "This was left to the council to decide and they decided in the saloon keepers favor to keep the saloons open all night and Sunday and discharged Clarence Freeburg for his conduct. I wish all men with common sense would look into this and see if a stop cannot be put to having the saloons open Sundays and nights after 11 o'clock."

William Mars Leaving.

Ended His Own Life.
St. Louis, March 30.—At 6 o'clock this morning, Frederick Cunniff, an old man 73 years old, living at 224 South Second street, committed suicide by jumping from the roof of a three story dwelling. His neck was broken and his skull crushed. The man was desperate over continued illness and had made several attempts to end his life.

WHEAT DULL BUT FIRM.

Business Light Today But Prices Were Advancing.

The wheat market today was dull but steady and firm. Cash and March wheat were not in transactions but were nominally higher than yesterday. May opened at 75¢ advance but there was no trading after the first half hour. Nearly all the business of the session was confined to July. It opened unchanged from yesterday, 85¢, and closed at 85¢, advancing to 86¢. It closed off again to 85¢ and then moved steadily, finally advancing to 86¢ at which several sales were made, with 85¢ and 86¢ asked. There was some trading in truck wheat direct to the mills of uncleaned flour. Following were the closing prices:

No. 1 hard, cash, 85¢; March, 85¢; May, 85¢; July, 85¢; No. 1 northern, cash, 82¢; March, 82¢; May, 82¢; July, 82¢; No. 2 northern, cash, 81¢; March, 81¢; May, 81¢; July, 81¢; No. 3 northern, cash, 80¢; March, 80¢; May, 80¢; July, 80¢; No. 4 northern, cash, 79¢; March, 79¢; May, 79¢; July, 79¢; No. 5 northern, cash, 78¢; March, 78¢; May, 78¢; July, 78¢; No. 6 northern, cash, 77¢; March, 77¢; May, 77¢; The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., March 30.—Slight changes in conditions have taken place since yesterday. It is slightly warmer over the central portion of the country and colder over the western part of Minnesota and the country to the north of there.

In areas of high barometer, over the South Atlantic states, and a secondary high is central over Northern Minnesota, which is a low pressure line made its appearance over the far Northwest and is central this morning north of Montana.

Generally fair weather prevails in all sections, but no precipitation of consequence has fallen during the past twenty-four hours, what has fallen was about the lakes and in the extreme Northwest.

The temperature went slightly higher yesterday than on the day before, reaching 32 at the warmest. Wind, fair to fresh, light to strong, same as registered the night before.

DULUTH, March 30.—Continued fair, slight changes in temperature; light variable winds.

A Crusade Against Dirt.

There is no subject which so vitally interests the people of Duluth at the present time as does the sanitary condition of the city. The board of health has been just pointing with pride during the winter months to the city's low death rate. It is also true that the average death rate during the past year has been very satisfactory, comparing most favorably with the death rates in other cities. That this happy condition of affairs has existed is not due to any strenuous efforts which the city has made in the suppression of filth and dirt and the cleansing of the streets, alleys and backyards, but it is the result of the naturally healthy climate with which nature has endowed Duluth. It is not the intention to blame the board of health for any sins of omission, nor is it the desire of The Herald to hold it responsible for the present unsanitary condition of the city. The board has doubtless done the best it could, with the limited funds at its command, and although the board has frequently requested large appropriations by the council for its important work it has asked in vain. The aldermen probably felt that the city was apparently healthy and the health board's work could be deferred until the city treasury was in a better condition.

In the current number of the Scottish Review is an interesting array of statistics which illustrate the effect of sanitation in reducing the death rate in large cities. The data cover a period of seventeen years, during which time the most substantial work in the direction of sanitary reform has been accomplished. The diminution in the death rate for that time in the whole of England and Wales was from 21.2 to 17.9 per 1000 of the total population. The fall in twenty of the largest towns was from 24.4 to 19 per 1000. In London the reduction was from 22.5 to 17.4; in Liverpool from 25.9 to 21.6 and in Middlesbrough from 22.8 to 13.7. The mortality from all causes in 1881 fell somewhat below 10 per 1000.

The death rate is shown to be higher in towns than in rural districts, though the healthfulness in the centers of population is improving more rapidly than in the country. In towns the proportion of deaths is 20 to 1000 in a year, while it is 15 to 1000 in the rural districts. The effect of improved sanitation in the cities is overbalanced to a greater or less degree by the vicious excesses which are more liable to prevail in urban communities than among the rustic population.

These statistics show that increasing regard for cleanliness, which is so conspicuous in most European cities, has been largely instrumental in reducing the death rate and prolonging the limit of human longevity. The average period of human life has been raised from thirty-three to about forty years in less than a century by observance of the laws of health. The benefits which obtain in Europe as the result of the rigid sanitary regulations which are enforced by the municipal governments in that country can be secured here by similar regulations. Why should not Duluth try the experiment?

But first and foremost the city must be thoroughly cleaned. The streets and alleys and back yards are now in a disgracefully dirty condition. Filth of all kinds abounds everywhere. In many of the avenues are running streams of dirty water, and everywhere the mild weather is removing the snow from the heaps of dirt accumulated during the winter season. The hot sun pouring down upon the dirt heaps must breed disease, and the wind will carry the disease germs through the streets and into the homes of the people, unless prompt action be taken. There are numerous cases of grip at present. No one can tell what other diseases may follow. We do not want another typhoid epidemic.

Every possible precaution seems to be taken at points of danger in Europe to prevent the transmission of cholera to the United States, and these precautions will be duplicated at American ports. But despite all these precautions, such

as cholera has never met in all its journey around the world. It may in some manner secure an entrance into the country. How then can it be dealt with, if the cities be filled with reeking garbage and foul-smelling cesspools? It is absolutely necessary that every American city and town shall be thoroughly set in order to grapple with the terrible disease in its incipency, and Duluth must keep up with the procession.

The Herald, therefore, would urge upon the city authorities the desirability and the necessity of taking early action to put Duluth in a sanitary condition. The city treasury can well stand the expense. The lives of the citizens are worth infinitely more than a plethoric city treasury. The board of health or the board of public works should be provided with ample funds at once to clean the city from end to end. Every bit of garbage and filth of every description should be removed, and the back yards and the streets, avenues and alleys washed and scraped as clean as it is possible to make them.

In addition to the improvement that would thus be wrought in the city, it must be remembered that this is the World's fair year and there will be thousands of visitors from abroad. Many of them will come to Duluth, and the city should be in a respectable condition. There is nothing in a city that attracts the eye of a visitor as the cleanliness of its streets, and in this respect Duluth is now very deficient. Real estate prices are no evidence of civilization, neither are tall buildings, rising amid squalor and filth, indications of culture, but on the contrary civilization is gauged by the comforts and conveniences that surround the people of a community.

Taxing Railroad Lands.

A few days ago it was announced in a dispatch from Atkin that proceedings were to be taken in that county to collect back taxes for several years on lands owned by the St. Paul & Duluth railroad. A St. Paul dispatch now says that "the house committee on taxes and tax laws has found that all the records necessary to bring an action in the courts to have the St. Paul & Duluth lands placed on the tax list are now in the secretary of state's office, and that there will be no need of summoning witnesses and going through all the routine of an examination. If a case can be made out taxes can be collected for six years past, and this will be quite a plum to the people in the northernmost counties of the state."

The fact is that it is very likely the railway company will be compelled to pay taxes for the past twenty years. This discovery is the result of the defeat of the Markham bill by the railroad lobby, which is likely to prove a boomerang to one railway at least. It has been discovered that the act which granted to the St. Paul & Duluth company its second grant of lands contained this provision: "Provided, further, that said railroad lands shall be taxed as other lands in the state, in five years after the said company shall become entitled to said lands."

The first section of this act begins as follows: "That all the rights of way, privileges, lands and property granted to the state of Minnesota, by virtue of the act of congress of the United States, entitled 'An act making a grant of lands to the state of Minnesota to aid in the construction of the railroad from St. Paul to Lake Superior'—approved May 5, A. D. 1864, be and the same are hereby accepted, and the same are hereby granted, vested in, and transferred to the Lake Superior & Mississippi Railroad company, its successors and assigns."

The St. Paul & Duluth, which is successor to the Lake Superior & Mississippi, depends upon this act for much of its lands. The above act of Feb. 23, 1865, besides granting the lands, was enacted "to amend and continue the original charter." The provisions of the act affected both "the lands hereby and heretofore granted." The lands were to become taxable "in five years after the said company shall become entitled to said lands." The five years exemption expired nearly twenty years ago.

A second act was enacted March 3, 1865, in which no limit to the exemption was mentioned, and the lands have been taxed thus far under the provisions of this second act. But the second act, it is now contended, did not repeat the first; if it had, it would have repealed the grant provided therein. The company accepted the first act when it accepted the lands granted by it, and it cannot claim that this act is null and void, because it is the basis of the company's grant. The second act does not amend the first or the duration of the exemption, that point not being mentioned, and therefore the term of the exemption stands at five years.

There are many acres of land in St. Louis county, now untaxed, which would come under this law, and the back taxes for twenty years could not doubt be collected, as well on the lands still in the railroad company's possession as on those sold by it, the amount collectable on the latter being that due from the expiration of the five years' exemption to the date on which the lands were sold.

Many absurd stories are being published regarding the high rates to be charged for accommodations in Chicago this summer. An investigation has just shown that within a radius of one mile from the fair grounds there are 50,000 rooms for rent at very reasonable prices. Chicago will take care of the largest

crowd expected, and no one need pay more than a reasonable price for accommodation. Of course those who want handsome quarters at leading hotels must pay a good price.

The St. Cloud Journal-Press says: "Rev. E. P. Savage, superintendent of the Children's Aid society with headquarters at St. Paul, arrived in St. Cloud on Saturday with two twin boys each six years old and both orphans." It is pleasing to learn that both are twins and both are orphans, because it would have been inexplicable had the one had been an orphan while the other parents were living. It is likewise a singular coincidence that each is 6 years old. Perhaps the St. Cloud paper can explain how this happened.

The London News sensibly says that both parties to the Baring Sea arbitration will share in the glory of this victory for civilization and the cause of peace. As each of these great arbitrations offers its majestic spectacle to mankind, it loses a portion of that prestige which alone it lives, in defiance of reason, humanity and common sense. The South American countries appear to be sadly in need of this kind of common sense.

The railroads do not appear disposed to make very low rates to the World's fair, a reduction of only 20 per cent being now contemplated. Yet after their experience with the Centennial exhibition at Philadelphia in 1876, they should know better. A single fare for the round trip should be made from every point in the Union. It would prove profitable to the railroads.

Fifty-seven years ago two carpenters were hanged in Boston for setting fire to dwellings for the purpose of making work. They were the last ever hanged in Massachusetts for incendiarism, and in view of recent events in Boston it might be well to restore capital punishment for firebugs.

A human skull "as large as a bushel basket" is reported as having been found in Sicily. It is presumably the skull of one of the "boys" who had been "out" the night before.

The New York board of health announces that it is going to give the city an extra spring cleaning this year. Duluth must do the same.

The Women's board calls attention to the fact that its building at the World's fair is ready first. The ladies, as usual, are ahead.

Now for a thorough spring cleaning of the city! No halfway measures but a complete purification of all the unclean places.

The city authorities must awaken to the necessities of the hour and get Duluth in a clean and healthy condition.

Clean the streets and then keep them clean.

The garbage heaps must be eradicated.

Dennis's Story.

CAMDEN, N. J., March 30.—Hon. W. J. Thompson, proprietor of the Gloucester race track, was seen this morning and said that he had no knowledge of his son's runaway marriage in Kansas City to a Miss Jolley, of Brooklyn, reported in this morning's papers. He said that while the young man is in that country, the story of his marriage was a fake.

Probably a Hoax.

LIVERPOOL, March 30.—Agents of the White Star company regard as a hoax the message found in a bottle on the beach at Oceanview, Va., stating the destruction at sea of the White Star steamship Naronic. The officials state, as to the signature of "John Olesen, Captain," appended to the letter in the bottle, that there was no person named Olesen on the boat.

Democrats Made Happy.

WASHINGTON, March 30.—Fourth Assistant Postmaster General Maxwell appointed 141 fourth class postmasters, and of this number eighty-five were to fill vacancies caused by removals.

Bishop Kip Dying.

SAN FRANCISCO, March 30.—Rev. Bishop William Ingraham Kip, of the California Episcopal diocese, is dying at his home in this city. The physician attending entertains no hopes of the bishop's recovery. The bishop is 82 years of age.

QUITE AN EXPERIENCE

Tom Dickens Came Near Losing His Life at
Grand Rapids on Last Satur-
day.

Two Fellows Engaged in a Shooting Scrape
and a Flying Bullet Went Through
Tom's Coat.

Frank Bartley in Trying to Shoot a Vir-
ginian Puts a Bullet Through His
Own Hand.

Few people know that Tom Dickens,
the well-known Duluthian, came near
losing his life last Tuesday through a
shooting scrape in which he was not the
least bit concerned. It appears that two
men had an altercation and one of the
men commenced shooting at his
opponent but twice came fright-
fully near bringing down the popular
Tom, one of the shots passing through
and across the breast of his coat but not
striking the flesh.

Mr. Dickens was uninjured, but, as he
remarked, "every one of my hairs stood
straight up for a minute or two." The
fellow was disarmed and placed in jail at
Grand Rapids where he is serving a sen-
tence for assault.

HIS AIM WAS BAD.

Frank Bartley in Jail For Trying to Shoot a
Virginia Resident.

Frank Bartley was brought down from
Virginia last evening to serve out a ninety
days sentence for discharging firearms,
and, strange to say, he was the victim of
his own poor shooting. He was playing
cards in a saloon and one of his oppo-
nents cheated, and Bartley im-
mediately left the table with the
intention of going home and get-
ting his gun and returning to blow the
tops of the heads off of all people con-
cerned in the game.

When he returned to the saloon the
place was vacant with the exception of
Bartley, the participants had gone
elsewhere. Bartley started on the way
and found one of the men in another
saloon. He asked the man to take a
glass of beer and the man consented.

As he was drinking it Bartley re-
marked: "You—that is your last act
alive!" and pulled his gun. The man
seized the revolver which Bartley held
out to him and succeeded in firing
twice, one shot going through the
ceiling and the other through his left
hand. He was then disarmed, arrested
and sentenced as aforesaid.

BERDIE DENIES.

He Says the Town Funds Are All There and He
is Ready to Produce Them.

Robert F. Berdie, the treasurer of Mc-
Kinley, who was arrested night before
last gave bonds for his appearance yester-
day afternoon and was released. He
declares that the case will never come
to trial and says that it is a scheme to
"do him up." He says:

"I was elected treasurer of McKinley
last October without opposition. At the
town election recently E. Weismann was
elected but he has not yet filed his bond.
The town council met Monday evening
and he said his bonds would be given
Saturday. I was asked for a re-
port and read from my books the
record of all receipts and all orders paid.
There has never been an order presented
that has not been paid, and I stand ready
to turn the books and funds over to the
new treasurer as soon as he qualifies.
There is about \$800 in the treasury. My
bondsmen have never even intimated
that they considered themselves insec-
ure. On Tuesday when I was arrested
I was coming down to Duluth with H. H.
Simon, the man who made the complaint
against me. He never even intimated
that there was a warrant out for me, and
he knew perfectly well what I was com-
ing down to Duluth for and when I was
going back."

The Superior Election.

The Superior municipal campaign will
be fully as warm this spring as in pre-
vious years and is becoming rather per-
sonal. Charges of corruption are pro-
fusely made by all sides. W. E.
Hoelle has withdrawn as a candidate for
mayor, leaving Pattison and Kennedy
alone in the field.

Sinclair Today.

The following matters have been
placed on record with Clerk Sinclair
since yesterday noon:

A transcript of judgment from the
municipal court of Duluth in favor of the
Minneapolis Stock Yards & Packing
company and against A. P. Dodge, for
\$258.55.

The complaint and bond and affidavit
for attachment in First National Bank
& Co. vs. Dodge & Co. Suit is to en-
force payment of balance of \$1287.11, due
on goods and merchandise furnished.
Bonds and qualifications of E. S. Dodd
as justice of the peace of the village of
Meritt; James Vandelay as constable
in the same place; Geo. J. Grierson as
justice of the peace in the town of Her-
man, also A. O. Osby as justice of the
peace at Meritt.

bert and Laura Hilmar Larson.

THE LYNESSE CHILDREN.

They Have Been Provided With Good Homes
An Accident to the Boy.

J. S. Dover received word this morn-
ing from C. A. Merrill, superintendent
of the state school for dependent and
neglected children, that a good home
has been found for both of the Lynesse
children in whom considerable interest
was taken by a good many of Duluth's
philanthropic people. Jimmie Lynesse,
however, has not joined his sister in
their new home, owing to an injury to
his hand received while at play. The
accident necessitated the amputation of
the first finger at the first joint and the
middle finger at the third joint. He
will, however, have the use of his hand.

moved before his term expires or his resig-
nation is tendered, Mr. Nichols believes
and hopes that it will simply be for the
reason that he is not a Democrat.

A HITCH HAS ARISEN

New Board of Trade Building May Not be
Located on the Dr. Collins
Corner.

Some Restrictions Made By the Property
Owners Are Not Acceptable to
the Board.

Secretary Carlisle Asks the Immigrant In-
spector For His Resignation to Take
Effect Tomorrow.

There is a possibility, and even a
strong probability that the board of
trade building will not be located at the
corner of First street and Third avenue
west on the Dr. Collins property. A
serious hitch has arisen in the proceed-
ings and while it may be am-
icably adjusted there is pretty
good ground for believing that
it will not. Some restrictions have
been made by Dr. Collins and some of
the board of trade men are pretty warm
over the matter.

Chairman Spencer, of the building
committee said to a Herald reporter:
"Yes, there is a hitch in the proceedings
and it is quite probable that the whole
thing will fall through."

The members are very reticent as to
what the difficulty is but it is believed to
be over some of the incumbrances on
the property, in the way of assessments,
the board demanding it entirely
clear.

ASKED TO RESIGN.

Immigrant Inspector Windom Loses His
Official Head.

Secretary Carlisle has informed Immi-
grant Inspector E. H. Windom that his
resignation will be acceptable to take
effect March 31, tomorrow.

This act of the secretary of the treas-
ury is a stunner for some of the local
aspirants and they do not know
quite how to take it. D. H.
Costello has endorsements from
nearly all of the prominent Democrats
in the city, but has yet forwarded his
application. There seems to be a great
doubt as to whether the secretary wants
to abolish the office or whether he al-
ready has a man in view.

CANAL WANTED

Resolution in the Legislature In Favor of a Canal From the Mississippi River to Duluth.

The Object Is to Secure Coal at a Much Cheaper Price in the Twin Cities.

The Municipal Charter Bill Prepared by the Attorneys Introduced in the House This Morning.

Bill For a State Elevator of Large Capacity in Duluth Passed the Senate Committee.

ST. PAUL, March 31.—[Special to The Herald.]—A joint resolution was introduced in the house this morning by Hiller Horton which recited that the rate of transportation on coal per ton from Buffalo to St. Paul by railroad is \$4.28, and by water from Buffalo to Duluth only 30 cents, dockage at Duluth 50 cents and transportation from Duluth to St. Paul \$1.50. In view of these facts the resolution asks the senators and representatives in congress to secure an appropriation to survey for a canal between the head of Lake Superior and the Mississippi river for the purpose of ascertaining its practicability. The resolution states that the legislature of 1875 made an appropriation of \$500 for such survey, which was not sufficient for the purpose. The resolution passed under suspension of the rules.

Senator Leavitt moved that the chairman of the judiciary committee be instructed to draw a bill relating to the rate of those grossing bills to 5 cents per folio. The motion was passed.

Gen. Sanborn this morning introduced the general municipal charter bill in behalf of the committee on municipal corporations. This is the bill which has been prepared by a committee of attorneys from all the leading cities of the state. The bill was made a special order for Tuesday at 11 a. m.

The capital bill has been made a special order in the senate for Tuesday afternoon.

Senator Leavitt introduced a bill with the governor's consent for an act relating to publication of the state treasurer's reports and providing that it only be published in one newspaper at the state capital.

In the discussion on Senator Tawney's bill authorizing municipal corporations to issue bonds to aid in the construction of canals and improvement of waterways in a similar manner to the method now authorized in the construction of railroads, Senator Dunne said that the twenty-five years he had been urging the construction of a canal from Taylor's Falls to Duluth.

The river could readily be made navigable to Taylor's Falls and for about 100 miles north of that point the St. Croix river could be cleared of logs and rocks and made navigable for large-sized canal boats and this would leave a little more than fifty miles of canal to build over a swampy country, amply supplied with water on the water-shed.

The construction of such a work would unite the Mississippi valley system with the great lakes and create undisturbed water communication from the Gulf of Mexico by way of Duluth to the Atlantic ocean. Every portion of Minnesota would have a cheap outlet for its grain and meats to Chicago, Buffalo, New York and Europe. The Mississippi valley was the greatest body of arable land on the planet and it was simply impossible to anticipate its tremendous productive capacity.

He believed the state would yet take hold of this great work—a toll could be put on the freight that would pay the interest and principal of the bonds. It would simply be a loan of credit. It was in vain to look to congress for the railroad corporations fight any such progress. He did not advocate such a canal in any spirit of hostility to the railroads, but he thought the people ought to have the competition between these two modes of transportation. The bill passed with only two negative votes.

The senate in committee of the whole recommended the passage of the bill for a state elevator at Duluth, it being amended so as to make its capacity 1,500,000 bushels and to be ready for business in October, 1893. An appropriation of \$200,000 is made from the general fund to build the elevator. The appropriation is to be repaid by charging, on inspection, fees of 50 cents per 1000 bushels of wheat inspected and 25 cents for each car load of wheat weighed.

The board of railway and warehouse commissioners is to have charge, and must publish a weekly market report showing the prices in all leading wheat markets of the world and also freight rates for the leading grain markets of the world. The commissioners are to appoint a warehouseman and assistants, who shall not be members of any board of trade or association of like character. If the commissioners have reason to think that any person or combination of persons, is seeking to monopolize the elevator, they shall adopt rules to limit the amount of grain which any one person, combination or corporation may have in said elevator at any one time.

NO TROUBLE YET

The Situation at Antlers Today Remains Unchanged, Pending the Expected Arrival of Gov. Jones.

Both Sides Are Resting on Their Arms and the Indications Opposed to Immediate Trouble.

Considerable Feeling Against Indian Agent Bennett, Who Is Accused of Collusion With the Indians.

A Collision Between the Two Rival Factions of the Choctaw Nation Is Considered Imminent.

PARIS, Tex., March 31.—The situation at Antlers remains unchanged. Both sides are resting on their arms and waiting the arrival of Governor Jones. He was expected to arrive at 10 o'clock this morning, but for some unknown reason did not put in an appearance. There is nothing that he can reach Antlers on until 6:35 p. m.

Considerable feeling is being created against Indian agent, Bennett. He refuses to reply to telegrams and cannot be communicated with. Some people go so far in their criticism as to accuse him of being in collusion with the Indians.

There are near being a riot at the militia camp this morning. A deputy marshal seized a quantity of liquor that a militiaman was endeavoring to smuggle into camp and sell it on the ground. The militiaman called his comrades to his assistance, and matters looked serious for a while.

At 12 o'clock noon, the indications were that no trouble would occur today.

REMOVAL NOT DEMANDED

Maj. Baldwin Has Not Asked for Nichols and Frazer's Removal—Taylor and Ryan Recommended.

WASHINGTON, March 31.—[Special to The Herald.]—There is no truth in the report appearing in Minnesota papers today that Representative Baldwin has demanded the removal of Register Monroe Nichols and Receiver S. L. Frazer of the land office at Duluth.

Maj. Baldwin was seen in reference to this rumor late today, and while he would not discuss the report at any great length, he said that he had taken no action in this matter. "Yet," he said, "there is, of course, a possibility that something in the nature of charges may be filed against Nichols, at any rate, which will result in his removal before he has served out his full term. This possibly may be true in the case of Frazer."

Maj. Baldwin, however, has given no information on this point, and at the same time nothing whatever is known about any attempt for removal of either Nichols or Frazer.

Maj. Baldwin has been to the secretary of the interior, and has asked that he be removed from his position. He has also been to the secretary of the interior, and has asked that he be removed from his position. He has also been to the secretary of the interior, and has asked that he be removed from his position.

Editor Goodwyn published a card reflecting upon Jenkins, and the latter went to Goodwyn for retraction. Goodwyn refused to retract and both men pulled their pistols and exchanged shots.

Jenkins was struck by a bullet in the abdomen and will die. Goodwyn accidentally shot and killed the sheriff of Elmore county several months ago.

THE MONEY IS READY.

The British Pacific Railroad Scheme Floated in London.

VANCOUVER, B. C. March 31.—Frank Bakeman, the chief promoter of the British Pacific, lately known as the Canada Western, has announced in the Victoria Colonist that all of the financial arrangements for the construction of the British Pacific railway have been completed. The railway is to be built from Vancouver to the Pacific coast, and will be a great benefit to the province.

The financial company at London, which has been registered under the imperial companies at London, has a capital of \$5,000,000, the whole amount of which is to be paid in cash.

The purpose of this company is to finance the construction of the proposed railway. It is estimated that \$25,000,000 will be required, which will be furnished by syndicates.

Mails to the Orient.

WASHINGTON, March 31.—In order to expedite the delivery of the mails to and from Washington, Oregon, Idaho, Montana and North Dakota, and Shanghai and Hong Kong, an order has been issued at the postoffice department directing the postmaster at Tacoma to exchange mails with the offices of Yokohama, Japan, and Shanghai and Hong Kong, China, by means of steamers plying between Tacoma and Yokohama and Hong Kong. The first dispatch from Tacoma will occur April 18, next.

The Cherokee Tribes.

TALLAHASSEE, I. T., March 31.—The preliminary steps were taken yesterday for bringing about a grand council of the five civilized tribes. A concurrent resolution passed by branches of the council yesterday afternoon, appointing a committee of five to confer with the principal chiefs and legal counsel and draw up a bill relinquishing the Cherokee title to the outlet. It will require some little time to properly draw up the bill.

Double Color Printing.

BALTIMORE, March 31.—F. N. Hoopes has invented a rotary printing press, which prints two colors at once from Princeton curved stereotyped plates. The press is the first in which the double color printing has been accomplished by the rotary principle, and it can make a speed, as shown at a trial yesterday, of 250 impressions of 35 lines in an hour. It is stated that the machine can print anything from the smallest label to a four page.

WILL NOT BE EXHIBITED.

An Interesting Feature of the Government Display Dropped.

BALTIMORE, March 31.—The Baltimore Sun's Washington correspondent telegraphs as follows: The most historical and one of the most important features of the government display at the World's fair, the exhibition of the declaration of independence and constitution has been abandoned owing to protests from historical societies throughout the country and persons interested in preserving these valuable documents from injury.

When it was proposed sending the documents to the fair some months ago, it was thought by many wise, but at last the orders were given that they were to go and the most elaborate preparations were made to secure safe transportation and protect them while at the fair. The fact is, they are in more danger from interference from outsiders now than they would ever be in Chicago or en route, as no precautions are taken that would prevent any one from walking off with them at any time during office hours.

From the opening hour in the morning until the close of official business, the declaration is exhibited in a wooden case with a plain glass over it, and the only protection afforded is two wooden mahogany doors swinging open the greater part of the time and upon which is a card informing persons that all any one has to do is to turn the key, open the door and look at the faded parchment.

The constitution is kept in another part of the room and is equally unprotected. There is nothing to prevent a person from carrying both cases off at once, or taking the documents out, concealing them under a good sized overcoat and quietly walking out of the building.

Some weeks ago protests from the Society of the Revolution and Sons of the American Revolution, other historical societies and prominent persons began to come into the department against the removal of the papers on account of the danger that might follow. Mr. Curtis' attention was brought to the matter and he has written a letter to the secretary of state that the scheme had better be abandoned, and it is practically settled that the documents will remain in Washington.

BLOODSHED IMMINENT.

A Collision Between the Rival Choctaw Factions Certain.

WASHINGTON, March 31.—Late last night Secretary Hoke Smith received a telegram from Commissioner Gibbons, at Antlers, I. T., in which he stated that unless steps are taken immediately to prevent a collision between the rival factions of the Choctaw nation, bloodshed is imminent.

The communication with the secretary of war resulted that the officer in command of the United States troops nearest the scene of the threatened trouble has been instructed to promptly inform himself of the situation and take such action as it seems to require.

Agent Bennett, at Muskogee, has also been directed to proceed to the locality and report upon the situation.

THE ASHLAND MURDER.

The "New Orleans Kid" Had Recently Arrived From Duluth.

ASHLAND, Wis., March 31.—[Special to The Herald.]—The examination of Gambler "Prindle," the "New Orleans Kid," on the charge of murdering Police Officer Ed Hedican was held yesterday afternoon and the prisoner was held to await the action of a grand jury. On the way to the court, house the prisoner escaped from the officer in charge and ran over two blocks before being recaptured.

It developed at the hearing that when the revolver which caused Hedican's death was discharged, it was jointly held by prisoner and one of the police men. This circumstance will probably do away with any chance of his conviction for a greater crime than manslaughter.

It also was brought out on examination that he had arrived from Duluth only two or three days ago.

SUFFERINGS OF A CREW.

The Wreck of a Tug and the Intense Suffering of the Crew.

ATLANTA, Ga., March 31.—The tug Marcott, Capt. Potter commanding, westward after noon in a heavy storm and her crew were obliged to leap into the waves and swim for the shore. All succeeded in reaching the beach after a terrible struggle, except Steward Bowen, who was drowned.

Fireman Bowen was unconscious when he reached the beach and his companions, thinking he was dead, left him lying there and started to walk to the Cumberland hotel, ten miles away. The weather was cold and the suffering of the men was intense.

Capt. Potter fainted after walking four miles, but was carried the remaining six miles on the shoulders of his nearly exhausted companions. He and Pilot Fader fell in a fit on their reaching the hotel. Fader was the first to leap from the tug and swim ashore. His heroism in leaping back into the angry waves and helping others to reach the beach, saved the lives of several.

Yesterday a party going to the beach to remove the remains of Bowen and Bowen to the hotel met Bowen walking toward the hotel. He had regained consciousness after lying on the beach twenty-four hours in the storm and bitter cold. Bowen was dead.

To Marry a Japanese.

NEW YORK, March 31.—A special to The World from San Francisco says: The White House of the United States may admit that the report of his engagement to Miss A. Fong, of Honolulu is correct. As to whether the wedding is to take place, the prospective bridegroom says he cannot say. Naval officers must get married when they can.

A New General Manager.

GALVESTON, Tex., March 31.—On April 17, C. O. Wheeler, general manager of the Santa Fe road, retired and is to take place, the prospective bridegroom says he cannot say. Naval officers must get married when they can.

Returning From Mexico.

HOT SPRINGS, Ark., March 31.—The Mecca Temple Shriners of New York city reached here this morning on their return from an excursion to the City of Mexico. The Shriners will stay here until Sunday night and then start for home.

GOOD TO MINNESOTA.

President Cleveland Believes That the Democrats Can Carry This State in Future Political Campaigns.

Consequently He Will Direct His Efforts Towards Strengthening the Party by Awarding Fat Plums.

Host of Democrats in the Sixth District Recommended by Maj. Baldwin for the Postoffice.

WASHINGTON, March 31.—[Special to The Herald.]—It has been intimated by Minnesota Democrats in Washington that President Cleveland has recently expressed the opinion that Minnesota could be carried against the Republicans in future political campaigns. It seems that the president has paid very close attention to Minnesota, not only during the past four years, but was in fairly close touch with the sentiment there during his first term as president.

In discussing the situation in Minnesota with some of the leading Democratic politicians from that state recently, the president made many inquiries regarding the sentiment of the people on the tariff. The responses he received from the Democratic leaders seem to coincide with his own belief that the people of Minnesota, or the majority of them, are at any rate, very favorable to a reduction in the tariff from the present McKinley schedules, and that their ideas were nearly the same as his own regarding tariff reform.

The president, however, discovered that while this was true in nearly every section of Minnesota, in Duluth and the immediate adjacent territory the people were disposed to favor protection and would probably oppose any reduction in the tariff, and in fact, would vote against any party that would attempt to lower the schedules in the tariff law very radically from what they are at the present time.

In a general way, however, the president believes that the district which Maj. Baldwin represents will hereafter without doubt, remain Democratic. He is sure that the people in Maj. Baldwin's district are not in favor of free coinage of silver, and is also satisfied that the people at large in Minnesota are for sound money first, last and all the time. It is probable that the president has an ambition to direct the affairs of the Government so successfully during his present term that Minnesota will come into line as a Democratic state, the same as Wisconsin has within the last few years.

In order to keep the Democrats in Minnesota in an enviable frame of mind, it is extremely probable that the president will give that state some excellent offices during his present term. It is his aim to strengthen his party and if judicious selections are made in Minnesota as he desires, it is not impossible that in the next presidential election, if the Democrats have the right kind of timber on the presidential ticket, Minnesota, strongly Republican as it was, may change sufficiently to give its electoral vote to some other than the Republican ticket.

PROBABLE POSTMASTERS.

List of the Democrats Recommended for the Sixth District.

A Washington special to the Pioneer Press says that Maj. Baldwin has recommended the following Democrats for postmasters in the Sixth district:

Ed Caplis of West Duluth; H. Filsam of St. Augusta, Stearns county; M. O. Laughlin of Maple Lake, Wright county; Charles Schiltz of Rush City, Chisago county; M. Nugent of Buffalo, Wright county; C. H. Cullen of Waverly, Wright county; J. F. O'Brien of Cloquet, Carlton county; J. J. Tucker of Ripley, Crow Wing county; Thomas Schultz of Albany, Stearns county; W. B. Woodward of Two Harbors, W. N. A. Lieberg of New Duluth; T. H. Cunningham of Sturgeon Lake, Pine county; S. C. Lee of Long Prairie, Todd county.

America's Great Danger

AN ENGLISH COMMENTARY.

Said an eminent English scientist recently: "The danger that confronts the great American people to-day is not the possible election of a wrong financial policy for the nation, or the spread of socialism, or the increase of corruption among public men. All these are bad enough, to be sure, but they are as nothing compared to the terrible national disease—I had almost said national crime—of overwork. The mad rush for wealth is set at a killing pace, and thousands fall by the way every year."

You are likely to be one of the victims!

How do we know? Because it is the exception to find a man or woman of adult age in perfect health. Nervous Disorders are spreading with fearful rapidity. Among the symptoms are—blackness, Biliousness, Cold Hands and Feet, Dizziness, Hot Flashes, Fluttering Sensation, Fainting, Headache, Hysteria, Irritability of the Heart, Melancholy, Failing Memory, Palpitation, Rheumatism, Short Breath, Sleeplessness, Nervous Dyspepsia, Sexual Debility, Etc., etc.

Rev. C. A. CARROLL, pastor First Baptist Church, Yellow Springs, O., writes as follows: "I have used Dr. Miles' Restorative Nerve for the past six months. I find it acts like a charm on the whole nervous system. I have not found it equal in giving immediate relief. Dr. Miles' Little Nerve and Liver Pills only need a trial and they will recommend themselves to be the best pills in the market."

"For five years I have suffered from Nervous Prostration. I was unable to work or sleep. The first dose of Dr. Miles' Restorative Nerve gave me relief, and one thousand dollars would not cover the good it has done me."—JOHN MINGIE, Youngstown, Ohio.

Dr. Miles' Restorative Nerve is unequalled in curing Nervous Diseases. It contains no opiates or other dangerous drugs, and on a positive guarantee by all druggists, or Dr. Miles Medical Co., Elkhart, Ind.

THE GOVERNORS' MEETING.

The Convention to be Held at Richmond Next Month.

RICHMOND, Va., March 31.—Governor McKinney has written the following letter to the governor of Arkansas, in reference to the meeting of Southern governors in this city on April 12:

"The time for the meeting of our convention is rapidly approaching. I am sorry so many governors will not be able to attend and hope that there will be no question as to your being present. I write simply to say that the subject of immigration used to concern us here very much, but we have been so unsuccessful in procuring it that we have abandoned all efforts to secure it. We are, however, always ready to welcome those who come."

"On the subject of immigration, I have no opinion to express and write to say to you that we expect you to prepare in writing such a scheme as you desire the convention to adopt. I fear that, unless this is done, we will have to depend upon hastily prepared papers, which, I think, are always necessarily barren of practical results, hence I write in advance that there may be no such misadventure and have to ask that you will prepare such a paper as will lead to securing the grand results for which we all so zealously hope."

CHINESE GIVING TROUBLE.

A Clever Trick by Which Laborers Become Merchants.

WASHINGTON, March 31.—The enforcement of the Chinese exclusion act causes the treasury officials much trouble, as the celestial proves himself to be a very flip person. He is now engaged in turning himself into a merchant from a laborer. To such an extent is this the case that Assistant Secretary Spaulding has written the following letter to collectors on the Pacific coast to stop the fraud. He says:

"The department is informed that a practice obtains among Chinese laborers in this country who may accumulate small sums of money, of entrusting such money to merchants, which is treated as a part of the capital of the business. Chinese laborers who have made such disposition of their savings, although not actively engaged in mercantile business, have claimed to be merchants and thereby entitled to leave the country and to return to the United States."

"The department desires you to closely scrutinize the certificates which may be presented at your port of retelling Chinese, and to require evidence of the standing of holders as bona fide merchants actively engaged in business. In no case should Chinese be permitted to enter as merchants unless their right to the privilege is established, and where it appears that the practice here referred to is attempted, the certificates presented should be ignored, the holders arrested and the case reported to the department."

SAGINAW PEOPLE STIRRED.

A Religious Warfare is a Fruitful Source of Sensation.

SAGINAW, Mich., March 31.—Agitation brought on by the rival speculations of A. P. A. and Roman Catholic advocates is the absorbing topic of conversation here. The particulars of the visit of Rev. Dr. Dawe, of this city, and Rev. Dr. Kilpatrick, of Bay City, to the Roman Catholic churches in quest of arms are well known now.

The two ministers called at both St. Mary's and the Sacred Heart churches and requested to be shown through the buildings—basements, attics and all. Dr. Dawe, who is the Roman Catholic, was armed and used the basements of the churches for drill rooms, and that the C. M. B. A. was nothing but a military organization.

The priests at both churches received them kindly and allowed them to search every portion of the churches. The Bay City pastor even searched the secret trunks and a pile of cordwood for weapons. "We admit all of the statements as to our visit," said Mr. Dawe, "but our motive was totally the fears of our people; that is, that was Dr. Kilpatrick's motive. I simply went as a friend. I am an A. P. A. and I tried to point out to the Catholics the need to be more reasonable. I believe in organizing to fight the political power of the Catholic church, but the men who talk of religious wars are themselves bad and unpatriotic citizens, and I would sooner trust myself with the Catholics than with them."

A Pleasant Assignment.

WASHINGTON, March 31.—At the request of the state department Secretary Herbert has designated Commander F. W. Jenkins, U. S. A., stationed at the Washington navy yard, to act as escort to the duke of Veragua and other Spanish parties who are coming to the World's Fair. Jenkins will take them to the naval review, Niagara Falls and other places of interest and then to Chicago.

The North Galveston Brick Plant.

The kiln of red pressed brick that was opened a few days ago at North Galveston, Tex., revealed a quality of material which was pronounced by experts as fully equal in density, durability and color to the best St. Louis pressed brick. The North Galveston Brick company is a pretty big concern. The machines, buildings, yards and general capacity equals some of the best plants in the country. More factories being built, a steady increase in population and an abundant influx of capital seems to be the present record of this thriving young city. A CUSTOMS SCANDAL.

High Officials of the Treasury Department on Puget Sound Implicated in Smuggling of Opium.

The Seizure of Chinamen on the Haytian Republic Led to the Frauds Being Discovered.

Those Who Participated Were Not Square Among Themselves And Some Have Turned State's Evidence.

TACOMA, Wash., March 31.—A forerunner of the biggest scandal in the customs service that ever happened on Puget sound was the seizure of the Chinamen on the Haytian Republic in Portland a few days ago. This seizure of Chinamen for being illegally in the country was an important matter in itself, especially as the removal of two local customs inspectors followed.

This, however, is but the beginning of the end. Within a few days it will be shown that the owners of this steamer were in collusion with high officials of the treasury department in carrying on a gigantic smuggling business. The last time the Haytian Republic was in Vancouver, she was fined \$500 for taking opium out of Canada without its having been entered on her invoice.

Upon the steamer's arrival on this side of the line there is no record on even a pound of the opium secured paid duty. The last time that the Haytian Republic was in Victoria, she was fined for \$15,000 which was stated in the records of prepared opium sold to the owners of the vessel and which had not been paid for.

The steamer was released on bonds being given and she started on her trip to the Chinamen who were arrested. The above facts are on record in Canadian courts and can easily be substantiated. Ten tons of prepared opium is the amount that the steamer alone has smuggled within the last few months under the practical consent of high customs house officials.

Now that those in office expect to be out of a job, they have overdone what in a quiet way has been going on regularly. They have not been square among themselves and several are ready to turn state's evidence.

CANADIAN PACIFIC RIVAL.

The Northern Pacific to Have Direct Eastern Connection Through Canada.

QUEBEC, March 31.—The Northern Pacific company is soon to have a direct eastern connection with the seaboard, running entirely through Canadian territory from Harry Sound on Georgian bay to Quebec, a distance of 550 miles.

The entire road, which will be for traffic next year, will prove an important rival to the Canadian Pacific railroad, at least so far as the movement of the grain from the Canadian Northwest is concerned. Between Ottawa and Parry Sound it also traverses a new and richly timbered pine region.

TWO PEOPLE DROWNED.

A Canal Boat Sunk by Another Crashing Into It.

NEW YORK, March 31.—The canal boat Edward Hayes, lying at the foot of Thirty-seventh street, East river, this city, was sunk yesterday morning. David Williams, 50 years old, a friend of Capt. David Canaan and Mabel Carman, the three months old daughter of the captain, were drowned.

The boat sank in a few seconds, and the captain and his wife had to be fished out of the water. The accident was caused by the crashing into the Edward Hayes of another canal boat which was moored at the same dock.

NO ALARM IS FELT.

The Appearance of Cholera in Russia Causes No Fear Here.

WASHINGTON, March 31.—The cablegrams announcing cholera in Russia do not create any alarm in official circles here. No official confirmation of the news has been received, but the United States government is prepared for any ordinary emergency that may arise.

It already has agents at the principal ports of Europe whence emigrants depart for the United States. Marine hospital doctors are at all the principal quarantine stations and besides all this the local authorities are cordially co-operating with the enforcement of inspection and quarantine regulations, both on the frontier and seaboard.

THE DELAMATER ASSETS.

They are Being Distributed Among the Creditors.

MEADVILLE, Pa., March 31.—The assignments of Delamater & Co. began yesterday paying creditors of that firm and of individual members thereof, the auditor's report making distribution, having been confirmed by the court and no exceptions taken.

There is \$100,797.73 in all for distribution. The general creditors of Delamater & Co. get but 2 1/2 to 5 cents on the dollar. The lien or judgment creditors of G. W. Delamater get 1 1/2 mills on the dollar. The unsecured creditors of G. W. Delamater get 1 1/2 to 7 1/2 mills on the dollar and those of T. A. Delamater get 2 1/2 to 8 mills on the dollar. Crawford county gets \$1,007.03 on its claim of \$18,000 and the state gets \$78,220 on its deposit of \$14,000. The latter sum, however, goes to the bondsmen of the state treasurer, who made good the loss to the state when it occurred.

GERMANS ARE EXPELLED.

French Charge Them With Supplying Arms to Dahomeans.

PARIS, March 31.—La Politique Coloniale publishes a series of decrees issued by Gen. Dodois, commander of the French forces in Dahomey. These decrees order the closing of a warehouse at Whydip, the Dahomeyans' port, belonging to the firm of Volber & Brohm, of Hamburg, Germany, on the ground that Volber & Brohm had been selling arms and ammunition to ex-king Balamina to enable him to carry on war against the French.

The published decrees also order the expulsion from Dahomey of all Germans named Witt, Richter, Buss and Barth for furnishing six hundred repeating rifles and 20,000 cartridges to Behazin.

The charge that German traders were supplying the hostile Dahomeyans with arms and ammunition to fight the French has been frequently and openly made, and it appears from these decrees that Gen. Dodois obtained proof to that effect.

WILL SMASH THE SLATES.

President Cleveland Interfering With the Congressmen's Plans.

WASHINGTON, March 31.—Mr. Cleveland gave out some bad news for congressmen and their favorite constituents yesterday, if report be true. A member of the house is authority for the statement that the president will not allow congressional delegations to apportion the federal offices in their respective states.

The congressmen who is authority for the report that the states would not stand in their entirety asked Mr. Cleveland what he proposed to do with the prepared states.

"I will smash them," is attributed to the president. Much pressure is brought to bear on Mr. Cleveland to have him select a commissioner of pensions from a state east of the Alleghenies. Mr. Cleveland has given no sign of his selection, if he has made initial steps to that effect, the new commissioner will be a young man of known ability.

A Sugar Commune.

HALIFAX, March 31.—The legislative committee had a hearing yesterday on the bill to combine all the sugar refineries of the Maritime provinces. Many Liberals, who have all along been denouncing in the most vigorous language combiners, are strangely enough supporting this measure, but Hon. Alfred G. Jones, the old Liberal war horse, came to the front and re-asserted his leadership of the Liberal party by a scathing denunciation of the measure.

Jackson Not Removed.

WASHINGTON, March 31.—It is authoritatively learned at the department of justice that Special Counsel H. W. Jackson, employed in the Gate City National bank case of Atlanta, Ga., has not been removed, but any further action on his part in the case has been suspended until the attorney general and Secretary Carlisle agree upon a course to be pursued.

Three For One Place.

WASHINGTON, March 31.—Three applications have been filed in the department of agriculture for the assistant secretary of agriculture for the year 1893. They are Dr. J. A. Meyer, of Kansas, ex-Governor George Glick, of Kansas, and J. H. Beaman, of Mississippi.

Deacon in Boston.

BOSTON, March 31.—E. Parker Deacon registered at the Parker house last night from New York. He is accompanied by three daughters and their maid. Mr. Deacon comes on private business and will look over the old Deacon family home in Washington street, which, since the Paris tragedy, has been an object of special interest.

Iron Workers Strike.

ANDERSON, Ind., March 31.—The employees of the Iron and Steel company went out on a strike last night at 6 o'clock. The grievances have not been made public. About 150 men are out. The strike is ordered by the Amalgamated Association of Iron and Steel workers. No serious trouble is feared.

Confessed a Murder.

CAMDEN, N. J., March 31.—John Hill, sentenced to be hanged April 4, has confessed to the murder of Joseph Dabson. He denies his first story that he was hired by Reed and Derrickson to commit the crime.

Two Pardons Granted.

HARRISBURG, Pa., March 31.—The board of pardons has recommended pardons for Buzard, the notorious Welsh mountain outlaw and James S. Dungan, the wrecker of the Bank of America, Philadelphia.

THE PASTOR WAS MAD.

Rev. G. A. Brandt of the West Duluth Presbyterian Church Asked to Resign by the Trustees.

He Thereupon Turned Upon the Officers and Gave Them a Decidedly Warm Roasting.

The Congregation Voted to Retain the Pastor—He Now Says He Will Resign.

The annual congregational meeting of the Presbyterian church was held last evening, and for a mid-week service it proved to be the most interesting one ever held by the congregation. There was not much waiting by one brother for another, but everybody seemed willing to speak, from the bareheaded youth with the staid and dignified deacon's hair to the full of good looks.

There has been brewing for some time among the members of the fold a little storm, which reached its culmination last evening and broke in sudden and resolute fury. The church has not prospered in great measure under the pastorate of Rev. G. A. Brandt, and the trustees and elders came to the conclusion that they would request the pastor to hand in his resignation to the Presbytery.

A letter to this effect was presented to the reverend gentleman last evening, which so unexpectedly wrought up his righteous indignation that he turned the vials of his wrath upon the church officers with powerful effect. The investment was a regular Sodom and Gomorrah fusillade and left the air full of sulphurous vapors at its close. The preacher then retired from the room and the question was put to a vote of the congregation. The ballot sustained the pastor by a vote of 25 to 10.

A committee was appointed to wait on him and report the outcome of the vote. The result did not seem to satisfy him, however, and he stated that he would tender his resignation in the near future. F. M. Weir was re-elected elder and X. M. Little was added to the number of trustees.

West Duluth Affairs.

W. H. Short, ex-chief of the fire department, has gone to Virginia to accept a position as pharmacist.

Mrs. E. Filtrault returned last evening from a visit at Fairbault, Minn.

Born, to Mr. and Mrs. G. J. Eskew yesterday, a son.

Mr. and Mrs. P. McDonald returned last evening from New Orleans, accompanied by Miss Annie McDonald.

F. M. Prescott, of Ironwood, is in the city.

T. Prescott is now doing reportorial work on the Commonwealth.

John Brown, an employee of Mitchell & McClure, will move his family here to live.

Invitations are out for the machinists' ball to take place on April 4.

The L. O. G. T. gave a very enjoyable festival Wednesday evening in the city hall. There were about 200 present and speeches were made by Mrs. Smith, Mr. A. C. Anderson and others and a general good time resulted.

RECIPROCITY CONVENTION.

It will be held in St. Paul on June 5 and 6.

St. Paul, March 31.—S. A. Thompson, secretary of the chamber of commerce of Duluth, is in the city and was entertained at dinner today at the Commercial club by Secretary J. H. Beck of the Duluth club.

The intention of those present at the informal meeting today to take up the preparations for the convention at once and make it a gathering of national interest. The commercial bodies from St. Paul to the Pacific coast will be asked to send delegates, and the Canadian North-west has already signified its intention of sending a larger delegation than was at the Grand Forks convention.

Prominent speakers from Eastern Ontario have been invited, and some of them will undoubtedly respond. J. J. Hill will speak on the subject of "Railroad Transportation." The new auditorium will be used for the evening meetings, and the speaking will be open to the public.

MANY MILLS ON WHEELS.

Two Bicyclists Complete a Three Years' Tour of the World.

St. Louis, March 31.—This morning Thomas G. Allen, of Fergusson, Mo., and Will L. Schiebeler, of Altona, Ill., rolled into St. Louis on their bicycles, having completed a tour of the world in three years.

Both young men graduated from Washington university in 1890 and undertook the trip to improve their education. In their tour they crossed the Chinese empire from East to West, a distance of 32,000 miles, and claim to be the only white men who have accomplished this feat.

Members of the St. Louis cycling club met the tourists outside the city and escorted them to the club house, where they were given an enthusiastic reception.

An Oklahoma Defaulter.

OKLAHOMA CITY, O. T., March 31.—W. T. Bradford, clerk of Oklahoma

county, was arrested today for appropriating \$5000 belonging to the county. His bail is fixed at \$15,000.

HE PLAYED THE RACES.

A Young Man Jailed in New York for Forgery.

New York, March 31.—William B. Vandye, 26 years old, a native of Cincinnati, is locked up at police headquarters for the forgery of his employer's name to a \$10,000 check which he had cashed for him and then lost the money upon the houses.

Vandye was remained in the Tombs police court until tomorrow, when a complaint will be made out against him. Vandye came to New York last year from Cincinnati, where he had been employed with the Bradford Pipe and Foundry company, to enter the office of their Eastern agent.

About May 10 he collected a bill of \$1000 from Crook & Co. and received a check for that amount payable to the Pipe and Foundry company. This check, it is claimed, Vandye forged the endorsement to.

GUILTY OF MANSLAUGHTER.

A Female Doctor Convicted of Causing a Girl's Death.

PORTLAND, Ore., March 31.—Mrs. Dr. Tom Van, who was indicted some time ago for manslaughter in having caused the death of Miss Helen Wilson, a handsome young girl, whose parents are well known and highly respectable residents of the east side of the city, was found guilty by a jury last night, after several hours deliberation.

Mrs. Van made a strong effort to show that the crime was committed by Charles A. Bowker, the girl's alleged seducer, but in doing so failed to exonerate herself. Bowker will be tried Friday.

RIVERS ON A RAMPAGE.

All West Bound Trains Are Now Stopped at Mandan.

St. Paul, March 31.—A special from Mandan, N. D., to the Dispatch says: There is so much water in the Heart river that railroad business is suspended on the east end of the Missouri division this morning.

The bridge at the sixth crossing of the Heart, just west of Mandan, has been moved from its moorings, and all west bound trains are stopped at Mandan.

The Missouri is still solid and the Heart in the Heart is gradually getting away, but it has raised some five feet in the night. So far there is no danger here.

MURDER IN TENNESSEE.

An Ex-Convict Skipped With a Woman and Was Shot Dead.

JERICHO, Tenn., March 31.—For some time past, Jim Bailey, living at Woodridge mines, has been jealous of Rock Gorman, an ex-convict. Yesterday evening Bailey's wife, after taking all his money, skipped with Gorman, and went over into a mine in Kentucky.

Bailey, learning that his wife had gone with Gorman, started after them. Finding the pair at a house in the country, Bailey called Gorman to the door and killed him.

A Peculiar Story.

INDIANAPOLIS, March 31.—Mrs. Edith Hammel Bright is under police protection here. She claims to be the wife of a wealthy merchant of Philadelphia, and to have been spirited and forced to come here and desert her family by Charles Marks. She was taken to the city hall yesterday and committed to the city jail.

Found Not Guilty.

PITTSBURGH, March 31.—After being out almost forty-eight hours the jury in the case against William Rogers, aged 17 years, charged with killing his brother-in-law James Young, came into court this morning and announced a verdict which found the defendant not guilty. The jury agreed on its verdict after thirty-one ballots had been taken.

Suicide in Pennsylvania.

SUBURBAN, Pa., March 31.—Peter Bloom, aged 22, who made a fortune in the Bradford oil fields during the oil excitement, committed suicide yesterday by shooting. Bloom was injured in the head several months ago and has since been subjected to fits of insanity.

No Strike Occurred.

PEORIA, Ill., March 31.—The reported strike in the Rock Island yards here this morning did not materialize. Several employees of the road were discharged for drunkenness and their places were filled with others.

New Lease of Life.

SING SING, N. Y., March 31.—Dennis Geoghegan, the Brooklyn wife murderer, who was to be executed here on April 10, was served with a stay last evening. He will have to be taken to New York for resentence.

Fire in Philadelphia.

PHILADELPHIA, Pa., March 31.—The five-story building, No. 120 to 122 north Front street, owned and occupied by the Weikel and Smith Spice company were partially destroyed by fire this morning. The night watchman, John Trip, was severely burned. Loss about \$117,000.

More Bodies Found.

HIGHLAND LIGHT, Mass., March 31.—Three more bodies from the dories of the fishing schooner Ada K. Diamond, which went adrift, were picked up on the beach at Nanset last night.

Another Lucky Man.

WASHINGTON, D. C., March 31.—D. M. Hall, of Maine, has been appointed secretary clerk in the department of agriculture, vice Henry Phelps, resigned.

Mrs. Mackenzie Dead.

TORONTO, Ont., March 31.—Mrs. Mackenzie, widow of the Premier, Alexander Mackenzie, died this morning.

New York Collectors.

WASHINGTON, D. C., March 31.—A friend of President Cleveland's, a friend of the name of Hans S. Beattie, of New York, for the position of collector of customs for the port of New York.

THEY CAUGHT ONE MOUSE ANYWAY.

One Trap Which an Expert Did Not Have to Buy.

"Did you ever buy a mousetrap?" persistently inquired a man on a train the other morning of the friend who sat next to him.

"I never did," said the other, looking up from his newspaper in some surprise. "Did you?"

"I have indeed. I am a mousetrap expert. You see the mice in our flat have been pretty bad. They grow so tame that I've seen them run across the parlor when three or four people were in the room, and at night the nibbling and pattering became so loud and constant that we could scarcely sleep. We kept a pile of slippers and shoes by the side of the bed, and while the ammunition held out there was a constant fusillade. About two weeks ago I grew sick of 'mouse' mouse' as the mending domestic topic that I said to my wife: 'See here, this mouse business is getting to be a little too much for me. I came home that evening with one of those round, red snap traps, and on the way up from the elevated station I invested in a big slice of fine fresh cheese.

"Well, what that trap for four nights and caught not one mouse. I thought perhaps it worked hard, so I oiled up the wire. No success. I then bought a square trap with two holes and another with four, thus giving us a total of 11 mice capacity, but all in vain. The next day I went over in Vesey street and looked into the mousetrap business.

"Can you give me any points on mousetraps?" I said to the proprietor of a store over there. "I know a thing or two about snap traps, but I am looking for a trap that will appeal to an educated, intelligent mouse."

"The dealer looked a little surprised. "Have you children?" he said. I admitted a little girl.

"Then here," he said, is the squirrel cage trap. It always pleases the children. The mouse goes in here, the trap closes automatically, and he is caught. He then runs out into this wheel, and by running turns it. It is a very amusing device. I said we were not looking for amusement, but we would like to catch a mouse or two, so I asked that trap to the collection and also another with two wings, which were open when the trap was set, but clapped together by monkeying with the bait.

"I now had five traps, and that evening, just before retiring, I smoked up a big piece of cheese, baited every trap and stood them around the corners of the room in an artless way, which I felt sure would appeal to the class of mice we were catering to. About 8 o'clock in the morning I awoke feeling very faint. We always keep a cracker or two in our bedroom, and I determined to get up quickly and obtain one. I forgot that my wife was sitting up in a cold perspiration.

"William," she whispered, is the house rat?"

"Worse than that."

"Heavens and earth," she said, getting ready to scream.

"Keep quiet," I snarled. "My big toe is caught in the new wing trap."

"When she calmed down, she kindly told me that my language had revealed depths of depravity in my nature that I never dreamed of. I finally separated that mousetrap from my person and crept back to bed, smelling like a Welsh rabbit. The next night I made one more attempt with those traps. I concluded the cheese was too small, so I bought one that evening with a slab of German cheese. I never had so much room in my elevated train before. The crowd fell over each other to give me a seat. I could have led them into the city hall.

"We want to lead that night with cologne on our pillows and every window open, but all the traps were baited, and I said to my wife, 'It's now or never!'"

"The narrative here and hereinafter is purely a fiction. The advertisements on the opposite side of the car."

"Well, did you catch a mouse?" demanded his friend with much interest.

"Yes, we caught a mouse."

"Which trap?"

"No trap at all. He fell into the bathtub."—New York Tribune.

He Had Begun.

Little Gladys, a Georgia, you said last summer when you were here that I took a cold bath every morning you would give me something nice.

"Yes, Henry, but you didn't do it."

"You taking them now, grandma. I 'daddy' know best."

"Clad to hear it, my boy. It will be the making of your health. Take this egg and get what you want to with it. How long have you kept it up, Henry?"

"I counted this morning."—Detroit Free Press.

United Her.

"Yes," said Thrift to Dier, "I understand that Miss Gail has been mired. I remember about me. Among other things she has been kicking about my mistake."

"She ought not to be so cruel as to kick a thing when it's down," replied Dier. —Detroit Free Press.

No Alternative.

"I wish you would get me a couple of packets of cigarettes," said the contented smoker to the tall warden.

"Can't do it," replied the officer. "The law must be allowed to take its course." —P. S. S. Co. Bulletin.

LARGEST CIRCULATION IN DULUTH.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.

March 31.—An area of low barometer, about half an inch lower than the normal at the center, covers the Western part of the country.

The temperature has now declined over all the country and is lowest over Colorado, and lowest north of Lake Superior, the lowest is at Denver, the lowest, 25, at St. Mary.

It is probable that the low area or storm center now to the west of this section will drift slowly northeastward and affect the present conditions around here, but still light showers are possible during the day and this evening.

The temperature will probably fall somewhat tomorrow, but there is no cold weather in sight.

The highest temperature here yesterday was 41, the lowest last night 22.

Duluth, March 31.—Forecast for 24 hours: tomorrow, Fair; Wednesday, Light local rains followed by clearing and generally fair weather Saturday; winds change to northwesterly; cooler by Saturday evening.

A. H. ROSSON, Local Forecast Official.

Washington, March 31.—Forecast for 24 hours: tomorrow, Fair; Wednesday, Light local rains followed by clearing and generally fair weather Saturday; winds change to northwesterly; cooler by Saturday evening.

Faster Time Schedules.

The recent action of the Burlington road in putting on a twelve-hour schedule between St. Paul and Chicago will have the effect of quickening the other roads between the Twin Cities and Chicago.

With improved equipment and with the rapid advance of perfection in motive power, and with increased care to the important branch sometimes designated as "maintenance of way," there is no reason why the foot of Lake Michigan and the head of navigation on the Mississippi river should be so far apart.

The Milwaukee and the Northwestern lines have about equal main line track age between the two points—nominally 418 miles—and it is, in spite of traffic associations, only a question of time when the fittest road will secure the most patronage.

Even twelve hours between the points named is not really fast time in the present state of the art. It only requires, in the case of the Milwaukee, a running rate of about thirty-five miles an hour, and the dwellers on the confines of Lake Superior already have three roads which exceed that speed on regular runs, for portions of the distance.

The action of the Burlington, which has always been a disquieting thorn in the sides of the older lines will, so The Herald believes, result in a much less schedule, even than the twelve hour run of the newer road.

Taking the existing conditions of track into consideration there is no prudent or financial reason why a ten hour run cannot be made with a limited train between the two points, or a speed maintained for the entire distance, of approximately forty-five miles an hour. This will allow a plentiful scaling of speed within the time specified, for entering both terminal cities where municipal regulations forbid high mileage.

The people of the Northwest pay a higher comparative rate for their transportation per mile than do residents in the Southern climes, and there is no reason why they should not have, at least, equal time schedules.

A Popular Idea.

Duluth must be cleaned. The Herald's demand last evening in favor of giving the city an extra spring cleaning struck a popular chord. Public sentiment is heartily in favor of it.

There is no wavering in the general voice of approval of The Herald's idea.

There is not a break in the phalanx of public expression for the immediate taking of steps that will put Duluth in a first-class sanitary condition. Not only is it the people's wish that the council should take action towards securing this desirable end, but it is their desire that a move should be made without delay.

The beautiful summer climate of Duluth yearly attracts many visitors. If the city were made attractive with clean streets and alleys and backyards, the numbers of the visitors would be greatly increased. This year many thousands will come from Europe to see the World's fair. It is a short ride from Chicago to Duluth, and the railways will no doubt make reasonable rates for tourists, so that a large number of people will be attracted to see the rapidly growing Zenith City, the coming metropolis of the Northwest. We must be prepared to receive them, and we certainly will not be in shape to invite them to visit us if the streets are filled with dirt and the alleys and backyards covered with foul-smelling garbage heaps, breeding disease of all kinds.

The city's location on the side of a hill makes it comparatively easy to keep it clean, but it never has been clean. Never in the history of the city have any energetic steps been taken to thoroughly clean the city. Several times a half-hearted attempt has been made, but it accomplished but little and the old filth, and dirt were allowed to accumulate once more.

Duluth is not a village now, and the methods of sanitation that obtained in

village days must be abandoned. They must give place to modern methods that should be utilized in a city of Duluth's size and importance. It will cost something, it is true, to clean the city, because it is shockingly dirty at many points, but the expenditure will be amply repaid by the improved sanitary condition, the lowering of the death rate and the beautifying of districts that are now scenes of squalor and filth.

It would be a great advantage to Duluth to be known as a city where strict sanitary regulations are enforced, and where cleanliness is really regarded as next to godliness. Why not give Duluth this prestige? Let the common council make a start at its next meeting.

The Telegraph.

Great interest is being manifested in the telegraph, or long-distance writing machine, the latest invention of Prof. Elisha Gray, and several readers of The Herald have asked that it be described.

The machine consists of a transmitter and a receiver associated for use at one station. The structure of these instruments is remarkably simple, and the mode of operation is in all respects direct and positive. The method for transmitting the electric impulses to the line and then converting them in the receiver into the corresponding movements of the automatic pen are all alike distinguished by simplicity and directness. They are all of a positive character and are therefore not dependent upon or influenced by accidental changes in conditions.

In the transmitter an ordinary lead pencil is used, near the point of which two silk cords are fastened at right angles to each other. The cords connect with the instrument and, following the motions of the pencil, regulate the current impulses which control the receiving pen at the distant station.

The writing is done on ordinary paper, five inches wide, conveniently arranged on a roll attached to the machine. A lever at the left is so moved by the hand as to shift the paper forward mechanically at the transmitter and electrically at the receiver. The receiving pen is a capillary glass tube placed at the junction of two aluminum arms. This glass pen is supplied with ink which flows from a reservoir through a small rubber tube placed in one of these arms.

The electrical impulses coming over the wire move the pen of the receiver simultaneously with the movements of the pencil in the hand of the sender. As the pen passes over the paper an ink tracing is left, which is always a fac simile of the sender's motions, whether in the formation of letters, words, figures, signs or sketches.

Professor Gray has been at work on this invention for the last five years, but it is only within the last year that he has perfected it. The system is soon to be introduced in Richmond, Va. The advantages claimed for the telegraph by Professor Gray are that any person accustomed to writing can use the telegraph that whatever is written at the end of the circuit is reproduced in fac simile at the other; that arbitrary signs, pictures, diagrams, figures, tabulated statements, cipher and shorthand signals are transmitted as well as ordinary handwriting; that the sender and receiver each has a record of every message and reply; that if the receiver is absent, he will find the message on his return; that the telegraph works noiselessly and insures secret service; that it is so simple as to be easily kept in order; that its operations are not affected by induction or leakage; that the line cannot be so tapped as to intercept or steal a message.

Curious Pronunciations.

An Englishman who was recently in Chicago told an interviewer that he is amused with American ridicule of English pronunciation of proper names, like "Chumley" for Cholmondeley, "Beecham" for Beauchamp and "Grinnich" for Greenwich. And he went on:

In England you will find as a rule that people pronounce Massachusetts "Massachusetts," absurd? Of course it is, but how are you going to tell? The rule by which it is pronounced "Massachusetts" is purely arbitrary. The most curious of all your mispronunciations are perhaps the adapted French names. How in the name of the eternal fitness of things do you get "Son Saint Mary" out of Sault Ste. Marie? "Terry Hut" for Terre Haute is just a little worse. It is unaccountable, too, how you came to call Prairie du Chien "Prairie du Sheen." Of course you have a right to arrange your own pronunciation, but give us the same liberty. We at least have the excuse that our names are ten or fifteen centuries old and have had opportunity to grow naturally corrupted in the lapse of time.

"There is much worthy of reflection in the Englishman's good natured criticism. With so many instances in this country of strange pronunciations, we can hardly afford to poke fun at our neighbors."

The tragedy in the Michigan state prison, where Latimer, a convicted murderer, poisoned two of his keepers, is said to have created a great sensation in the state legislature at Lansing. Whether it will have the proper effect there remains to be seen. Michigan abolished the death penalty several years ago and is reaping the results of the unwise action. Latimer killed his mother and should have died on the gallows. A foolish law gave him a chance to commit another murder.

The Saturday Herald will be a very interesting paper tomorrow and it will be the best paper published in this section of the country until the following

Saturday. The Herald daily publishes more live local and telegraphic news than can be found in any other paper at the head of the lakes, and that its enterprise is appreciated is shown by its rapidly increasing business. The people know a good thing when they see it.

The legislature is still floundering around over the question of reapportionment. The latest scheme which has been proposed is to reduce the size of the legislature, cutting down the senate to thirty-five members and the house to thirty, against fifty-four and 114 as at present. This is a good idea and a fair division on that basis would be acceptable to the people. The senate is now unduly large, much larger than any other state senate in the Union.

A member of the legislature has introduced a bill prohibiting newspapers from publishing anything reflecting on the dead which may be disclosed at post mortem examinations made by coroners. Such a law would be unconstitutional as an attempt to abridge the liberty of the press, and no more attention would be paid to it than is given to the farcical John Day Smith law prohibiting publication of the details of executions.

President Cleveland has a warm corner in his heart for Hon. T. F. Bayard of Delaware, who was secretary of state in his first administration, although not a very successful one. He is now sent as the first ambassador from the United States to the court of St. James, where he will doubtless sustain the dignity of this country in a proper manner.

The appointment of Lewis Baker, of the St. Paul Globe, to be minister to Nicaragua, Costa Rica and San Salvador is a reward for party service that is deserved. Mr. Baker worked hard in the last campaign and he is likewise well fitted for the office. The position is worth \$10,000 a year.

M. Zola is still knocking at the doors of the French academy, but those on the inside appear to be deaf to the noise he makes. This fact raises the academy in the world's estimation.

Next Thursday the Chicago voters will decide whether Carter Harrison or Sam Allerton will be the World's fair mayor. At this distance, it looks like an easy victory for Carter.

RED LAKE FALLS ROAD.

President Holmes Has Returned From New York and Is About Ready to Begin Operations.

Ground Will Be Broken Tomorrow and Active Work Commenced When the Weather Will Permit.

New York Capitalists Have Combined to Furnish All the Funds Needed for Its Construction.

President Holmes of the Duluth, Red Lake Falls & Northern road, is in the city today and has issued a notice for a special meeting of the stockholders of the company to be held here on April 4. The object of the meeting is to make some changes in the articles of incorporation to suit the views of New York capitalists who have become interested in the road and propose to furnish the funds for its construction.

Mr. Holmes authorized The Herald to say that he has formed a strong combination of capitalists to carry out his plans and that active work will begin at once. Ground is to be broken tomorrow, and as soon as the weather permits the work of grading will be pushed vigorously. The road is to be bonded for construction purposes to the extent of \$25,000 per mile for one hundred miles of the main line, and provision is made for building branch lines for \$25,000 per mile. It is also provided that special bonds shall be issued to the extent of \$25,000 for terminals in the city of Duluth. These terms are to be the Minnesota Point, and Mr. Holmes claims connection will be made so easily between the point and the main line by a railway ferry that no one will want a tunnel for several years to come.

Mr. Holmes has been in New York since early in October, being detained there by the various disturbances in the financial world in completing his negotiations, but now that success has crowned his efforts, he is pleased that he was so persistent. The late spring will naturally delay the beginning of active operations until about the end of next month. As soon as the special meeting of the company is held and the desired action taken, Mr. Holmes will make another flying trip to New York, and then return to personally superintend the work.

TO BREAK THE CLIQUE.

Duluth men working with Armour against the Wheat Corner.

Duluth grain men think they are able to snap their fingers at the May clique at Chicago, and are jubilant. By a combination with Armour they will ship several million bushels of wheat to Chicago in May. It is the opinion of the grain men here that the May clique is here and states that 2,000,000 bushels have been bought in Minneapolis and 3,000,000 here for rail delivery in Chicago, where cleaning machinery will make Duluth No. 1 northern grade acceptable on Chicago contracts.

He has also negotiated for a large amount of vessel room at 3 1/2 cents to Chicago in May, and it is to be ready if he wants it. By putting all this cash wheat at the clique it is believed it can be easily broken and the May cornerers get their deserts.

Already all the refrigerator cars of the Armour company that can be secured are being hurried forward to be loaded at Duluth and Minneapolis for Chicago, and it is stated that the Armour men have secured valuable concessions on freight cars, etc., from the Milwaukee road. One elevator company has agreed to put 1,000,000 bushels into the Armour deal, and others which are more heavily short will do more.

After Eleven Weeks.

Exactly eleven weeks after the destruction of the old Hotel St. Louis, or at an early hour this morning flames and smoke broke out in the ruins of the Michigan street side of the site in the vicinity of the pile of coal which burned so fiercely at the time of the fire. It is supposed that the recent melted the big bank of snow and ice over the smoldering coals, and allowing the gases to escape, started the embers into life again.

Is Beginning Early.

George West, the 14-year-old boy who seems to be determined to walk in the footsteps of Jesse James, is confined in the police station. He shot a young son of Contractor Lok yesterday. The injury is not serious.

Notice.

MASONIC BANQUET.

Scottish Rite Masons Had Their Annual Feast Last Evening.

The Maundy Thursday banquet held by the Scottish Rite Masons at the Temple last evening was a complete success. This annual banquet is one of the ancient observances of the Scottish Rite and attendance is obligatory upon certain members of the order. T. W. Hugo was master of ceremonies and the exercises of the evening were under the auspices of Peterson & Co., 305 Croix, A. A. S. R. Valley of Duluth.

At the conclusion of the banquet, for which 100 covers were laid, toasts were delivered as follows: "The Government of the Country," Bro. R. E. Denfield; "The Supreme Council and Venerable Bro. J. C. Carey, Commander," Bro. J. E. West; "Maundy Thursday," Bro. W. E. Richardson; "The Grand Lodge of the State," Bro. W. B. Patton; "The Memory of Brethren of the Kite Whose Labors Here Below Have Ceased," Bro. C. Cranfill; "Our Visiting Brethren," Bro. J. N. Peterson; "The Class of 193," Bro. Robert Forbes.

After the banquet and toasts, the following officers were elected for three years for St. Croix chapter: Master, T. W. Hugo; senior warden, W. E. Richardson; junior warden, J. K. Persons; orator, W. White; almoner, J. R. Carey; secretary, J. E. Cooley; treasurer, J. P. Johnson; master of ceremonies, W. G. Tenbrook; expert, G. A. Flack; assistant expert, B. Silberman; guardian of the temple, W. B. Patton; Tyler, H. Van Brunt.

Zenith council, Kadash No. 3.—Commander, T. W. Hugo; lieutenant commander, S. L. Frazer; second lieutenant commander, Geo. W. Buck; chancellor, D. W. Barnum; orator, Geo. N. LaVague; almoner, J. R. BOXING CLUB FOR DULUTH.

Home News Which Comes by Way of St. Paul.

Alex. McKenna, of Duluth, was at the Windsor yesterday, says the St. Paul Globe. He is interested in a number of business enterprises in that city, and is the holder of a large quantity of real estate there.

"We are to have a club in Duluth in the near future," he said, "which will be devoted to the amusement of our citizens who are desirous of witnessing athletic contests and boxing matches. It will really be a boxing club, and some exciting battles will be fought there. It will be conducted in such a manner that no one outside of the members of the club will be allowed to witness the events. About fifty of us will pay a certain sum each, whereby we will be able to pay all of the expenses and the purses for the fighters, and then we will lock the doors of the club and start in."

The club will be under the management of Fred L. Seikas, a newspaper man, formerly of St. Paul. He is well acquainted with the sporting men of the city, and has among his friends a number of professional prize-fighters, who will be given inducements to appear before our club. Probably the exhibition to be given will be between him and a friend of his, Paddy Harrington, of St. Paul. The events will be of a strictly private nature, and the club side will know of them except the members.

Lumbering in Itasca.

Next Saturday Joseph Dunson, will case logging for the season, says the Grand Rapids Magnet. He has two camps, one on Prairie lake and two on Prairie river. His cut will run into 100,000, which was done by seventy-five men.

Hurd & McAvity broke camp last week. They cut 2,255,000 at the Hurd camp, 5,000,000 at the main camp, and 2,500,000 at the Stillman camp. They averaged ninety men during the winter. Price Bros. will break camp this week. They had one camp at Hanson brook, two on Balaun brook, two at Hardy lake, one at Prairie river and one at Hurd brook. Their cut amounts to 25,000,000. They averaged 250 men.

The Saturday Club.

The Saturday club will discuss history tomorrow under the leadership of Mrs. A. H. Crasswell. The program is as follows:

North German confederation.
The Franco-Prussian war, causes, items of interest and results.
Talks a military system and common schools.

Observing the Day.

Things are dead around the city hall today. Nearly all the offices are closed, in keeping with an order issued to that effect by the mayor yesterday. All who did drop into their offices this forenoon said that they would not show up after noon. The elevator was not running in the Temple, the land office people were observing the day and the circulation department of the public library was shut up tighter than a drum.

The Municipal Court.

In municipal court this morning three unfortunates went up ten days each for drunkenness. John Smith, not supposed to be the one who discovered Pocahontas, confessed his guilt of an indecent exposure of person. His sentence was deferred. Mary Glenson and Eunice Brown, arrested last evening on the charge of residing in a house of ill-fame, failed to appear, whereupon their bail was declared forfeited.

Johanna said.

"Boys, don't sloss-por business, bay flowers for us flicker, at Anderson's, the florist, Merchant's hotel."

The Employers' Liability policy, issued by the Fidelity and Casualty company, of New York, (assets \$1,812,955.42) indemnifies the employer against damages he may be required to pay in settlement of accidents to employees within the limits prescribed in such policy. World's Fair Visitors.
An intending visitor to the coming World's fair at Chicago need have no fear as to the possibility of securing satisfactory accommodations. The rates, at either the many hotels or residences listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 600 private families who will accommodate visitors during the time of the fair, in Chicago during the time of the fair, viz: May 1st to October 30th; gives their names and addresses, and number of persons they will accommodate. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, corresponding in advance with one or more families in that locality with regard to the accommodations desired.

The Wisconsin Central lines will in due time publish low excursion rates to Chicago and return for this occasion, while the daily passenger train service, including through sleeping and dining cars to Chicago, will be as usual at the head of the list in every particular.

To help you in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this book, which may be obtained at 50 cents per copy.

THREE MEN BLOWN UP.

A Terrible Accident in a Pennsylvania Stone Quarry Caused by an Explosion of Dynamite.

Three Men Were Frightfully Injured and One Has Died and Another Cannot Recover.

A Slow Burning Fuse Caused Them to Return Just When the Awful Explosion Occurred.

PITTSBURGH, Pa., March 31.—Late yesterday afternoon three quarrymen named Houseman, Ryan and Kimmel, working in Ryan & Brown's stone quarry near Aetna station on the Pittsburgh & Western railroad, were blown up by an explosion of dynamite. The workers had ignited a fuse leading to a blast and retired to a place of safety.

The fuse was so slow that they concluded it had been extinguished and returned to relight it. Just as they reached the spot a terrific explosion occurred.

Houseman died from his injuries during last night. Ryan is in an extremely critical condition and cannot recover. Kimmel was less severely hurt and will get well.

Houseman leaves a large family. Ryan, who is a son of one of the owners of the quarry, is married.

AGAINST WHARTON BARKER.

Serious Charges Made By the Finance Company of Philadelphia.

PHILADELPHIA, March 31.—Counsel for the Finance company, of Pennsylvania, have completed the series of charges made by the company against Wharton Barker. In the proceedings, the Finance company appears as complainant, and the defendants are Wharton Barker and Abraham Barker, trading as Barker Bros. & Co.

The bill recites in brief that Wharton Barker, while acting as president of the Finance company, between June 7, 1887, and Nov. 20, 1890, caused the Finance company to buy a large amount of stock, making representations in some instances that he was entirely disinterested in the whole transaction.

The bill alleges on the other hand, that Mr. Barker caused this stock to be unloaded on the Finance company in his own interest and realized excessive brokerage fees therefrom. The court is asked to order an accounting of the brokerages fees which, the bill alleges, aggregate a very large amount, the totals adding up to \$300,000 and upwards.

The court is asked to decree that all profits which shall have been ascertained to be due shall be paid over with interest to the complainant.

TO PROTECT DEPOSITORS.

Attorney General Olney's Action Regarding the Gate City Bank.

NEW YORK, March 31.—A special to the Sun from Atlanta, Georgia, says that the investigation into the affairs of the Gate City national bank, by order of Attorney General Olney has been expedited. The grand jury was about to find true bills against two officials of the bank in addition to Defaulter Redwine.

There is now nearly \$400,000 in the bank's vaults, collected since the bank closed. This amount, with other assets, would enable the depositors to get dollars for dollar if the business was properly managed.

The indictment of any more bank officials would have imperiled the bank's affairs financially and the re-opening would have been impossible. This would work great injury to the depositors.

SOUTHERN INDUSTRIES.

Good Progress in the First Quarter of This Year.

WASHINGTON, March 31.—The quarterly statement of Southern industries prepared by the Tradesman, of Chattanooga, Tenn., shows that in the first quarter of 1893 the new industries established exceeded those of the first quarter of 1892 by 108.

While for the first quarter of this year only eight development companies have been incorporated, during the same period for last year twenty-seven were formed. The quarter just ended also shows seventy-six cotton and woolen mills established, fifty-nine flour and gristmills, twenty-nine canning factories and the building of thirty-two water works plants.

Put Out of Church.

REDWOOD FALLS, March 31.—A sensational trial took place Wednesday at Morton when Mrs. Sarah R. Tail, a member of the Methodist church, was publicly tried for stealing. She had been a prominent member and the trial was attended by a large audience. Judge J. H. Bowers was attorney for the church and E. M. French, Mrs. Tail's attorney. The jury brought in a verdict of guilty and she was removed from the church.

Will Camp at Chicago.

HARRISBURG, Pa., March 31.—There is not much doubt that the national guard of Philadelphia will encamp at Chicago during the World's fair. Adj. Gen. Greenland said last night that the pressure for such a trip was quite strong. He intimated that the summer encampment at Mount Gretna would be abandoned and the trip to Chicago taken instead.

Died From Paralysis.

MANSFIELD, Ohio, March 31.—S. C. Smith, ex-deputy collector of internal revenue, for this district, died of paralysis at his home in this city last night. Mr. Smith was born in Harrisburg, Pa., and was 72 years of age. He was a prominent citizen and a resident of Mansfield for fifty years. Seven children survive him.

A Shoe House Suspended.

POPULAR BLUFF, Mo., March 31.—The shoe house of Lyons & Werner, of this city, was closed by attachments amounting to \$20,000. The nominal assets will not reach half that amount. Gabe Lyons, a brother of one of the members of the firm, is the largest creditor.

BITTER FIGHT IN COLUMBUS.

The A. P. A. and the Catholics Opposed in an Election.

COLUMBUS, O., March 31.—The municipal election to occur next Monday is attracting great attention. It is a bitter fight, being waged between the Catholics and the American Protective association, composed of both Republicans and Democrats pledged to vote against every Catholic and Catholic sympathizer. They claim a membership of over 10,000, and if they win they will dismiss every Catholic teacher in the public schools.

VICTORY FOR ESCHERICH.

Final Decision in a Noted Church Case in Illinois.

OTTAWA, Ill., March 31.—The decision of Judge Shepard, in the church case of Schweiker vs. Husser was affirmed by the supreme court today. This practically settles the Evangelical church war which has been going on for several years in Illinois, Indiana, Ohio, Pennsylvania and other states.

THE HEADSMAN AT WORK.

Maxwell Busily Engaged Beheading Republican Postmasters.

WASHINGTON, March 31.—Fourth Assistant Postmaster General Maxwell today appointed 136 fourth-class postmasters, which involved 59 removals. The largest number of appointments was made in Indiana, where there were 36, including 18 removals.

In Missouri there were 16 appointments and 7 removals; in Tennessee 20 appointments and 7 removals; in Vermont 11 appointments and 10 removals; in Kentucky 9 appointments and 2 removals, and in West Virginia 8 appointments, all of the incumbents having resigned.

FINED FOR CONTEMPT.

An Interesting Occurrence Which Furnished Considerable Excitement at the Municipal Court Today.

W. C. McAdam Objected Vigorously and With Great Persistence to One of Judge Powell's Rulings.

Whereupon a Fine of Five Dollars Was Imposed and the Lawyer Taken Into Custody.

W. C. McAdam, the well-known attorney, who also is court commissioner, this morning in municipal court was fined \$5 by Judge Powell for contempt. McAdam had been arguing a motion in the case of Tillie Quinn vs. Joseph Young. Judge Powell ruled adversely to McAdam's argument. As soon as the attorney comprehended the nature of the ruling he jumped to his feet and said:

"The defendant has rights here."

"I make the order to the best of my judgment," replied the judge.

"The defendant has rights here," again asserted the attorney.

"I have made the order and that's the end of it," said the judge.

"Do I understand"—broke in McAdam.

"I have, made my ruling, sit down!" commanded the judge before the lawyer could end his sentence.

"Your honor, I insist!"

"Sit down, or I will fine you for contempt of court," retorted his honor, as he again headed off the persistent attorney.

"I will not sit down," replied the aggressive expounder of law.

"You are in contempt of court and fined \$5," said Judge Powell in reply.

"I have a right to stand before the court," again broke out the limb of the law.

"Mr. Officer, take him in charge and keep him in custody until his fine is paid," ordered the judge.

Court Officer Gillon at once proceeded to remove the contentious member of the bar.

"I have a right to stand before the court," once again commenced the offender, but before he could finish his remark, the officer had him by the arm.

McAdam at first showed fight, and lunged back but Gillon tugged steadily at his person and soon had him into the hall.

Within a few moments, McAdam went down into his trousers, pulled out a V, and paid his fine.

As the officer started out with the "scrappy" lawyer, Judge Powell turned quietly to Deputy Clerk Tishart and said:

"Make an order that he be held in custody until his fine is paid, and in default of which that he be committed to the county jail for a period not to exceed ten days."

The incident caused the most intense excitement in the court room. The offender was as white as a sheet. Deputy Clerk Tishart turned pale and trembled in his shoes, the spectators almost ceased to breathe, and Court Officer Gillon was pale for half an hour after his removal act.

A FEW PAPERS FILED.

Good Friday Does Not Prevent Filings in Clerk Sinclair's Office.

In spite of the day being Good Friday Clerk Sinclair's office did a little business and the following filings are reported:

A RICH SILVER DISTRICT.

Fine Specimens Brought From the Kootenai Country.

L. A. DeVol, of Minneapolis, arrived here today from an extended trip to the famous Kootenai mining district in British Columbia, and he is enthusiastic over what he saw there. He claims that it is the richest silver district ever discovered in the amount of the high grade ores. He has several samples of ore which he took from the earth himself, and they look remarkably fine, running about 1500 ounces to the ton.

Mr. DeVol was fortunate enough to secure five claims, one being close to the Skyline mine, which now has a shaft 355 feet and is turning out ore averaging 1500 ounces of silver to the ton. During the past sixteen months this property has produced \$300,000 worth of silver. Mr. DeVol also exhibited a fine specimen of steel galena, which is formed at a depth of forty-eight feet and which runs about 400 ounces in silver. A number of Duluth men are interested in Kootenai properties.

No Plans Decided On.

Alderman A. S. Wilson, who returned home a day or two ago, says that no plans have been decided on for the building to be erected at the corner of Superior street and Fourth avenue west. He says, however, that it will be a fine block, eight or nine stories high. The plans will be prepared in Duluth and not in the East as has been stated.

A Theater Burned.

ANDERSON, Ind., March 31.—Doxey music hall and theater burned last night. The loss is total and amounts to \$70,000, with \$25,000 insurance. Thomas Denny was seriously cut on his head by falling timbers. Ray Jeffries' foot was smashed and Dr. Johnson's wrist was dislocated while removing furniture.

French Art Delegates.

WASHINGTON, March 31.—The minister of France at Washington has informed the state department that the French ministry of public instruction and the fine arts has appointed Messrs. Compayre, Charnay, Chevreton, Hallex and Martin, and Misses Duvard and Vianet delegates to the Columbian exhibition at Chicago.

To the Union and Non-Union Workmen and the People of Duluth in General.

We, the Retail Clerks' union No. 3, R. C. N. P. A., respectfully ask your aid under the following circumstances:

You are aware of the fact that all the larger retail stores close evenings at 6:30 except Saturdays and Mondays, and thus give their employees four evenings of the week for recreation and enjoyment. For this we are thankful. But of late a number of small stores have sprung into existence, (as well as several fake unions and bankrupt stock sales) who never close at night, while there is a person on the streets, and who, for that matter, do not even close on Sundays. A committee from our union, in pursuance of action on our part, endeavoring to protect legitimate merchants, who close evenings, waited on these small storekeepers asking them to close like the others. That committee succeeded in getting promises from them that they would close, provided we could get one of their number, one B. J. Cook, who has two small stores, one 22 West Superior street and the other at East Superior street, to close also. That committee waited on this man when they received anything but courteous treatment from him, so that by his refusing to treat with our committee we have been unable to accomplish anything.

We ask you, fellow-citizens, not to trade at any stores that remain open after 6:30 evenings, and to let said B. J. Cook in particular see by your action that you love the spirit of fair play and justice. With the help of the Duluth public we have been able to close up stores of greater consequence than those of this worthy and keep them closed. Respectfully,

The Retail Clerks' Union No. 3, R. C. N. P. A.

J. J. WALKER, President No. 3.

At a regular meeting of the Retail Clerks' union No. 3, R. C. N. P. A., held Tuesday, the 21st inst., it was resolved that we lay before the Trades and Labor assembly the foregoing communication and ask that said assembly take action thereon, we being affiliated with it under the A. F. of L. of A., and take such further action with reference to said B. J. Cook as may see fit.

Retail Clerks' union No. 3, R. C. N. P. A.

J. J. WALKER, President.

Whereas the Retail Clerks union, No. 3, R. C. N. P. A., who are affiliated with the Trades and Labor assembly, have brought before us their grievance against one B. J. Cook who persists in keeping open his stores at No. 22 East Superior street and No. 522 West Superior street, evening hours, although other merchants agree to close.

And whereas, it is our duty to protect all merchants who recognize union labor and uphold the Clerks' union.

Be it resolved, that we hereby call on organized labor and the public in general to trade only with stores that close at 6:30 evenings, and to have dealings with said B. J. Cook in particular.

And further resolved, that all delegates to the assembly report these resolutions back to their different unions for further action on their part.

Dated this 23d day of March, 1893.

JAMES McDOWELL, President, Trades and Labor Assembly.

WANT GRADES ALIKE.

Meeting of the Lumbermen in the Duluth, Ashland and Other Districts Called For Friday.

The Object Is to Establish a System of Uniform Grades, a Much Needed Reform.

Possibility That It May Lead to the Establishment of a Large Lumbermen's Association.

At the last meeting of the Mississippi Valley Lumbermen's association, L. A. Barber was appointed as a member from the Duluth district of the committee on uniform grades. In order to bring out a reform in the matter of grades, he has taken the initiative and called a meeting for next Friday at 2 o'clock, probably at the chamber of commerce rooms. Invitations have been sent to all the lumbermen in the Duluth district, in the Ashland district, along the St. Paul & Duluth road and at or near Brainerd and Aitkin.

Hereafter among these lumbermen there has been no uniformity of grades, and the need for a change has long been felt. Right rules and a provision for a fine for failure to abide by the decision of the meeting will probably be arranged. It may not be improbable that a lumbermen's association will be formed to include these districts, but none of the lumbermen will admit that any such move is contemplated. If it should be done, it would be one of the strongest associations in the country. The combination of the districts expected to be represented here is about 600,000,000 feet and growing larger each year.

NOT YET SETTLED.

Wholesale Men Still Negotiating Over the Erection of a Building.

W. R. Sweet of Minneapolis arrived in the city this morning and is in the conference with Messrs. Sagar and Parker of Auburn, N. Y., who are to put in the wholesale house over the question of a building and site. Mr. Sweet owns 75 feet adjoining the new Stone-Ordean building and is erecting thereon a building for the new houses. It will be seven stories in height. If built—the drug house taking half and the crockery house the other half.

Should the deal with Mr. Sweet fall through, R. S. Munger and T. B. Casey, of Minneapolis, will probably erect a building on their property adjoining the Chapin-Wells Hardware company.

Was Not Forgotten.

Ex-Emigrant Inspector Windom on returning to his late desk in the customs house this morning found that loving hands had decorated it in remembrance of his late official demise. A huge basket with a gory, carnine-stained, shawl head in it, over which was suspended a pair of shears, together with sundry other emblems of woe, made Mr. Windom believe that if gone he was not forgotten.

Too Far Away.

He was exceedingly demonstrative, and she could not conceal her anxiety lest the people in the next flat hear him.

He was lamenting his fate.

"Proud beauty," he exclaimed, "thou seemest removed from me. I extend my hand to clasp thee to my bosom, and thou art far away."

"Sir," she replied, while a puzzled light filled her eyes, "I don't understand you."

As he staggered to his feet he involuntarily brushed the lint from his knees.

"Too far, too far," he muttered, "I cannot reach her."

Seizing his hat he ran from the house. Presently the light burst upon her.

His Grounds of Refusal.

The colored man had been taken in the midst of the chicken yard at dead of night, and the next morning he appeared before the throne of justice.

"Will you explain," said the clerk, "why you were in that chicken yard last night?"

"Cuz, judge, do nighttime am do best time."

"None of that, please. Will you explain why you were there?"

The colored man drew himself up with dignity.

"No, sah, I won't," he said. "Dat's what dish yer cot' an fer, yo' honah."—Detroit Free Press.
